

## BATTLE FOCUS

*Prerequisite: no levels in the Barbarian class*

As a bonus action, you can block out all distractions and enter a trance-like state of extreme focus. When you take bludgeoning, piercing, or slashing damage while in this state, it is reduced by an amount equal to  $1d6 + \text{half your Constitution modifier (rounded up)}$ , up to a maximum equal to half the damage taken.

This state lasts for 1 minute. It ends early if you are knocked unconscious or if your turn ends and you haven't attacked a hostile creature since your last turn or taken damage since then. You can also end your focus on your turn as a bonus action. Once you have used this ability, you cannot do so again until you have finished a long rest.

## MARTIAL PRODIGY

*Prerequisite: no levels in the Fighter class*

You learn one Fighting Style available to the Fighter class.

On your turn, you can take one additional action on top of your regular action and a possible bonus action. This action can be used to attack (one weapon attack only), dash, disengage, hide, or use an object. Once you use this feature, you must finish a long rest before you can use it again.

## FLEXIBLE MAGIC

*Prerequisite: no levels in the Sorcerer class*

You learn one cantrip of your choice from the Sorcerer spell list. Charisma is your spellcasting ability for this spell.

You learn one Metamagic option available to Sorcerers through the Metamagic feature. You may use this option once, and must finish a long rest before doing so again.
