Branch Lines Around North Woolwich From Victoria Park To Beckton And Gallions:

Branch Lines Around North Woolwich J.E. Connor, 2001-03-01 Branch Lines Around North Woolwich From Victoria Park to Beckton and Gallions The Railways of London Docklands Jonathan Willis, 2022-09-15 This book provides a comprehensive study of the planning and building of railways in London's Docklands reflecting on the past 180 years of railway development. It describes the creation of the enclosed working docks at the start of the 19th Century and the introduction of railways in the middle of the century. By the 1970s the decline of the working docks led to a plethora of plans to regenerate the area but with little agreement on what should be done. The setting up of the London Docklands Development Corporation by the former Secretary of State for the Environment Lord Heseltine was a significant landmark expediting the Canary Wharf development. The book describes in detail the modern railway projects created to support the subsequent growing employment and population of the area including the Docklands Light Railway with its multiple extensions the Jubilee Line extension and Crossrail Elizabeth Line. The book will appeal to a wide audience: To railway enthusiasts who wish to learn more about the why and the how such projects are approved and built and to transport and planning professionals who wish to understand more about the ups and downs of the relationship between transport and development and the decision making processes within changing political, economic and employment scenarios. The end result has provided Docklands with a comprehensive hierarchy of quality transport services to match anyway in the world.

The Great Eastern Railway - From the Grouping to the Elizabeth Line 1923-2023 Charles Phillips, 2025-03-06 Explores the transformation of the Great Eastern Section from a backwater to a modernized railway hub from 1923 to 2023. This book is the sequel to the author's two previous volumes on the history of the Great Eastern covering the Early Years from 1811 to 1862 and the Late 19th Century and early 20th Century from 1862 to 1924. This book covers the years 1923 to 2023, describes how the Great Eastern Section of the London and North Eastern Railway was transformed from being something of a backwater during the inter-war years to being very much at the forefront of modernisation under British Railways. Within the book will be found how the Great Eastern Section coped with the threat of road competition during the inter-war years, its involvement in the Second World War and how under British Railways it came to be seen the epitome of modernisation beginning with the arrival of the Britannia Class locomotives in 1951 and culminating the complete elimination of steam power in the East of England at the end of 1963. The book describes the impact of the Beeching Report on the former Great Eastern. It chronicles the progress of the Section's through the electrification of its two main lines and the construction and opening of the Elizabeth Line. Preservation is also mentioned as are possible future developments. It is a book for anyone who is interested in the history of the railways of the East of England, railways in general and the history of the East of England. *The Railway Magazine*, 1915 **The Victoria History of the County of Essex** Herbert Arthur Doubleday, William Page, 1973 Bradshaw's shilling handbook [afterw.] Bradshaw's illustrated tourists'
