Alexander the Great and Egypt Volker Grieb, Krzysztof Nawotka, Agnieszka Wojciechowska, 2014-09-01 This volume presents the papers of an interdisciplinary conference held in Wroclaw in 2011 dedicated to Alexander s expedition to Egypt as well as to his afterlife and legend tied to Egypt and Alexandria Regarding military aspects there are papers focusing on Egypt s strategic significance in 4th century Greek sources as well as on Alexander s conquest in comparison to earlier conquests of the land of the Nile Furthermore they re examine the chronology of Alexander s stay in Egypt and discuss the founding of Alexandria e g by linking it with 4th century urban developments in the Eastern Mediterranean Since Alexander s policy in Egypt is in large part reflected by hieroglyphic inscriptions and papyri other contributions focus on his legitimization

as a pharaoh his royal title as well as on Egyptian temples renovated on his order Alexander's expedition to Egypt and the East was also a powerful stimulus for the development of science in antiquity which is covered by papers on the mystery of the flooding of the Nile and the spread of astrology His afterlife and legend is presented in this volume by a nuanced position of Alexander in Ptolemaic ideology and art while further papers scrutinize and dismantle modern scholarly myths of Alexander's sarcophagus and his tomb in Alexandria Methodological approaches from different fields of scholarship such as Ancient History Classical Studies Egyptology and Archaeology are juxtaposed in this volume and may contribute not merely to the study of the Egyptian episode in the history of Alexander the Great

The Thebaid in Times of Crisis Ralph Birk, Laurent Coulon, 2025-01-27 This collective volume explores societal crises in Hellenistic Egypt focussing regionally on the Thebaid from small scale insurgencies to full fledged secession As a result of an international conference held at the Freie Universität Berlin May 2-4 2019 the presented case studies ask how actors and modern scholars of Ptolemaic Egypt shape and frame times of crisis and what traces remain thereof in the record As decisive moments in time crises reveal fundamental features of societies and structure the flow of events into historically meaningful yet potentially teleological trajectories In Ptolemaic historiography from Polybius till today the Great Theban Revolt 206-186 BCE served as such a turning point demarcating rise and decline By confronting the historiographic record with independent and yet partially unexploited sources such as temple epigraphy Demotic literary texts archaeological numismatic and private documentation the reunited studies aim at diversifying the perspectives on and in societal conflicts in Ptolemaic Egypt in order to gain a fuller and more nuanced picture of how various actors kings queens officials and priests coped with times of

crisis **Current Research in Egyptology 14 (2013)** Kelly Accetta, Renate Fellingner, Pedro Lourenço Gonçalves, W. Paul van Pelt, 2014-04-30 The fourteenth Current Research in Egyptology conference held at the University of Cambridge in March 2013 brought together speakers and attendees from six continents and hosted more than 50 presentations covering multiple aspects of Egyptology and its related fields. The aim of the conference was to cross cultural and disciplinary boundaries. The papers presented in these proceedings reflect this aim by presenting current research that draws on insights derived from anthropology, archaeology, archaeobotany, ethnography, organic chemistry, geography, linguistics, and law, amongst others. *Emperors and Ancestors* Olivier Hekster, 2015 Ancestry played a continuous role in the construction and portrayal of Roman emperorship in the first three centuries AD. *Emperors and Ancestors* is the first systematic analysis of the different ways in which imperial lineage was represented in the various media through which images of emperors could be transmitted. Looking beyond individual rulers, Hekster evaluates evidence over an extended period of time and differentiates between various types of sources such as inscriptions, sculpture, architecture, literary text, and particularly central coinage, which forms the most convenient source material for a modern reconstruction of Roman representations over a prolonged period of time. The volume explores how the different media in use sent out different messages. The importance of local notions and traditions in the choice of local representations of imperial ancestry are emphasized, revealing that there was no monopoly on image forming by the Roman centre and far less interaction between central and local imagery than is commonly held. Imperial ancestry is defined through various parallel developments at Rome and in the provinces. Some messages resonated outside the centre but only when they were made explicit and fitted local practice and the discourse of the medium. The construction of imperial ancestry was constrained by the local expectations of how a ruler should present himself and standardization over time of the images and languages that could be employed in the media at imperial disposal. Roman emperorship is therefore shown to be a constant process of construction within genres of communication, representation, and public symbolism. **Confiscation Or Coexistence** Andrew Connor, 2022-10-24 It is generally accepted that Roman administrators arriving in Egypt in the aftermath of Augustus' annexation of the province confiscated en masse the land and other property belonging to the temples of Egypt, estimated at as much as one third of the country. It is further accepted that this confiscation doomed the temples by removing their economic support and making them subservient to the Roman state, and that this in turn led to the collapse of Egyptian religion. In *Confiscation or Coexistence: Egyptian Temples in the Age of Augustus*, author Andrew Connor takes direct issue with both claims. The interpretative consensus developed after the publication of a handful of key documents (P Tebt 2 302, especially alongside BGU 4 1198 and 1200, and P Berl Leihg 1 5) Connor offers a fundamentally revised interpretation of these texts, building from a fresh examination of the papyri themselves. The book frames the interpretation in a wider discussion of Roman interactions with Egyptian religion, including material from inside and outside Egypt, and locates the development of an interpretative consensus in early 20th century

scholarship within the wider context of empire and colonization at the time In doing so Connor explores these papyri through their historical intellectual and linguistic contexts alongside a number of other important texts bearing on the relationship between the temples and the Roman state **The Materiality of Texts from Ancient Egypt**, 2018-10-08 The volume The Materiality of Texts from Ancient Egypt contains nine contributions from well known papyrologists Egyptologists archaeologists and technical specialists They discuss the materiality of ancient writing and writing supports in various ways through methodological considerations and through practical case studies from the early Pharaonic to the Late Antique periods in Egypt including Greek and Egyptian papyri and ostraca inscriptions and graffiti The articles in this volume present new approaches to the study of textual material and scribal practice especially in the light of the ongoing development of digital techniques that uncover new information from ancient writing materials The aim of the book is to encourage researchers of ancient texts to consider the benefits of using these new methods and technological resources

The Eastern Roman Empire under the Severans Julia Hoffmann-Salz, Matthäus Heil, Holger Wienholz, 2024-06-17 The year of the four emperors in AD 193 shows the cosmopolitan interconnectedness of the Roman Empire yet scholarship has long framed the Severan dynasty in a narrative of descent stressing their North African and in particular their Syrian origins The contributions of this volume question this conventional approach and instead examine more closely actual Severan policy in the Near East to detect potential local connections that determined this policy as well as how local communities and elites reacted to it The volume thus explores new beginnings and old connections in the Roman Near East
