Aging A Biomedical Perspective:

Ageing Denis Bellamy,1995-09-28 This definitive reference describes the evolutionary basis of ageing and the recent connections between biochemical damage and pathologies the central theme being DNA errors their detection and repair Presents an in depth study of ageing as a problem of genes and environment as a loss of systems precision as increased disease and as a repairable defect *Anthropological Perspectives on Aging* Britteny M. Howell,Ryan P. Harrod,2023-02-21 Taking a holistic approach to the study of aging this volume uses biological archaeological medical and cultural perspectives to explore how older adults have functioned in societies around the globe and throughout human history Challenging Invisibility: Practices of Care Karen D. Scheib,2004 Human Aging and Chronic Disease Cary Steven Kart,Seamus P. Metress,1992 **The Old Age Challenge to the Biomedical Model** Charles F. Longino,2020-11-25 Central to this book is the idea that the United States is in the midst of a health care crisis one that will be exacerbated as the population continues to age Longino and Murphy trace the philosophical and technological development of the biomedical model and show its inadequacy to deal with the massive chronic disease demand of the present and the future They argue that the delivery of health care will meet and survive the old age challenge only if the medical system is thoroughly democratized A more inclusive system must be devised that encourages a more reasonable allocation of resources gives more attention to prevention adopts a wider range of non medical interventions and invites citizens to become more involved in their own health care and the planning of services *Handbook of Cognitive Aging* Scott M. Hofer,Duane F Alwin,2008-03-20 Provides a unique perspective I am particularly impressed with the sections on innovative design and methods to investigate cognitive aging and the integrative perspectives None of the existing texts covers this material to the same level Donna J La Voie Saint Louis University The emphasis on integrating the literature with theoretical and methodological innovations could have a far reaching impact on the field Deb McGinnis Oakland University *The Handbook of Cognitive Aging Interdisciplinary Perspectives* clarifies the differences in patterns and processes of cognitive aging Along with a comprehensive review of current research editors Scott M Hofer and Duane F Alwin provide a solid foundation for building a multidisciplinary agenda that will stimulate further rigorous research into these complex factors Key Features Gathers the widest possible range of perspectives by including cognitive aging experts in various disciplines while maintaining a degree of unity across chapters Examines the limitations of the extant literature particularly in research design and measurement and offers new suggestions to guide future research Highlights the broad scope of the field with topics ranging from demography to development to neuroscience offering the most complete coverage available on cognitive aging Developing Services for Older People and Their Families Rosemary Bland,1996 Exploring new theory and practice in the provision of services for older people living at home this book contains three parts Part I examines the social context of old age looking at structural barriers such as ageism racism and sexism the poverty of older people relative to the rest of the population the received wisdom that the

increase in the number of older people in the population is problematic The second part of the book focuses on practice The authors examine the extent to which service providers work from a user led perspective looking at issues such as day services for people with dementia housing and support services GP social services collaboration short term breaks Part III examines specific issues such as development of professional skills the use of specialist teams empowerment This book is an excellent source of information for social workers those working with older people and lecturers of social work and gerontology

Baudrillard and Aging Jason Powell, 2025-04-07 Baudrillard and Aging seeks to delve into the intricate relationship between age and society drawing on the influential theories of French philosopher Jean Baudrillard This book will explore how aging and the aging process are shaped by the hyperreal world we inhabit emphasizing the paradoxical amplification of youth and the loss of authenticity in contemporary society By analyzing Baudrillard's theories in the context of aging this book aims to provide a fresh perspective on the challenges and paradoxes faced by individuals as they grow older In our modern society aging is a complex and multifaceted phenomenon that is often met with anxiety and resistance Jean Baudrillard's original theories on simulation hyperreality and the collapse of meaning offer unique insights into how the aging process has been transformed and mediated within a culture that relentlessly fetishizes youthfulness This book will examine how the hyperreal simulacra of aging are constructed perpetuated and imposed upon individuals as they age It will also explore the consequences of this simulated lifecourse including the erasure of authentic experiences of aging and the subsequent alienation and dissatisfaction experienced by older individuals
