Aids The Ultimate Challenge:

AIDS Elisabeth Kübler-Ross, 2011-07-19 AIDS None of us is so unique as to be exempt from the human condition As the numbers of reported AIDS cases continue to climb and the disease continues to take more and more lives those who have to deal with the complexities of this problem continue to ask How do we care for these terminally ill Using letters from patients questions and answers between patient and doctor and other compassionate tools Dr Elisabeth K bler Ross the world s foremost expert on death and dying shows us how to comfort the seriously ill and help AIDS patients through the critical stages of dying She addresses the stigma surrounding AIDS as a gay disease and makes a special plea for prisoners with AIDS for women and children with AIDS and for babies with AIDS This remarkable book is warm and informative on one of the most important subjects of our time *AIDS* Elisabeth Kuebler-Ross, 1987 Not in This Family Heather Murray, 2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families Not in This Family challenges this myth and shows how kinship ties were an animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s Not in This Family covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents Not in This Family also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family Mending Bodies, Saving Souls Guenter B. Risse, 1999-04-15 By chronicling the transformations of hospitals from houses of mercy to tools of confinement from dwellings of rehabilitation to spaces for clinical teaching and research from rooms for birthing and dying to institutions of science and technology this book provides a historical approach to understanding of today s hospitals The story is told in a dozen episodes which illustrate hospitals in particular times and places covering important themes and developments in the history of medicine and therapeutics from ancient Greece to the era of AIDS This book furnishes a unique insight into the world of meanings and emotions associated with hospital life and patienthood by including narratives by both patients and care givers By conceiving of hospitals as houses of order capable of taming the chaos associated with suffering illness and death we can better understand the significance of their ritualized routines and rules From their beginnings hospitals were places of spiritual and physical recovery They should continue to respond to all human needs As

traditional testimonials to human empathy and benevolence hospitals must endure as spaces of healing Healing for the City Craig Ellison, Edward S. Maynard, 2002-06-03 Healing for the City is a book for counseling urban dwellers in need whether they be inside or outside the church It focuses on the brokenness and typical problems of urban dwellers without assuming that all who live in the city suffer from serious dysfunctions This book was written to offer guidance to those who counsel in an urban setting to provide a response to the emotional relational and spiritual distress that one often encounters in the city The three parts of the book treat the distinctive elements of the urban context specific concerns of ethnic groups Asian Black Hispanic and approaches to particular pressing problems such as addictive behaviors divorce recovery single parenting sexual abuse etc Healing for the City was written for pastors social workers counselors professionals and paraprofessionals and other Christians in positions of leadership and spiritual direction *The Impact of War on Children* Graça Machel, 2001 Graça Machel UNICEF's special rapporteur also scrutinises sexual crimes in time of war the fate of orphans the disproportionate suffering of children endure in civil wars and their special vulnerability to such side effects of conflict as famine disease and social fragmentation *The Impact of War on Children* is an urgent call to action for the commitment and tenacity needed to protect children from the atrocities of war Children present a uniquely compelling motivation for mobilisation and an opportunity to confront the problems that cause their suffering This book is complemented by 16 evocative photographs by Sebastiao Salgado a documentary photographer of world renown covering Afghanistan Iraq Palestine Rwanda and elsewhere **Health Care for Lesbians and Gay Men** K Jean Peterson, 2020-03-24 *Health Care for Lesbians and Gay Men* educates practitioners about the special needs of gay and lesbian patients and how to look critically at the impact of homophobia and heterosexism on the provision of care It provides an overview of critical health care issues for lesbians and gay men and offers concrete suggestions to health practitioners and social workers on how to address these issues in order to guarantee the best care for their patients and clients Authors in *Health Care for Lesbians and Gay Men* give health care providers and mental health workers practical interventions suggestions for advocacy social change grassroots efforts and alternative programs and lessons about how to use existing procedures to more effectively meet the unique health care needs of gays and lesbians Practitioners also learn how to utilize legal action in securing and protecting patients and clients personal health care wishes Chapters in this book cover how homophobia and negative attitudes can directly compromise the care given to lesbians and gay men heterosexism and biases which exclude the partners of gay men and lesbians from participating in the care of their loved ones legal issues and the need for legal recognition of gay and lesbian relationships both to enhance the provision of care and for financial access to health care presently available to only heterosexual married couples legal protection and special legal documents that ensure that the wishes of gay men and lesbians are honored and the integrity of their relationships not violated *Health Care for Lesbians and Gay Men* starts with special issues confronting adolescents and the special role health care providers can play in supporting the struggles of

lesbian and gay adolescents It then continues to look at these issues over the life cycle Three themes emerge as authors try to explain problems and possible solutions for lesbians and gay men seeking health care the pervasive homophobia and heterosexism found throughout the health care system and the impact these attitudes and beliefs have on the health care of lesbians and gay men the need for education in professional programs on special health issues of gay men and lesbians and the critical role that social workers can play in both educating others about the special needs of their gay and lesbian clients and in advocating for their clients in various health care settings Health Care for Lesbians and Gay Men is essential reading for social work and social service practitioners and students working in the health care field advanced undergraduates and graduate students of social work professionals and students of nursing and medicine and others concerned with the quality and equality of health care services It urges students and professionals to challenge and evaluate their own attitudes beliefs and behaviors in order to ensure quality services to all clients and patients

The Columbia Documentary History of American Women Since 1941 Harriet Sigerman, 2003 From the Hoover vacuum cleaner to the fax machine from the pill to reproductive rights from Rosie the Riveter to Martha Stewart and Hillary Rodham Clinton American women have grappled with a sometimes dizzying rate of social and economic change and continually shifting conceptions of gender This collection of documents seeks to chronicle the exciting and tumultuous recent history of American women beginning with the watershed event of World War II and the lasting impact of the war effort on women's social and economic opportunities Subsequent documents speak to the ideas and changes brought about by the women's movement the challenges to and defense of reproductive rights the backlash against feminism in the name of family values and new visions for women's lives in the twenty first century

AIDS Narratives Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the

other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it **History of AIDS** Mirko D. Grmek, 1990 By drawing on the latest discoveries in virology microbiology and immunology Mirko Grmek depicts the AIDS epidemic not as an isolated incident but as part of the long but far from peaceful coexistence of humans and viruses
