The Scramble for Africa in the 21st Century Paul Hacourt,Mark Melliush,2017-07

The Railway and Modernity Matthew Beaumont,Michael J. Freeman,2007 Most research and writing on railway history has been undertaken in a way that disconnects it from the wider cultural milieu Authors have been very effective at constructing specialist histories of transport but have failed to register the railway s central importance in the representation and understanding of modernity This book brings together contributions from a range of established scholars in a variety of disciplines with the central purpose of exploring the railway less as a transport technology than as a key signifier of capitalist modernity It examines the complex social relations in which the railway became historically embedded identifying it as a central problematic in the cultural experience of modernity It avoids the limitations of both the close sighted empiricism typical of many transport historians and the long sighted generalizations of cultural commentators who view the railway merely as a shorthand for the concept of progress over the nineteenth and twentieth centuries The book draws on a diverse range of materials including literary and historical forms of representation It is also informed by a creative application of various critical theories

The Pivot of Civilization in Historical Perspective Margaret Sanger,2003-09 Today s heated debates over social issues such as abortion birth control ethnicity immigration race religion sexual behavior and welfare did not begin in the 1960s They began in the

last years of the nineteenth century and reached their zenith in the 1920s when this book sold over 200 000 copies Here is all the text of Margaret Sanger s 1922 best seller along with 31 chapters by her contemporaries to set what she advocated in historical perspective This is not history told after the fire and passion have died out These are words spoken in the heat of battle at a time when Sanger and others believed that the fate of civilization depended on their ideas winning acceptance here and around the world

Feminist Utopias Frances Bartkowski,1991-01-01 The utopias envisioned by Edward Bellamy and other novelists late in the nineteenth century were generally blueprints of government As satellites of men women were expected to share in the general improvement of society The resurgence of the feminist movement since the late 1960s has produced a very different kind of utopian literature Frances Bartkowski explores a body of work that is striking and vital because it reflects the hopes fears and desires of women who have glimpsed the possibilities of a bright new world freed from stifling patriarchal structures Feminist Utopias is a comparative study of the utopian fiction of nine women writers in the United States France and Canada Except for Charlotte Perkins Gilman s Herland 1915 the prototype for feminist literary utopias all of the works were published between 1969 and 1986 Bartkowski discusses Monique Wittig s Les Gu rill res Joanna Russ s The Female Man Marge Piercy s Woman on the Edge of Time Suzy McKee Charnas s Motherlines Christine Rochefort s Archaos ou le jardin tincelant E M Broner s A Weave of Women Louky Bersianik s The Eugelionne and two dystopian novels Charnas s Walk to the End of the World and Margaret Atwood s The Handmaid s Tale

TECHNO CRITICAL MANIFESTO Lawrence J. Terlizze,2020-03-10 A lot of confusion exists over the right ethical approach to new technologies Do we embrace it all as an unmitigated good Or should we take a more cautionary route that seeks to evaluate our own technology use and its impact on society from a critical perspective A new awareness of both the dangers and potential benefits new technologies offer will guide us through a morass of ethical questions We stress limits because it is here that the traditional dialectic of question and answer has broken down even talking about technological restraint is met with near universal scorn Nevertheless it is

through the negative side of this debate that the antithesis will transition into a resolve for the technological problem raised in this Manifesto *Innovative Automatic Identification and Location-Based Services: From Bar Codes to Chip Implants* Michael, Katina, Michael, M.G., 2009-03-31 This book emphasizes the convergence and trajectory of automatic identification and location based services toward chip implants and real time positioning capabilities Provided by publisher **Social Theory** Roberta Garner, Black Hawk Hancock, 2014-04-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other The third edition incorporates significant changes more readings reflecting a wide diversity of theorists a completely revamped chapter on gender new chapters on race and culture and unique material on the transitional giants who have helped to transform classical theory into contemporary theory As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a fresh take on social theory that foregrounds a plurality of perspectives and reflects contemporary trends in the field while still managing to be a teachable and affordable text **Social Theory: Volume II** Roberta Garner, Black Hawk Hancock, 2014-05-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other Volume II From Modern To Contemporary Theory uses key transitional theorists to illustrate how contemporary theory emerged from the past New chapters on race on culture and on media as well as a significantly reworked gender chapter deepen coverage As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a volume of readings that offers instructors flexibility in how they approach teaching and students an affordable and accessible introduction to the most important contemporary social theorists *Exploring Fact and Value* Abraham Edel, 1980-01-01 The great twentieth century dichotomy that has pervaded moral philosophy and value theory on the one hand and social science and social theory on the other concerns this volume Part one approaches this dichotomy between fact knowledge science and value worth morality from different angles It opens with a general study of the way value and fact are construed then locates where scientific materials enter into ethics Part two deals with issues of moral attitude and practical responsibility in the work of science and technology Scientists social responsibility as a function of changing social roles of science and knowledge and responsibility
