Violence, Victimization and Young People Ylva Odenbring,Thomas Johansson,2021-07-08 This edited collection focuses on different aspects of everyday violence harassment and threats in schools It presents a number of in depth studies of everyday life in schools and uses examples and case studies from different countries to fuel a discussion on national differences and similarities The book discusses a broad range of concepts findings and issues under the umbrella of three main themes 1 Power relations homosociality and violence 2 Sexualized violence and schooling and 3 Everyday racism segregation and schooling Specific topics include sexuality policing bullying sexting homophobia and online rape culture The school is young people s central workplace and therefore of great

importance to students general feeling of wellbeing safety and security However there is no place where youth are at greater risk of being exposed to harassment and violations than at school and on their way to and from school Threats are a relatively common experience among school students but some aspects of these mundane and frequent harassments and violations are not taken seriously and are therefore not reported Harassment and violations often have negative effects on youth and children and increase their risks of such adverse outcomes as school dropout drug use and criminal behaviour Contemporary research has shown that gender is of great importance to how students handle and report or do not report various violent situations Studies have also revealed how the notions of masculinity and of being a victim can be conflicting identities and affect how students handle situations of threat violence and harassment The importance of gender is also particularly evident with regard to sexual harassment Female students generally report greater exposure to sexual harassment than male students do

Cultural Variation in Conflict Resolution Douglas P. Fry, Kaj Björkqvist, Kaj Björkqvist, 2013-04-15 This volume's central purpose is to provide a clearly written scholarly exploration of cultural variation regarding conflict resolution and in so doing highlight certain alternatives to violence It presents an interdisciplinary examination of how conflicts are perceived and handled in a variety of cultural settings Drawing on data and models from anthropology psychology and political science the chapters analyze conflict resolution across the societal spectrum including cases from Western and non Western traditions complex and tribal societies and violent and non violent cultures While demonstrating the extremely important impact of culture on conflict resolution processes the book does not solely emphasize cultural specificity Rather through introductory chapters section introductions and a concluding chapter the volume editors draw attention to cross cultural patterns in an attempt to further the search for more general conflict principles An explicit message throughout the book is that alternatives to violence exist The volume demonstrates that at various levels from the interpersonal to the international conflicts can be handled in ways that cause far less pain and destruction than violence Chapters by psychologists discuss social and cognitive processes for facilitating the learning of alternatives to violence among children and youth Anthropology contributors explore mechanisms for dealing with social conflict which allow some cultures to remain relatively peaceful and consider implications of their work for reducing violence in other societies Chapters by former President of Costa Rica Oscar Arias and by political scientists examine how non violent political solutions can be employed as alternatives to warfare and violent resistance
