Agenda For Theology:

Agenda for Theology Thomas C. Oden, 2000 Postliberal Theology: A Guide for the Perplexed Ronald T. Michener, 2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity The movement initially began in the 1980 s with its association to Yale Divinity School Theologians such as Hans Frei Paul Holmer David Kelsey and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth Clifford Geertz and Ludwig Wittgenstein Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated Michener provide the reader with an accessible introductory overview of the origins current thought potential problems and future possibilities of postliberal theology The basic philosophical and theological background are be briefly discussed along with the seminal and predominant theologians identified with the movement Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda *Contextual Theology for the Twenty-First Century* Stephen B Bevens, Katalina Tahaafe-Williams, 2012-07-26 In this compact collection of essays on contextual theology the reader is offered fresh voices from the United States Latin America and Oceania The inclusion of diverse cultural voices is one of the book s strengths these voices emphasize the significance of contextual theology for our twenty first century The proposal of the book is to address new ways of doing theology opening up new and fresh topics for our theological agenda *Clear and Definite Words* Ronald G. Goetz, 2010-01-01 Clear and Definite Words is a lucid exposure of the present confusion within theological discourse It charges and proves that avoiding or equivocating on the question of ontology is impossible It thus undermines the premise of much theological discourse today and lays the way for greater theological clarity and commitment This book goes head to head with great forcefulness and passion against anyone and anything that has served to impede the right of theology to speak with clear and definite words *Forrester on Christian Ethics and Practical Theology* Duncan B. Forrester, 2017-05-15 Bringing together articles and chapters from his considerable work in theological ethics India and the social order Duncan Forrester incorporates new writing and introductions to each thematic section to guide readers through this invaluable resource This book offers stimulating studies in three related areas Indian Christianity with particular attention to the caste system contemporary Christian theological ethics and the distinctive and challenging theological approach that Duncan Forrester has developed in relation to public issues such as prisons and punishment welfare provision social justice and poverty *Christian Theology and African Traditions* Matthew Michael, 2013-05-21 Christian theology is increasingly recognized to be now a non western enterprise since the high concentrations of Christians in the world are no longer found in the Western societies Christian Theology and African Traditions takes seriously this present recognition of

the southward movement of Christianity from the western world to a non western setting It seeks to reposition Christian theology and faith to engage the African traditions in classical category of theology proper bibliology anthropology Christology pneumatology soteriology ecclesiology and eschatology and provides unique insights and problems that these classical and systematic categories poses to African Christianity Similarly it provides theological blueprint for non Africans who are interested in knowing the nature and shape of the Christian theology in non western settings Consequently Christian Theology and African Traditions goes beyond the mere criticism of Western misrepresentation of African traditions to seeing how the Christian theology in its systematic character engages the African traditions With this methodological template the work describes in the space of twelve chapters the different classical teachings of the Christian faith on God scriptures spirits and demons the nature of the human person the persons of Christ salvation the Holy Spirit the church and the future life in dialogue with some specific traditions of the African people Full Circle and Reversal Dwight Friesen,2002 **The Task of Theology** Anselm Min ,2014-09-11 A rare opportunity to read and reflect upon the thought of some of the most prominent voices in contemporary theology in one volume this collection offers informative indicators of the state of theology today Together these provocative essays offer a resource for teachers and a chance to facilitate conversation among those working in different areas of an increasingly fragmented discipline Publisher Essays in Contextual Theology Steve Bevens,2018-06-12 Essays in Contextual Theology is a collection of essays that reflect on the doing of contextual theology from several perspectives After a general introductory essay subsequent essays reflect on topics such as contextual theology and prophetic dialogue criteria for orthodoxy the nature of tradition the role of culture the dynamics of conversion and the way theology is being done in World Christianity The collection closes with an autobiographical essay tracing the author s journey to becoming a global theologian **The Shape of Practical Theology** Ray S. Anderson,2001-01-31 Ray S Anderson lays out a new and renewing theological foundation for engaging in Christian ministry Illuminated by discussion and case studies he shows how a biblically informed approach addresses real issues in Christ s power *An Introduction to Third World Theologies* John Parratt,2004-06-10 The greatest change which has come about in Christian theology over the last generation has been the explosion of contextual theologies in different parts of the world This book provides an overview of the main trends and contributions to Christian thought of Third World theologies It sets out the common context of these theologies in their experience of colonialism and western missions and suggests that they have forged new ways of doing theology which are quite distinct from the theological traditions of the western world With key contributions from experts in their fields on Latin America India East Asia West and East Africa Southern Africa and the Caribbean this book situates Christian thought in the cultural and socio political contexts of their respective regions and demonstrates how Third World theologies are providing different perspectives on what it means to be a Christian in today s global world **The Living Church** ,1983 Contextualizing Theology in the South Pacific Randall G. Prior,2019-07-10 This book engages with a

widespread contemporary dilemma how do we do theology in a context where the cultures of the people are oral and not literate The nations of the South Pacific from their missionary beginnings inherited an approach to theology that was dominated by Western cultural categories The global movement of contextualization began to impact upon Pacific churches in the 1960s and challenged this inherited approach Significant changes have resulted but the dilemma has remained The dominant approach is still one that is defined by and better suited to literate cultures The consequence is that theology remains an alien enterprise distant from the life of the local churches and distant from the hearts and minds of the indigenous people In facing the dilemma this book exposes the fundamental differences between primary oral cultures and primary literate cultures and identifies the key factors that lie at the heart of the theological problem By addressing each of these in turn the author then paves the way ahead He offers a methodology for theology that is rooted within the oral cultural context of the South Pacific and potentially in any context where oral cultures are the norm The consequences for theology and for theological education are profound

Engaging with Contemporary Culture Martyn Percy, 2016-04-29
