Agrarian Transformation In Egypt:

Agrarian Transformation in Egypt Nicholas S. Hopkins, 2019-04-08 This book reflects the argument on agrarian transformation in Egypt It focuses on the role of agricultural mechanization in the labor process in rural Egypt The book emphasizes the changing role of the household and the relations between households particularly the role of women and children *Agrarian Transformation in Egypt* Charles Paul Schmitz, 1992 **The Transformation of Egypt (RLE Egypt)** Mark Cooper, 2013-01-03 The assassination of Sadat brings to an end another era in Egyptian history This book examines the crucial issues in the transformation of Egypt in the period between the death of Nasser and the murder of Sadat Focusing on the upheavals in the Egyptian political and economic structure over the last twenty years the book explains the change in Egypt's international orientation through a careful examination of domestic factors The switch from Nasser's state socialist political economy to Sadat's more laissez faire approach and the institutional and structural links between the two are analysed as the key to understanding the dynamic developments within Egypt The book argues that the propagation of a new political economy was the primary basis of Sadat's ability to remain in power while the weaknesses in that economy drove Sadat to seek external solutions and ultimately undermined his domestic support His conduct of the 1973 war his trip to Jerusalem his enthusiasm for the United States and his whole perception of Middle Eastern affairs must be seen in terms of his domestic policies and internal troubles First published 1982 Directions of Change in Rural Egypt Nicholas S. Hopkins, Kirsten Westergaard, 1998 What emerges is a picture of a rural Egypt that is full of life dramatically evolving and treading a delicate line between progress and impoverishment Agrarian Change in Egypt Samir Radwan, Eddy Lee, 2022-08-30 First published in 1986 *Agrarian Change in Egypt* based on extensive original research as well as field survey of eighteen villages analyses and explains the changes in the agricultural sector in Egypt It shows how various policies and other factors have affected agricultural output and how developments triggered by the open door policy such as inflation migration and the shift in the pricing system have affected agriculture The Egyptian experience is fairly typical of agrarian change in many parts of the developing world where government reforms in the 1960s and 1970s tried to combine considerations of efficiency and equity but ended up with stagnation The Egyptian case therefore provides a good example of the general crisis in agriculture in the developing world This book is an essential read for scholars and researchers of agricultural economy development studies and political economy **Agrarian Transformation in Egypt**, 2005 Market-Led Agrarian Reform Saturnino Borrás Jr., Cristóbal Kay, Edward Lahiff, 2013-09-13 Three fourths of the world's poor are rural poor Most of the rural poor remain dependent on land based livelihoods for their incomes and reproduction despite significant livelihood diversification in recent years Land issue remains critical to any development discourse today Market led agrarian reform MLAR has gained prominence since the early 1990s as an alternative to state led land reforms This neoliberal policy is based on the inversion of what its proponents see as the features of earlier approaches and calls for

redistribution via privatized decentralized transactions between willing sellers and willing buyers Its proponents especially those associated with the World Bank have claimed success where the policy has been implemented but such claims have been contested by independent scholars as well as by peasant movements who are struggling to gain access to land This book presents three thematic papers and six country studies The thematic papers address issues of formalisation of property rights gendered land rights and neoliberal enclosure These studies demonstrate the pervasive influence of neoliberal ideas on property rights and rural development debates well beyond the core question of land redistribution The country cases bring together experiences from Brazil Guatemala El Salvador Philippines South Africa and Egypt Common findings include the success of landowners in minimising the impact of reform and a lack of post transfer support translating into marginal impact on poverty The limitations of the market led approach and the implications of the studies presented here for the future of agrarian reform are considered in the editors introduction This book was a special issue of *The Third World Quarterly* **Agrarian transformation in Egypt** Caroline Laetitia Tingay,2006 **Class, State and Agricultural Productivity in Egypt** Graham Dyer,2014-03-05 The inverse relationship between farm size and productivity is accepted as a stylized fact of agriculture in developing countries This study uses Egyptian fieldwork data to examine factors creating this relationship and the impact of economic and technological change on the relationship **Steps Taken in the Implementation of Egyptian Agrarian Reform** Egypt. Higher Committee for Agrarian Reform,1955 , **Inside the Third World Village** Petra Weyland,2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **A Companion to the Anthropology of the Middle East** Soraya Altorki,2015-07-07 A Companion to the Anthropology of the Middle East presents a comprehensive overview of current trends and future directions in anthropological research and activism in the modern Middle East Named as one of Choice s Outstanding Academic Titles of 2016 Offers critical perspectives on the theoretical methodological and pedagogical goals of anthropology in the Middle East Analyzes the conditions of cultural and social transformation in the Middle Eastern region and its relations with other areas of the world Features contributions by top experts in various Middle East anthropological specialties Features in depth coverage of issues drawn from religion the arts language politics political economy the law human rights multiculturalism and globalization **Land, Poverty and Livelihoods in an Era of Globalization** A. Haroon Akram-Lodhi, Saturnino M. Borras Jr., Cristóbal Kay,2007-01-24 Here internationally renowned scholars explore the structural causes of rural poverty income inequality and the processes of social exclusion and political subordination across Africa Asia and Latin America **Reconstructions in Middle East Economic History** Don Babai,2024-10-24 This volume explores major theoretical and empirical themes in the study of the economic history of the Middle East Despite the relative neglect of economic history in Middle Eastern studies this book makes a case for its importance as a discipline of study On the one hand it shows promise in illuminating the economic base of historical trends and events on the other it can elucidate the historical foundations of economic continuity

and change The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history along with political economy complement each other in studying the Middle East Among the substantive topics explored are the trajectories of the Arab Spring institutional change and economic development in the early Ottoman Empire the destructive effects of the reordering property rights in Iraq by the American led occupation authority the evolution of the political economy of the Islamic Republic of Iran and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries The book will be of interest to scholars and students of economic history political economy and the Middle East *Egypt's Economic Ripples: Navigating Opportunities and Challenges* Pasquale De Marco, 2025-03-09 In the ever evolving landscape of global economies Egypt stands as a nation with a rich history and a dynamic economic trajectory This comprehensive book offers a captivating exploration of Egypt's economic journey providing a profound understanding of the policies strategies and challenges that have shaped its development From the transformative era of Nasser's nationalization policies to the liberalization reforms of the Open Door Policy Egypt's economic landscape has undergone a series of profound transformations This book delves into the intricacies of these changes examining their impact on various sectors including agriculture industry tourism and services Furthermore the book analyzes the role of government intervention the private sector and international institutions in shaping Egypt's economic trajectory It explores the successes and challenges encountered in Egypt's efforts to attract foreign investment integrate into the global economy and navigate the complexities of international trade With meticulous research and expert insights this book provides a comprehensive analysis of Egypt's economic policies and their far reaching implications It examines the country's strategies for promoting economic growth reducing poverty and inequality and addressing the pressing challenges of unemployment and inflation The book also delves into the crucial role of sustainable development in Egypt's economic future It explores the country's efforts to combat climate change promote renewable energy sources and adopt environmentally conscious practices This book is an invaluable resource for scholars policymakers business leaders and anyone seeking a deeper understanding of Egypt's economic trajectory It offers a comprehensive analysis of the nation's economic policies challenges and prospects providing a roadmap for future development and prosperity If you like this book write a review **Agrarian Reform in Egypt** Sayed Marei, 1957

Development, Change, and Gender in Cairo Diane Singerman, Homa Hoodfar, 1996 The authors of these rich ethnographic essays demonstrate that the Egyptian household plays a crucial if largely overlooked role into the dynamics of political economic and social change While Western social scientists have assumed that employment outside the home improves women's autonomy and economic status economic liberalization in Egypt is shown here to have worsened the economic situation of women and undermined their authority within the household The collection explains why such everyday issues as unemployment government subsidies gender relations housing political participation educational mobility and the

standard of living have become increasingly politicized at the household level a development that has direct implications in the context of Islamist challenges to the state *Agrarian Reform and Rural Poverty, Egypt, 1952-1975* Samir Muḥammad Raḍwān, 1977 ILO pub WEP pub Monograph on the impact of agrarian reform on rural area poverty in Egypt during the period from 1952 to 1975 discusses changes in land ownership and income distribution the role of rural cooperatives in rural development agricultural credit and the transfer of agricultural surpluses and their impact on political power and social change in villages etc Graphs references and statistical tables **Agrarian Questions** Henry Bernstein, Tom Brass, 2016-01-20 This collection celebrates T J Byres seminal contributions to the political economy of the agrarian question Uniting the various themes is the demonstration of the continuing relevance of a critical historical and comparative materialist analysis of agrarian question
