Breach Of Confidence:

Gurry on Breach of Confidence Tanya Aplin, Lionel Bently, Phillip Johnson, Simon Malynicz, 2012-03-29 Francis Gurry's renowned work *Breach of Confidence* published in 1984 was groundbreaking and invaluable in the field of intellectual property as the first text to synthesise the then burgeoning case law on breach of confidence into a systematic form. A highly regarded book, it was the first point of resort for practitioners and a key source for judges. Aplin, Bently, Johnson, and Malynicz bring us a new edition of this important work which remains faithful to the original in its approach but is fully updated in light of the developments since the first edition. The authors expand upon the original work in particular adding new material on the history and current relevance of the action for breach of confidence. The authors stress both the advantages and disadvantages of the action for breach of confidence and like Gurry they constantly distinguish the action from associated legislative regimes which regulate the access to acquisition, use and disclosure of information. The book extensively references the many analyses of the data protection regime and considers also issues of jurisdiction and choice of applicable law. Bringing together their particular skills and interests, the three authors produce a fresh re-writing of a highly significant text which retains the academic quality and precision of the original and stakes its claim once more as the leading authority in the field.

Breach of Confidence Megan Richardson, Michael Bryan, Martin Vranken, Katy Barnett, 2012-01-01 The authors of this important book have done a great service to our understanding of this fascinating area of law. Their shrewd and scholarly study traces the development and myriad reinventions of this protean doctrine from its eighteenth century origins through to its most recent manifestation as a private facts tort in English law, enriching legal analysis with consideration of the philosophical, social and economic contexts. Common law privacy scholars in particular will find that this book directly illuminates contemporary debates.

Gavin Phillipson, University of Durham, UK. The authors breathe new life into this complex, recondite branch of the law. An illuminating and penetrating study of an ancient remedy whose importance endures and even increases.

Raymond Wacks, University of Hong Kong. This concise yet detailed book explores the historical foundations and modern developments of the ancient doctrine of breach of confidence. The authors show that despite its humble beginnings, stilted development and air of quaintness, the doctrine has modern relevance and influence: its sense of trust and confidence still resonating with the information society of today. Topical chapters include: Inventing an equitable doctrine; Privacy and publicity in early Victorian Britain; Searching for balance in the employment relationship; as well as many others. *Breach of Confidence* will make insightful reading for all those interested in issues of privacy and information and will appeal strongly to practicing lawyers and judges as well as academic researchers and postgraduate law students.

Judicial Reasoning under the UK Human Rights Act Helen Fenwick, Gavin Phillipson, Roger Masterman, 2007-09-06 *Judicial Reasoning under the UK Human Rights Act* is a collection of essays written by leading experts in the field which examines judicial decision making under the UK's de facto Bill of Rights. Parliamentary Debates New Zealand. Parliament, 1912 Privilege Great Britain: Parliament: House of Commons: Committee on Standards and Privileges, 2011-03-31 This report does not look into specific allegations of hacking some of which are currently under investigation by the prosecuting authorities or may become the subject of judicial review Instead it considers whether hacking of MPs mobile phones if it has occurred may be a contempt of Parliament The committee has concluded that there could potentially be a contempt if the hacking can be shown to have interfered with the work of the House or to have impeded or obstructed an MP from taking part in such work or where a series of acts of hacking can be shown that the hacking has interfered with the work of the House by creating a climate of insecurity for one or more MPs It

is proposed that the draft Privileges Bill should include a definition of what is meant by contempt of Parliament and that the Bill should codify Parliament's powers to impose sanctions including a power for the House of Commons to fine The committee points out that hacking is an offence under the criminal law and that civil law remedies may be available to MPs just as they are available to others It suggests that MPs and the House should pursue legal remedies in preference to proceeding against hackers and that only in exceptional circumstances should a hacker who has been brought before a court of law be proceeded against subsequently for contempt In the view of the committee there should be no special provision made to provide MPs or Parliament with remedies through the courts that are not available to others OPCW: The Legal Texts Organisation for the Prohibition of Chemical Weapons,1999-05-15 TMC Asser Press co publication with the Organisation for the Prohibition of Chemical Weapons OPCW The Hague **McNae's Essential Law for Journalists** Mike Dodd,Mark Hanna,2018 The definitive media law guide for journalists and students alike The only media law text endorsed by the NCTJ McNae's offers unrivalled practical guidance on a wide range of reporting situations an invaluable tool throughout your journalism career Textbook on Civil Liberties and Human Rights Richard Stone,2012-04-26 Textbook on Civil Liberties and Human Rights provides a clear concise account of the law in the UK Throughout the text examples from topical cases place theory in context Readers are encouraged to engage with the debates that rage over civil rights and freedoms **An Introduction to the Comparative Study of Private Law** James Gordley,Arthur Taylor von Mehren,2006-07-06 Collection of readings materials and cases on the doctrine of private law in the common law and civil law Taxation of Entertainers and Sportspersons Adrian Shipwright,2024-11-16 A detailed guide to the taxation of entertainers and sportspersons to be released in three volumes and electronically There is no recent publication on this This publication is for the practitioner and others written by a practitioner who has been an academic Its design follows his way of working beginning with the basic materials and analysing them for application to any particular case It is a starting point for the adviser in a hurry It includes Key Points boxes to help as well as full contents for each Chapter There are also many tables and checklists There is often a further detailed analysis including on Article 17 OECD Model Treaty HMRC's published views on Image Rights the 1987 Regulations and DTR There is also a detailed Chapter on Avoidance It includes many examples Relevant statutory and related material are included in the text so everything is easily available Tax law requires an understanding of the legal analysis of the underlying matters Accordingly matters such as Image Rights or Personality Rights the Economic Torts Confidentiality and Passing Off are dealt with There is also a detailed case study at the end intended to bring matters together
