Three Years Our Mayor Lincoln A. Mitchell, 2025-04-08 Those who recognize Mayor George Moscone's name may think of him as the career politician who was assassinated along with Harvey Milk but there was much more to this influential and fascinating man's story He was a trailblazing progressive and powerful state legislator who was instrumental in passing legislation on issues ranging from LGBT rights to funding for school lunches Moscone's 1975 campaign for mayor was historically significant because it was the first time a major race was won by a candidate who campaigned aggressively for expanding civil rights for both African Americans and LGBT people He won his campaign for mayor chiefly because of huge support from those two constituencies Moscone was also a very colorful character who in addition to being a successful politician was a charming and charismatic bon vivant who was deeply embedded in the fabric and culture of San Francisco He grew up the only son of a single mother in Cow Hollow when it was a working class largely Italian American neighborhood and he became the kind of politician who knew bartenders playground attendants small business owners and neighborhood activists in every corner of the city Moscone's life and the history of San Francisco during the middle half of the twentieth century are deeply intertwined Through illustrating the life of Moscone author Lincoln A Mitchell explores how today's San Francisco came into being Moscone through his work in the State Senate victory in the very divisive 1975 mayor's race and brief tenure as mayor was a key figure in the city's evolution The politics surrounding Moscone's election as mayor governance of the city and tragic death are still relevant issues Moscone was a groundbreaking politician whose life was cut short but his influence on San

Francisco can still be felt today *The Politics of Downtown Development* Stephen J. McGovern, 2014-10-17 American cities experienced an extraordinary surge in downtown development during the 1970s and 1980s Pro growth advocates in urban government and the business community believed that the construction of office buildings hotels convention centers and sports complexes would generate jobs and tax revenue while revitalizing stagnant local economies But neighborhood groups soon became disgruntled with the unanticipated costs and unfulfilled promises of rapid expansion and grassroots opposition erupted in cities throughout the United States Through an insightful comparison of effective protest in San Francisco and ineffective protest in Washington D C Stephen McGovern examines how citizens even those lacking financial resources have sought to control their own urban environments McGovern interviews nearly one hundred business activists government officials and business leaders exploring the influence of political culture and individual citizens perceptions of a particular development issue McGovern offers a compelling explanation of why some battles against city hall succeed while so many others fail Financing of Organ Transplants California. Legislature. Senate. Select Committee on Anatomical Transplants, 1983 **San Francisco Year Zero** Lincoln A. Mitchell, 2020 In San Francisco Year Zero San Francisco native Lincoln Mitchell deftly weaves together the personal and the political tracing the city s current state back to three key events that all occurred in 1978 the assassination of George Moscone and Harvey Milk occurring fewer than two weeks after the massacre of Peoples Temple members in Jonestown Guyana the explosion of the city s punk rock scene and a breakthrough season for the San Francisco Giants *Welfare, Reform Or Replacement? (work and Welfare)* United States. Congress. Senate. Committee on Finance. Subcommittee on Social Security and Family Policy, 1987 The Mayor of Castro Street Randy Shilts, 2025-09-23 The Mayor of Castro Street is Shilts s acclaimed story of Harvey Milk the man whose personal life public career and tragic assassination mirrored the dramatic and unprecedented emergence of the gay community in America during the 1970s Known as The Mayor of Castro Street even before he was elected to the San Francisco Board of Supervisors Harvey Milk s personal and political life is a story full of personal tragedies and political intrigues assassinations at City Hall massive riots in the streets the miscarriage of justice and the consolidation of gay power and gay hope The Mayor of Castro Street is a story of personal tragedies and political intrigues assassination in City Hall and massive riots in the streets the miscarriage of justice and the consolidation of gay power and gay hope Harvey Milk has been the subject of numerous books and movies including the Academy Award winning 1984 documentary The Times of Harvey Milk His life is also the basis of a 2008 major motion picture Milk starring Sean Penn **Democracy as Problem Solving** Xavier De Souza Briggs, 2008-07-18 Case studies from around the world and theoretical discussion show how the capacity to act collectively on local problems can be developed strengthening democracy while changing social and economic outcomes Complexity division mistrust and process paralysis can thwart leaders and others when they tackle local challenges In Democracy as Problem Solving Xavier de Souza Briggs shows how civic capacity the capacity to create and sustain smart collective action

can be developed and used In an era of sharp debate over the conditions under which democracy can develop while broadening participation and building community Briggs argues that understanding and building civic capacity is crucial for strengthening governance and changing the state of the world in the process More than managing a contest among interest groups or spurring deliberation to reframe issues democracy can be what the public most desires a recipe for significant progress on important problems Briggs examines efforts in six cities in the United States Brazil India and South Africa that face the millennial challenges of rapid urban growth economic restructuring and investing in the next generation These challenges demand the engagement of government business and nongovernmental sectors And the keys to progress include the ability to combine learning and bargaining continuously forge multiple forms of accountability and find ways to leverage the capacity of the grassroots and what Briggs terms the grassstops regardless of who initiates change or who participates over time Civic capacity Briggs shows can and must be developed even in places that lack traditions of cooperative civic action
