Rebuilding Lives After Genocide Linda Asquith,2019-03-27 This book examines how genocide survivors rebuild their lives following migration after genocide Drawing on a mixture of in depth interviews and published testimony it utilises Bourdieu s concept of social capital to highlight how individuals reconstruct their lives in a new country The data comprises in depth interviews with survivors of the Rwandan and Bosnian genocides and the Holocaust This combination of data allows for a broader analysis of the themes within the data Overall Rebuilding Lives After Genocide seeks to demonstrate that a constructivist grounded theoretical approach to research can draw attention to experiences that have been hidden and unheard The life of survivors in the wake of genocides is a neglected field particularly in the context of migration and resettlement Therefore this book provides a unique insight into the debate surrounding recovery from victimisation and the intersection between migration and victimisation
