Aging And Caregiving Theory Research And Policy:

Aging and Caregiving David E. Biegel, Arthur Blum, 1990-02 This book provides human service practitioners policy makers researchers and students with a comprehensive analysis of the role and function of family caregiving in societies with dependent elderly populations It begins with an overview of theoretical conceptual and methodological issues in caregiving A number of empirical studies which address these issues are then presented Finally the contributors explore the implications for social policy resulting from our understanding of caregiving knowledge identify gaps and provide new studies which address these gaps give direction to practice interventions and illuminate implications for public policy *The Graying of the World* Laura Katz Olson, 1994 This unique book studies America's frail older population relative to the elderly in ten other nations It contains a cross national assessment of approaches to long term care for the elderly and explains the nature and extent of current and future problems related to caring for the functionally impaired elderly By studying and analyzing the ongoing struggles of other nations in their attempts to cope with growing populations of frail elderly readers in the U S can expand the parameters of their own national debate on the subject The Graying of the World shows the political economic and social context in which decisions on elder care are based and evaluates how successful various countries programs have been Chapters outline alternative approaches taken by disparate types of national systems highlighting unique and creative solutions to provide useful information on new and alternative ways to respond to personal and public issues related to elder care The elderly and their care in Finland France Germany Great Britain Israel Japan People's Republic of China Sweden and Yugoslavia are discussed as are the elderly in Canada and the United States Chapters cover the following topics for each country the increasing number of frail elderly and their costly health needs the current and future role of the state in elder care the current and future role of the family in elder care types of support services offered for the elderly including in home care community based care and institutional care the relationship of a nation's political economy to its attitude and policy on long term care innovative approaches to elder care Practitioners decision makers and the concerned general public will all find The Graying of the World an interesting and informative book that expands the discussion of health care options available for the elderly As such the book is also a helpful text for undergraduate and beginning graduate students of gerontology public policy and comparative politics as well as for social service practitioners It provokes much needed conversation on developing a healthcare plan for the future that meets the needs of a large elderly population *Handbook of Communication and Aging Research* Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and

chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book's contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging

Annual Review of Gerontology and Geriatrics, Volume 13, 1993, 1993-10-22 During the past few decades the dramatic social changes with regard to our aging population and changes in the family unit have made both demographic and socioeconomic consequences as well as an effect on matters of social policy The prestigious editors George L Maddox and M Powell Lawton have assembled an impressive group of expert contributors whose chapters address topics from the latest theory and research findings to the changing balance of work and families as well as patterns of kinship

Handbook of Social Work in Health and Aging Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume's 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today

Caregiving Systems Steven H. Zarit, Leonard I. Pearlin, K. Warner Schaie, 2019-02-21 Caregiving has emerged as a critical issue in the second half of the life cycle With the growth of the older population there have been dramatic increases in the number of people needing care and assistance The responsibility for care typically falls on families at a time when they have limited resources to meet these

needs At a societal level the need for care for growing numbers of disabled elders poses a major challenge for how to organize supportive services in an efficient and responsive system Bringing together multiple perspectives on caregiving the authors explore informal and formal family caregiving and the pivotal issue of how these systems interface and interact An overview of this variation is provided by examining family caregiving from three perspectives the effects of culture on helping patterns and family responsibility how different disabilities affect patterns of family care and longitudinal perspectives on the impact that caregiving has on family members **Handbook of Social Support and the Family** Gregory R.

Pierce,Barbara R. Sarason,I.G. Sarason,1996-06-30 This handbook provides the first collation and integration of social support and family research Eminent researchers from these fields address conceptual and methodological issues the role of social support in family relationships stress clinical problems and support needs for families With its coverage of a broad range of topics this resource will benefit researchers clinicians and graduate students in community counseling

developmental health and cognitive psychology as well as psychotherapy **Caring for the Elderly in Japan and the US** Susan Orpett Long,2013-01-11 In an era of changing demographics and values this volume provides a cross national and interdisciplinary perspective on the question of who cares for and about the elderly The contributors reflect on research studies experimental programmes and personal experience in Japan and the United States to explicitly compare how policies practices and interpretations of elder care are evolving at the turn of the century **Lifting Our Voices** Joyce Octavia

Beckett,2008 Lifting Our Voices is the only book to explore the dual roles of professional social workers who are also family caregivers and the only collection on caregiving in which the majority of contributors are African American After discussing the relevant literature Lifting Our Voices vividly and sensitively presents the caregiving experiences of ten professional social workers Using professional and theoretical knowledge and skills each contributor draws implications for various levels of social work and human service interventions These poignant descriptions and analyses recount both the frustrations and barriers of negotiating social service agencies and other institutions and the joys and triumphs of family caregiving Lifting Our Voices frankly discusses how a professional education either prepares or fails to equip an individual with the skills for successful intervention on behalf of a loved one Contributors hail from rich and varied backgrounds revealing the importance of age ethnicity gender marital status and gerontological expertise in the practice of family caregiving These essays explore situations rarely reported on in the literature such as caregivers and care recipients who represent the lifespan from preschool to retirement Lifting Our Voices graphically describes types of caregiving that are seldom discussed including simultaneous caregiving to multiple family members and reciprocal and sequential caregiving thus broadening and refining the very concepts of caregiving and family *International Perspectives on State and Family Support for the Elderly* Scott

Bass,Jill Norton,Robert Morris *Deceased*,2013-12-02 Within the context of long range planning this book examines the changing responsibilities of the state and family toward elders in different societies around the world International

Perspectives on State and Family Support for the Elderly presents a fresh range of lucid analyses of family caregiving policy from Canada the United States Sweden the United Kingdom Hong Kong Austria Denmark Israel and the People s Republic of China Different institutional structures levels of economic development and cultural values among other factors impact policy development in various countries With the information examined in this book readers can gain an understanding of elder care in other societies which can help them in developing policies for their own countries Authors of International Perspectives on State and Family Support for the Elderly address questions such as Who is responsible for caring for the aged What are the policy issues that determine how such care is handled in various countries Are the underlying principles upon which policy is based changing Who pays for the care of the aged What is the balance of the roles of government family and community Along with these questions authors discuss the importance of family care the well being payment and rights of informal caregivers providing services for informal caregivers shifting the burden of care from formal organizations to families the effects of governmental frameworks on caregiving the impact of the political agenda on caregiving caregiving and the welfare state International Perspectives on State and Family Support for the Elderly contains information for all professionals interested or involved in developing policy for the elderly Demographers sociologists social workers health care and public health professionals gerontologists and advanced students in these fields will find this book a helpful guide in their studies *Encyclopedia of Primary Prevention and Health Promotion* Thomas P. Gullotta, Martin Bloom, 2003-01-31

Foundational topics such as history ethics and principles of primary prevention as well as specific issues such as consultation political issues and financing The second section addresses such topics as abuse depression eating disorders HIV AIDS injuries and religion and spirituality often dividing such topics into separate entries addressing childhood adolescence and adulthood **Women & Aging** Helen Rippier Wheeler, 1997 Guide with more than two thousand bibliographic entries and cross references It includes journal articles book chapters essays and doctoral dissertations as well as complete books

Family Caregiving Across the Lifespan Center for Practice Innovations, Mandel School of Applied Social Sciences (Case Western Reserve University), 1994-03-16 Examining caregiving issues from a multigenerational family life cycle perspective this volume deals with the broad spectrum of chronic illnesses that necessitate family caregiving throughout the lifespan and discusses responses to these challenges by both caregiving families and caregiving systems Part One addresses the caregiving paradigm and the relationship of family caregiving research to family life studies Part Two examines conceptual aspects of caregiving ranging from the expansion of the caregiving paradigm caregiving processes and tasks to the positive aspects of caregiving Part Three emphasizes how family caregivers are affected by the connection or lack of it to macro level systems **Oxford Textbook of Old Age Psychiatry** Tom Denning, Alan Thomas, 2013-09-26 The Oxford Textbook of Old Age Psychiatry Second Edition previously called Psychiatry in the Elderly is an updated and revised version of this popular and highly respected textbook The book has established itself as the standard textbook in its field due to its unique

combination of comprehensive coverage clear writing and authoritative and up to date information This new edition maintains these strengths with chapters covering the basic sciences underpinning old age psychiatry clinical practice psychiatric services for older people specific disorders and medico legal and ethical issues This new updated edition involves 96 contributors from around the world bringing a truly global perspective to the textbook and highlighting both the common burdens and the differences in management from country to country New chapters have been included to reflect the development of old age care covering palliative care ethics of caring and living and dying with dementia Chapters have been revised and updated throughout with expanded chapters including those on brain stimulation therapies memory clinics and services and capacity which has been extended to include all mental capacity and decision making Broad in its coverage written by experts in their fields and maintaining a clear structure throughout the new second edition of the Oxford Textbook of Old Age Psychiatry is the essential reference for all old age psychiatrists as well as all those interested in the mental health care of older people

Balancing Work and Caregiving for Children, Adults, and Elders Margaret B.

Neal,1993-02 Exploring how caregivers juggle their responsibilities of work and family the authors of this volume suggest that dependant care needs to be addressed as a corporate family and community concern Drawing from literature as well as from their own extensive research they present a thorough investigation of the stress factors experienced by workers caught between the frequently conflicting demands of these two roles Policies benefits and services reviewed range from approaches that intervene in the caregiving process to those that change the world of work with such alternatives as flexible working hours child care facilities and tax credits for dependant care

Equity Choices and Long-Term Care Policies in Europe

August Oesterle,2017-07-05 This title was first published in 2001 An interdisciplinary investigation of key issues surrounding equity in long term care Examining equity choices in both finance and provision the author applies an original framework for systematic comparative analysis to the long term care policies within European welfare states

Valuing Care Work

Cecilia Benoit,Helga Hallgrimsdottir,2011-02-12 There are many forms of paid and unpaid labour encompassed in health care systems including home care for the elderly or disabled community health services and the care family members provide for loved ones Valuing Care Work is an international comparative study that examines economic organizations as well as intimate settings to show how personal service work is shaped by broader welfare state developments To trace the relationships between gender labour and equity in health care the essays in this volume analyse the rules and practices that shape care work The contributors highlight how national configurations of the welfare state shape the gendering of paid and unpaid intimate labour in a range of settings and discuss how the policies and practices associated with neoliberalism have focussed on efficiency and accountability to the detriment of other policy agendas including those that might further increase dignity and equity for both recipients and providers of paid and unpaid health care

Who Should Care for the Elderly?

William T. Liu,2000 This book comprises a collection of refereed and edited papers that originated from an invited

conference on East West values in elderly care held in Hong Kong in 1996 Organized under Western or Eastern perspectives the contributions reflect the belief that knowledge in the care giving field has reached a point where comparisons can shed useful insights into not only the differences between cultures but also between the perspectives of the scholars American Families and the Future Roma S Hanks, Marvin B Sussman, Barbara H Settles, 2015-12-22 As the world heads into the twenty first century individuals and their families are being confronted with a more diverse array of possible life experiences than has ever existed before Changes in longevity marriage fertility employment and many other areas have created new opportunities for individual and family choice and variability in life course experiences American Families and the Future discusses a variety of issues that face and will continue to families in coming years and describes various strategies families can use in their decisionmaking processes This enlightening book is divided into five main sections Demographic Issues Social and Economic Issues Technological Issues Family Process in Shaping the Future and Family Vision in Creating the Future Individual chapters view family problem solving from a variety of perspectives and disciplines American Families and the Future describes recent demographic trends and considers their implications for how individuals and their families plan and prepare for their later adult life reviews health care issues and concerns for the elderly and addresses strategies for self health promotion and illness prevention provides examples illustrating the uses and abuses of data to promote partisan views and agendas outlines a conceptual framework that can be used to understand problem solving and decisionmaking by individuals and family groups presents a model that explores family decisionmaking focusing on the conditions under which decisions are made presents findings from a study of early adolescents perceptions of their role in family decisionmaking The book closes with an upbeat discussion of possible solutions to current pathologies affecting human societies and cultures Professionals who work with families will find this book an enlightening and encouraging guide for helping families cope with the myriad issues and choices they face in planning for their futures **Families** Susan K Pfeifer, Marvin B Sussman, 2014-06-17 This special volume is devoted to the synthesis and review of theoretical and conceptual approaches associated with familial and non familial connections across the life span An important book as society returns to the family it compares and contrasts different disciplinary perspectives associated with intergenerational relationships Because intergenerational relationships have been the focus of research in many disciplines various perspectives have emerged about kin and non kin connections Renewed interest in families and familial connections is due largely to events and situations occurring in complex modernized societies which place the intergenerational nexus on center stage The leading researchers represented in this outstanding book provide rare opportunity for the scholarly comparison of the various perspectives in the broader spectrum of family relations Families Intergenerational and Generational Connecting is a significant addition to the body of research on family connections The three major areas of generational and intergenerational connections include theoretical and conceptual perspectives connections within the family and connections outside the family As the use of

families as support networks for individual members increases this timely book will be an invaluable aid to educators students and researchers concerned about families and familial and non familial relationships Counselors and therapists will value this enlightening book with its diverse theoretical and conceptual perspectives on kinship intergenerational solidarity and relations social supports and cross national perspectives on family connections
