Aging Education Teaching And Practice Strategies:

Aging Education Nieli Langer, Terry Tirrito, 2004 Aging Education provides educators in aging studies with a unique text that responds to the paucity of instructional strategies and teaching materials By developing and explaining a multidisciplinary approach to working with older adults in areas related to health education ethics law cultural competency for a multicultural population translating social policy into practice spirituality and human services the editors provide an imaginative and thought provoking unmet need for gerontology educators by providing them with teaching and practice strategies in aging education

Handbook of Social Work in Health and Aging Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today

Research, Practice, and Innovations in Teacher Education During a Virtual Age Zimmerman, Aaron Samuel, 2022-11-18 Decades of research have shown that early career teachers face a number of challenges and hold an increasingly wide set of responsibilities Teacher educators therefore must think carefully about how to prepare early career teachers for the profession Additionally however the work of teaching and teacher education has become increasingly complex within the context of the current virtual age including the prominent reality of social media and the significant possibilities of online teaching and learning Research Practice and Innovations in Teacher Education During a Virtual Age makes a significant contribution to the scholarship on teacher education by presenting a variety of evidence based methods that can be used to develop and improve aspects of teacher education within this virtual age including the curriculum and pedagogy of online teacher education as well as effective ways to prepare preservice teachers for the realities of online teaching and online learning Covering topics such as virtual caring learning material adaptation and instructional coaching this premier reference source is a dynamic resource for teacher educators pre service teachers administrators and educators of both K 12 and higher education government officials policymakers researchers and academicians

The Oxford Handbook of Social Work in Health and Aging Daniel B. Kaplan, Barbara Berkman, 2016 This Second Edition of the

Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment as well as advances in the knowledge base which guides social work service delivery in health and aging. This includes recent enhancements in the theories of gerontology innovations in clinical interventions and major developments in the social policies that structure and finance health care and senior services. In addition the policy reforms of the 2010 Patient Protection and Affordable Care Act set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families. In this volume the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice followed by detailed recommendations of best practices for an array of physical and mental health conditions. The volume's unprecedented attention to diversity health care trends and implications for practice research policy make the publication a major event in the field of gerontological social work. This is a Must Read for all social work social work educators practitioners and students interested in older adults and their families.
