AIDS in an Aging Society Matilda White Riley, Marcia G. Ory, Diane Zablotsky, 1989 An uncommon emphasis on the epidemic Authors deal with risk and prevention care both home and institutional and social consequences of AIDS in old people Annotation copyright Book News Inc Portland Or

Social Work and Health Care in an Aging Society Barbara Berkman, Linda Harootyan, 2003-06-01 This book places significant issues related to the health mental health and well being of older adults and their caregivers within the context of social work service delivery By presenting the research of social work scholars all experts in specific research areas the editors clarify the value that social work brings to the larger realm of health care for older adults and their families Special consideration is given to such issues as case management urban African American elders grandmothers raising grandchildren aging persons with developmental disabilities home health care and more For Further Information on Dr Berkman Please Click Here

HIV/AIDS and Older Adults Charles A. Emlet, MSW, PhD, 2004-03-31 This volume focuses on the ways in which HIV AIDS can affect older adults The chapters in this book discuss the variety of HIV AIDS problems that we face at the individual family and community levels Topics examined include demographics and epidemiological aspects of HIV disease with this population prevention of HIV disease issues impacting individuals in a medical psychological and social context and service needs Originally published as a special issue of the Journal of Mental Health and Aging the volume contains new chapters on demographics HIV prevention and education and effective coalition building among systems of care Contributors include Diane Zablotsky Michael Kennedy Janice Nichols and Timothy Heckman among others For Further Information Please Click Here

[HIV & AIDS And The Older Adult](#) Kathleen M. Nokes, 2020-04-14 First published in 1996 The incidence of HIV AIDS in society has reached epidemic levels People of all ages are contracting the disease and with the advances in medication and treatment those with the disease are living longer This book discusses the unique issues facing older adults with HIV AIDS and addresses living with the disease

HIV/AIDS in the Post-HAART Era John C. Hall, Brian John Hall, Clay J. Cockerell, 2011 The science of the virus and its effects and the clinical approaches to its treatment and transmission prevention are placed in the context of the history and epidemiology of the HIV AIDS pandemic Each organ system of the body is explored as to manifestations of the disease treatment now and in the future as well as what the disease has taught us about the immune response The science of epidemiology which is so important in allowing for tracking of the disease and potential limitation of transmission is another aspect of AIDS explored in detail The pandemic manifests differently in different parts of the world and the relevance of the volume is enhanced by its international group of contributors No other text provides the historical and epidemiological context of this disease along with an update of diagnosis and treatment The underlying science and epidemiology of AIDS are not neglected so the student or clinician who is treating patients with AIDS can gain a full understanding of HIV AIDS in individual patients and in their communities

Aging with HIV Janice E. Nichols, 2002-08-13 In 1998 approximately 30 million people worldwide were

living with HIV AIDS about 5 million of whom became infected that year The epidemic continues to expand with an estimated doubling time of 10 years making AIDS the leading infectious cause of death ahead of tuberculosis and malaria Even in the U S A where the death rate from AIDS is declining as a result of effective drug therapies HIV infection rates continue to climb in several population groups The prevalence of AIDS among people over the age of 50 is steadily increasing and most older people are unprepared to address it for a number of reasons including the widespread discomfort with matters sexual and homosexual and the belief that elderly people are not sexually active and therefore not at risk This guide for care providers seeks to educate and inform readers about the difficulties and complications that accompany the disease in older people Thus while the appendix includes technical descriptions of methodology data and results the narratives in the chapters describing the findings and their practical implications are written in layman s language Topics covered include biomedical aspects demographics sexuality stressors mental health older women and patient care all of which are supported by case studies

Aging, Society, and the Life Course Leslie A. Morgan, Suzanne R. Kunkel, 2011-03-15 Doody's Score 91 4 Stars This book's unfading preoccupation with social context social processes and social structures distinguishes itself and greatly contributes to the discourse in gerontology The Gerontologist This is a comprehensive textbook for both undergraduate and graduate level courses detailing the impact of societal forces on the aging process The book focuses on the diversity of the older population examining it from micro macro perspectives in order to understand aging and the life course as social phenomena This latest edition examines significant changes in the field of social gerontology such as the paradigms of aging and the life course the baby boomer cohorts as they approach retirement and later life the growing interest in global aging and civic engagement This text encourages students to examine aging from personal familial community societal and global perspectives including both the positive and negative realities of aging Key Features Provides websites of interest at the end of each chapter Presents provocative essays on love sex music medicine and crime to further expand on chapter contents Provides review questions and key terms as study guides at the end of each chapter

Special Aging Populations and Systems Linkages M. Joanna Mellor, 1996 Special Aging Populations and Systems Linkages educates professionals working in geriatric settings about the needs and issues of several emerging special groups within today's aging population It gives readers examples guidelines and a theoretical framework for developing successful linkages between aging and non aging service systems to meet the service needs of these special populations By exploring the challenges and barriers faced by service systems attempting to work together Special Aging Populations and Systems Linkages provides a blueprint to those working with cross system interest groups task forces and councils The book informs readers of the epidemiology issues and

concerns of some specific populations of older persons including persons with developmental disabilities alcohol and substance abusers cancer patients persons with HIV AIDS the abused elderly older caregivers Chapters in this timely book provide treatment experiences with these special populations and with linking systems as case histories for the professional These case histories help social workers understand the needs of special older people with whom they work and facilitate negotiations among service systems and agencies so that older people facing special challenges secure the help they and their families need Special Aging Populations and Systems Linkages asserts the absolute imperative for social workers and other geriatric professionals to understand the subpopulations which make up the 65 plus cohort in the U S and fosters creative thinking about service organization and practice issues generated by the diversity of this population Students at all levels of gerontology programs staff in the aging network service personnel administrators and senior center directors community service personnel staff of Area Agencies on Aging social workers in geriatric health care settings public health educators and social workers in service agencies for each of the special populations mental retardation developmental disabilities cancer care HIV AIDS substance abuse adult protective services child welfare can refer to Special Aging Populations and Systems Linkages for insight time and again as they strive to meet the diverse needs of the entire aging population

Handbook of Social Work in Health and Aging Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today
