Aids And Young People:

HIV/AIDS and Young People Joint United Nations Programme on HIV/AIDS.,2003 The publication highlights that what happens to young people today will determine what becomes of their communities and societies in the decades ahead as well as highlights concerns for the future In many countries millions of young people are deprived of their most basic rights to shelter health education care and love Technical Report Series ,2006 **AIDS and Adolescents** Lorraine Sherr,2022-12-29 Originally published in 1997 *Aids and Adolescents* provided an insight into a wide range of adolescent issues which were rarely compiled in one volume at the time Much of the HIV epidemic response had been at the individual level in the hope that this narrow focus would provide the key to containment and resolution of spread However over the ten years since the epidemic had taken hold it was clear that paradigms were limited input was uncritical and large cohorts were overlooked In this text a series of contributions have been compiled to explore adolescent issues ranging from sexual behaviour and health education campaigns to HIV prevention and HIV AIDS care The chapters begin by giving an overview of adolescent problems such as homelessness pregnancy and gender and explore why these problems are so often overlooked We then move on to an examination of the facts and fictions associated with adolescent risk challenging some of the basic current notions underpinning approaches to the subject at the time Also included are particular focused studies of Australian adolescents beliefs about HIV and STDs and also the American adolescents perceptions of drug injection Finally the volume gives a focused view of those with HIV infection with a review of findings of the time neuropsychological and psychological factors This overview provided some comments on merging issues and future directions Today it can be read in its historical context **Young People and HIV/AIDS** UNICEF.,Joint United Nations Programme on HIV/AIDS.,2002 *Young people and HIV AIDS opportunity in crisis* *Young People's Views on Sex Education* Dr Lynda Measor,Lynda Measor,Katrina Miller,Coralie Tiffin,2012-11-12 Based on observation of sex education programmes and in depth interviews with young people the authors aim to understand more about adolescent s attitudes to sexuality and their sexual behaviour in order to develop policies which will meet their needs more appropriately and effectively Issues covered in this interesting and accessible book include the ways adolescent informal culture affects sex education programmes and practice the impact of gender inequality on sex education and safer sex behaviours legislation and policy frameworks which effect sex education policies the way young people see legislation and evaluate sex education programmes and the impact health professionals can have in school sex education The authors contend that the insights into the values and views that young people bring to bear on the sex education they receive should have an important role to play in the development of policy and practice of those involved in sex education work Children and Young People Living with HIV/AIDS Pranee Liamputtong,2016-06-14 This book focuses on the issues encountered by children and young people who are living with HIV AIDS It examines their lived experiences associated with HIV AIDS and studies groups of children and youngsters from around the globe Connecting

empirical information with real life situations the book brings together results from empirical research that relates to these children and young people Its chapters can be used as evidence for health care providers to implement socially and culturally appropriate services to assist individuals and groups of children and young people who are living with HIV AIDS in many societies Many of these young people are from the most marginalized and vulnerable groups and many have been orphaned by the death of their HIV positive parents Marginalized young people such as refugees migrants and street children are most at risk due to the use of illicit drugs their exposure to unprotected sex in exchange for food money and protection and stigma associated with their marginalized lives The impact that HIV AIDS has on the opportunities for these young people to be able to lead healthy adult lives is considerable This book gives a voice to these children and young people and advances our understanding of their lived experiences and needs **HIV/AIDS & Adolescents** ,1996 **Preventing HIV Among**
