

Aids And Heart Disease

Ronald Ross Watson

Aids And Heart Disease:

HIV Infection and the Cardiovascular System Giuseppe Barbaro, 2003-01-01 Past studies revealed that HIV infection may implicate diverse cardiac diseases such as cardiomyopathy coronary heart disease cardiac neoplasms endocarditis or pericarditis In addition it was found that highly active antiretroviral therapy HAART often causes as an adverse effect a metabolic syndrome characterized by lipodystrophy lipoatrophy dyslipidemia and insulin resistance leading to an increase in coronary artery disease and stroke This book focuses on the most recent findings in HIV associated heart disease and HAART associated metabolic and cardiovascular complications In a first part the epidemiology pathogenesis and molecular biology of HIV associated cardiovascular disease pulmonary hypertension lipodystrophy and HAART associated metabolic syndrome are reviewed The second part offers clinical and therapeutic insights into HIV HAART associated atherosclerosis coronary heart disease stroke vasculitic syndromes and pulmonary hypertension Besides cardiovascular complications in HIV infected children cardiac surgery in HIV infected patients and the prevention and management of HAART associated cardiovascular complications are points under discussion Finally the interaction between HAART and drugs commonly used to treat cardiovascular disease is carefully analyzed HIV Infection and the Cardiovascular System presents state of the art findings of basic and clinical scientists and is a valuable reference for specialists in cardiology and internal medicine as well as for infectiologists

Cardiovascular Disease in AIDS Giuseppe Barbaro, Franck Boccara, 2009-04-01 This book focuses on some of the new clinical and biological insights related to HIV associated metabolic and cardiovascular complications in the HAART era The introduction of highly active antiretroviral therapy HAART has altered cardiovascular manifestations in HIV On the one hand HAART has significantly improved the quality of life of HIV infected patients On the other hand the early data have raised some concerns creating an intriguing clinical scenery

AIDS and Heart Disease Ronald Ross Watson, 2004-06-22 The first reference to collect the latest research and reviews on the treatment and pathogenesis of heart disease in AIDS patients this reference attempts to improve the diagnosis management and therapy of HIV associated heart failure by studying the prolonged effects of immunosuppression and opportunistic and viral infection as well as cofactors affecting heart disease such as drug related cardiotoxicity cocaine abuse and nutritional deficiencies on cardiac function

Heart Failure: A Companion to Braunwald's Heart Disease E-Book G. Michael Felker, Douglas L. Mann, 2019-02-06 Up to date authoritative and comprehensive Heart Failure 4th Edition provides the clinically relevant information you need to effectively manage and treat patients with this complex cardiovascular problem This fully revised companion to Braunwald's Heart Disease helps you make the most of new drug therapies such as angiotensin receptor neprilysin inhibitors ARNIs recently improved implantable devices and innovative patient management strategies Led by internationally recognized heart failure experts Dr G Michael Felker and Dr Douglas Mann this outstanding reference gives health care providers the knowledge to improve clinical outcomes in heart failure patients Focuses on a clinical approach to treating heart failure

resulting from a broad variety of cardiovascular problems Covers the most recent guidelines and protocols including significant new updates to ACC AHA and HFSA guidelines Covers key topics such as biomarkers and precision medicine in heart failure and new data on angiotensin receptor neprilysin inhibitors ARNIs Contains four new chapters Natriuretic Peptides in Heart Failure Amyloidosis as a Cause of Heart Failure HIV and Heart Failure and Neuromodulation in Heart Failure Covers the pathophysiological basis for the development and progression of heart failure Serves as a definitive resource to prepare for the ABIM's Heart Failure board exam 2016 British Medical Association Award First Prize Cardiology 3rd Edition *Cardiovascular Care in Patients With HIV* Merle Myerson, Marshall J. Glesby, 2019-03-15 This book provides the most current overview of the evaluation and management of cardiovascular disease in people living with HIV/AIDS The text assesses the risk factors associated with cardiovascular disease in HIV/AIDS patients and explores the most cutting edge ways to diagnose and treat the specific diseases that are most common for people living with HIV This text takes a well rounded multidisciplinary approach that considers infectious disease and HIV specialists who may have little familiarity with the diagnosis and management of manifest CVD or risk factors as well as those in remote areas where providers may have little or no infrastructure to support optimal care for their patients The text also serves cardiovascular specialists who may not have the expertise in HIV care to meet the unique needs of these patients Cardiovascular Care for the Patient Living with HIV is the ultimate resource for not only all infectious disease and HIV specialists but also for cardiologists neurologists vascular surgeons general practitioners nurse practitioners physician's assistants and all other medical professionals who care for people living with HIV *Cardiovascular Disease in AIDS* Giuseppe Barbaro, Franck Boccara, 2005-12-12 Studies published before the introduction of highly active antiretroviral therapy HAART tracked the incidence and course of HIV infection in relation to cardiac illness in both children and adults These studies show that subclinical echocardiographic abnormalities independently predict adverse outcomes and identify high risk groups to be targeted for early intervention and therapy The introduction of HAART has altered cardiovascular manifestations in HIV On the one hand HAART has significantly modified the course of HIV disease lengthened survival and improved the quality of life of HIV infected patients On the other hand the early data have raised concerns that HAART is associated with an increase in both peripheral and coronary arterial diseases creating an intriguing clinical scenery This book focuses on new clinical and biological insight related to HIV associated metabolic and cardiovascular complications in the HAART era This second edition wants to present the latest developments and the most updated research data in this rapidly evolving field *Encyclopedia of Heart Diseases* M. Gabriel Khan, 2005-12-14 The Encyclopedia of Heart Diseases is an accurate and reliable source of in depth information on the diseases that kill more than 12 million individuals worldwide each year In fact cardiovascular diseases are more prevalent than the combined incidence of all forms of cancer diabetes asthma and leukemia In one volume this Encyclopedia thoroughly covers these ailments and also includes in depth analysis of less common and rare heart conditions to round out

the volume's scope Researchers, clinicians and students alike will all find this resource an invaluable tool for quick reference before approaching the primary literature Coverage of more than 200 topics including applied pharmacology of current and experimental cardiac drugs, gene therapy, MRI, electron beam CT, PET scan put in perspective, cardiac tests, costs and justification and new frontiers in cardiovascular research More than 150 helpful figures and illustrations Dr Khan is a well published and respected expert in heart and heart diseases

Braunwald's Heart Disease - E-Book Peter Libby, 2021-10-15 Current comprehensive and evidence based Braunwald's Heart Disease remains the most trusted reference in the field and the leading source of reliable cardiology information for practitioners and trainees worldwide The fully updated 12th Edition continues the tradition of excellence with dependable state of the art coverage of new drugs, new guidelines, more powerful imaging modalities and recent developments in precision medicine that continue to change and advance the practice of cardiovascular medicine Written and edited by global experts in the field, this award winning text is an unparalleled multimedia reference for every aspect of this complex and fast changing area Offers balanced, dependable content on rapidly changing clinical science, clinical and translational research and evidence based medicine Includes 76 new contributing authors and 14 new chapters that cover Artificial intelligence in Cardiovascular Medicine, Wearables, Influenza, Pandemics, COVID-19 and Cardiovascular Disease, Tobacco and Nicotine Products in Cardiovascular Disease, Cardiac Amyloidosis, Impact of the Environment on Cardiovascular Health and more Features a new introductory chapter Cardiovascular Disease: Past, Present and Future by Eugene Braunwald MD offering his unique visionary approach to the field of cardiology Dr Braunwald also curates the extensive bimonthly online updates that include Hot Off the Press with links to Practice Update and Late Breaking Clinical Trials Provides cutting edge coverage of key topics such as proteomics and metabolomics, TAVR, diabetocardiology and cardio oncology Contains 1,850 high quality illustrations, radiographic images, algorithms and charts and provides access to 215 videos called out with icons in the print version Highlights the latest AHA, ACC and ESC guidelines to clearly summarize diagnostic criteria and clinical implications Provides tightly edited, focused content for quick, dependable reference Flexible format options include either one or two volumes in print as well as a searchable eBook with ongoing updates Enhanced eBook version included with purchase Your enhanced eBook allows you to access all of the text, figures and references from the book on a variety of devices
