Green,2009-11-23 From Jewish publishers to Appalachian poets Green's cultural study reveals the role of Mountain Whites in American racial history Part One 1880 1935 explores the networks that

created American pluralism revealing Appalachia's essential role in shaping America's understanding of African Americans Anglos Jews Southerners and Immigrants Drawing upon archival research and deft close readings of poems Part Two 1934 1946 delves into the inner workings of literary history and shows how diverse alliances used four books of poetry about Appalachia to change America's notion of race region and pluralism Green starts with how Jesse Stuart and the Agrarians defended Southern whiteness follows how James Still appealed to liberals shows how Muriel Rukeyser put Appalachia at the center of anti fascism and ends with how Don West and the Progressives struggled to form interracial labor unions in the South

**The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990** Sacvan

Bercovitch, Cyrus R. K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century revealing complex relations to changes in society Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970 linking writers as diverse as James Baldwin and John Updike John Burt examines writers of the American South describing the tensions between modernization and continued entanglements with the past Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature Finally Cyrus Patell highlights the voices of Native American Asian American Chicano gay and lesbian writers often marginalized but here discussed within and against a broad set of national traditions

**The Countryside Ideal** Michael Bunce, 2005-10-26 Draws together diverse images of landscape to explore the historical processes shaping our continuing attachment to the countryside seen in artistic expression attitudes to nature country life and the development of rural and urban land

**A Green and Permanent Land** Randal S. Beeman, James A. Pritchard, 2001 Once patronized primarily by the counterculture and the health food establishment the organic food industry today is a multi billion dollar business driven by ever growing consumer demand for safe food and greater public awareness of ecological issues Assumed by many to be a recent phenomenon that industry owes much to agricultural innovations that go back to the Dust Bowl era This book explores the roots and branches of alternative agricultural ideas in twentieth century America showing how ecological thought has challenged and changed agricultural theory practice and policy from the 1930s to the present It introduces us to the people and institutions who forged alternatives to industrialized agriculture through a deep concern for the enduring fertility of the soil a passionate commitment to human health and a strong advocacy of economic justice for farmers Randal Beeman and James Pritchard show that agricultural issues were central to the rise of the environmental movement in the United States As family farms failed during the Depression a new kind of agriculture was championed based on the holistic approach taught by the emerging science of ecology Ecology influenced the permanent agriculture movement that advocated such radical concepts as long term land use planning comprehensive soil conservation

and organic farming Then in the 1970s sustainable agriculture combined many of these ideas with new concerns about misguided technology and an over consumptive culture to preach a more sensible approach to farming In chronicling the overlooked history of alternative agriculture A Green and Permanent Land records the significant contributions of individuals like Rex Tugwell Hugh Bennett Louis Bromfield Edward Faulkner Russell and Kate Lord Scott and Helen Nearing Robert Rodale Wes Jackson and groups like Friends of the Land and the Practical Farmers of Iowa And by demonstrating how agriculture also remains central to the public interest especially in the face of climatic crises genetically altered crops and questionable uses of pesticides this book puts these issues in historical perspective and offers readers considerable food for thought
