Bengtson,Vern L. Bengtson, PhD,Norella Putney,Daphna Gans,2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging *Family Ties and Aging* Ingrid Arnet Connidis,2010 This advanced textbook covers issues of family ties and aging broadly the goal being to provide an integrated and thorough representation of what we know from the current research Whereas books on families and aging have traditionally focused on ties to a spouse and to children and grandchildren Family Ties Aging is more extensive and more reflective of contemporary society The text includes groups and relationships that typically receive short shrift exploring such neglected

The Encyclopedia of Aging Linda S. Noelker, PhD, Kenneth Rockwood, MD, FRCPC, Richard L. Sprott, Ph.D., 2006-03-17 A COMPREHENSIVE RESOURCE ON GERONTOLOGY AND GERIATRICS Since its inception in 1987 The Encyclopedia of

Aging has proven to be the definitive resource for scholars and students across the burgeoning and increasingly interdisciplinary fields of gerontology and geriatrics. Like its three esteemed predecessors, the fourth edition contains concise, readable explorations of hundreds of terms, concepts, and issues related to the lives of older adults, as well as timely coverage of the many new programs and services for the elderly. Updated under the distinguished stewardship of editor in chief Richard Schulz to reflect the infusion of new information across the scientific disciplines, this new edition brings readers up to the moment, significant advances in biology, physiology, genetics, medicine, psychology, nursing, social services, sociology, economics, technology, and political science. While retaining the format and standard of excellence that marked the first three editions, the fourth edition encompasses a wealth of new information from the social and health sciences. It contains the most current bibliography of an expanding literature, an exhaustive index, and extensive cross references. This much anticipated update of the field's most authoritative resource will take its place as an indispensable reference for specialists and non-specialists across a broad range of disciplines that now comprise the field of aging. **SPRINGER SERVING THE HEALTHCARE AND HELPING PROFESSIONS FOR MORE THAN 55 YEARS** **Ageing and Intergenerational Relations** Misa

Izuhara, 2010. Examining the key aspects of the new patterns of family relations, both conceptually and empirically from a global perspective, this text covers Europe, East Asia, Sub-Saharan Africa, Thailand, and the USA, with contributions from a wide range of authors. **Cultural Diversity and Families** Bahira Sherif Trask, Raeann R Hamon, 2007-01-18. *Cultural Diversity and Families: Expanding Perspectives* breaks new ground by investigating how concepts of cultural diversity have shaped the study of families from theoretical and applied perspectives. Authors Bahira Sherif Trask and Raeann R Hamon move the dialogue about culturally diverse families to a new level by topically discussing the issues affecting culturally diverse families rather than organizing the information by racial and/or ethnic groups. **Key Features:** Investigates the impact of cultural diversity on the study of families. In order to transcend simplistic categorizations that have juxtaposed White families in opposition to families of color and vice versa, this book delineates the increasing cultural diversity of American families and examines the impact of these demographic changes for the social sciences. Emphasizes the full range of cultural aspects. The book consciously emphasizes cultural aspects, not just ethnicity, but also socioeconomic status, gender, religion, etc., over racial impacts on family life, so as not to reinforce the myth that race is a biological truth. By sharing unique family experiences across groups, the book enhances understanding, directs future family research, and serves these families through responsive policy and practice. Offers more coverage of culturally diverse families than any other text. Divided into three parts, this comprehensive text first sets the stage of historical, current, and projected demographic trends pertaining to American families, explores issues facing culturally diverse families from a thematic perspective, and discusses the impact of cultural diversity for family theory, research, service delivery, and public policy. **Intended Audience:** This is an excellent text for advanced undergraduate and graduate courses such as *Families in a Multicultural Society*, *Ethnic Minority Families*, and

Cultural Diversity in American Families in the departments of Human Development Family Studies Sociology and Family Social Work *Human Development and Faith (Second Edition)* Felicity Kelcourse, 2015-07-28 Updated with the latest research this second edition approaches human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of the life cycle Human Development and Faith examines the interplay of mind body family community and soul at every stage of development Back cover Family Caregiving in Aging Populations T. Hill, 2015-05-26 Family members are increasingly likely to provide caregiving for older adults as the US population ages This book summarizes what we know about caregiving by spouses and other intimate partners adult children siblings grandchildren friends and other relatives as well as by members of racial ethnic and sexual minority groups The Encyclopedia of Aging, 2001 Work contains many cross references and an extensive bibliography Aging, Society, and the Life Course, Fourth Edition Leslie A. White, David M. Klein, 2002-06-27 Praise for the First Edition This is an admirable text and sourcebook but also achieves the status of an intellectually challenging confrontation with the reader It is in many ways a model which many of us would be well advised to follow I wish I could have written it British Journal of Developmental Psychology This revision of a best seller remains the only single volume book to present family theory in a clear and approachable manner providing a thorough introduction to current theories about the family for both advanced undergraduate and beginning graduate students The authors incorporate a broad scope of work from different perspectives in surveying seven major theoretical frameworks developed by key social scientists to explain variation in family life This incisive New Edition examines the exchange symbolic interaction family developmental systems conflict feminist and ecological theoretical frameworks and presents a typology for analyzing and comparing the seven frameworks while providing direction for future theory development **The Encyclopedia of Adulthood and Aging, 3 Volume Set** Susan K. Whitbourne, 2016-01-19 This authoritative reference work contains more

than 300 entries covering all aspects of the multi disciplinary field of adult development and aging Brings together concise accurate summaries of classic topics as well as the most recent thinking and research in new areas Covers a broad range of issues from biological and physiological changes in the body to changes in cognition personality and social roles to applied areas such as psychotherapy long term care and end of life issues Includes contributions from major researchers in the academic and clinical realms 3 Volumes www.encyclopediaadulthoodandaging.com Aging Leslie Morgan, Suzanne Kunkel, 2001 NEW edition More than any other social gerontology texts available addresses issues of diversity in aging by race ethnicity social class and gender throughout **Sourcebook of Family Theories and Methods** Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
