revealing the cause of the end of the last ice age and the cycles of geological events and species extinctions that followed Connects physical data to the dramatic earth changes recounted in oral traditions around the world Describes the impending danger from a continuing cycle of catastrophes and extinctions There are a number of puzzling mysteries in the history of Earth that have yet to be satisfactorily explained by mainstream science the extinction of the dinosaurs the vanishing of ancient Indian tribes the formation of the mysterious Carolina Bays the disappearance of the mammoths the sudden ending of the last Ice Age and the cause of huge underwater landslides that sent massive tsunamis racing across the oceans millennia ago Eyewitness accounts of these events are chronicled in rich oral traditions handed down through generations of native peoples The authors recent scientific discoveries link all these events to a single cause In *The Cycle of Cosmic Catastrophes* Richard Firestone Allen West and Simon Warwick Smith present scientific evidence about a series of prehistoric cosmic events that explains why the last Ice Age ended so abruptly Their findings validate the ubiquitous legends and myths of floods fires and weather extremes passed down by our ancestors and show how these legendary events relate to each other Their findings also support the idea that we are entering a thousand year cycle of increasing danger and possibly a new cycle of extinctions

The Monkey's Tail Tom Lethbridge,2024-11-01 In the 1960s T C Lethbridge s challenging probing studies were well established First published in 1969 The Monkey s Tail was as remarkable as his previous investigations Mr Lethbridge who was trained in Natural Science before he became an archaeologist had for years been unable to accept Darwin s theory of Evolution In this book he examines the theory in the light of his observations and experience He found it wanting in every particular which he examined In the first part of the book Mr Lethbridge puts his case against the theory of Evolution and in the second part he shows that the known facts of Evolution could be equally well explained in another way He had for many years been working on the fringe study of Extra Sensory Perception and he used that study to present an alternative theory to Darwinism Mr Lethbridge was well aware that much more evidence was needed before his ideas could either be proved or disproved finally but they do provide a reasoned explanation based on years of careful study The theory he put forward was not only more compatible with observed scientific fact at the time but less at variance with accepted religious beliefs This book is a re issue originally published in 1969 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication
