Simpson, Nancy Giunta, 2014-01-28 The collective inclusive and intersectional framework used in this book speaks to the significance of understanding aging across diverse cultures from multiple perspectives but still as a shared human experience The underlying message of the book is that although we are unique and different in our aging processes we are ultimately connected through this physical mental and spiritual experience of aging Thus regardless of whether we are service providers service recipients educators or merely fellow human beings it is important that we approach the aging experience through a collective lens for discovering and sharing resources as we age honoring the past while simultaneously accepting that the future is here A few select examples of key findings from this collaborative work are as follows First despite progress in the field certain issues remain to be addressed including the challenges of racism and sexism mistreatment the digital divide poverty and other social and economic crises in urban and rural communities as they relate to our aging population Second the need for sustaining a sense of independence among the aged and interdependence among supportive systems is warranted Third our elders continue to benefit from culturally competent services community based health interventions and social services that addresses normative and emerging challenges for them Fourth spirituality in both indigenous and contemporary perspectives remains important for our elders development and quality of life

Diversity and Aging Among Immigrant Seniors in Canada Douglas Durst,Michael

MacLean,2010-01-01 Historically Canada has been a nation of immigrants with 16 20% of its citizens being foreign born Most immigrant research addresses the issues of integration and adjustment of young and adult immigrants with little work on aging There are numerous books on immigrants and books on aging but there are few that have considered the topics of both diversity and aging Diversity and Aging among Immigrant Seniors in Canada breaks from that tradition and offers an eclectic collection of original research from among Canada s leading researchers on aging and immigrants Some researchers refer to this emerging field as Ethno gerontology There are two interesting groups of immigrant seniors those who entered Canada at over 65 years of age and those who aged in Canada Most Canadians are surprised to learn that the senior population of seniors has a higher percentage of immigrants 19 6% than the general population 13 7% As Canadians age the country s composition of immigrant seniors has also changed from mainly European to greater cultural and ethnic diversity from Africa and Asia This cultural and ethnic diversity has social health economic policy implications and impacts on programs and services delivered to seniors Diversity and Aging among Immigrant Seniors in Canada is divided into two main sections In Part 1 the chapters explore general and universal issues such as national trends and demographics theoretical orientations issues of culture and legal dimensions poverty and income and end of life care In Part 2 the chapters examine issues pertaining to specific ethnic groups For example there are chapters on the social well being of Chinese immigrants determinants of mental health for Iranian seniors family dynamics for aging Haitian elders and emerging issues for Punjabi families Diversity and Aging among Immigrant Seniors in Canada offers both breadth and depth to the topic of aging among immigrants and is a must read for social work and health care professionals students in health and social services policy and program planners and families of aging immigrants It is written in a language that crosses disciplines shedding professional jargon making it an informative and engaging read for professionals researchers and the general public **The Aging**
