## **Agricultural Problems In Ethiopia:**

*Agricultural Problems in Ethiopia* Harjinder Singh, 1987 This book assesses the performance and strategies followed for the development of agricultural sector during the pre and post revolutionary periods in Ethiopia and highlights various constraints to its development

*Food and Agriculture in Ethiopia* Paul Dorosh, Shahidur Rashid, 2013-02-11 The perception of Ethiopia projected in the media is often one of chronic poverty and hunger but this bleak assessment does not accurately reflect most of the country today Ethiopia encompasses a wide variety of agroecologies and peoples Its agriculture sector economy and food security status are equally complex In fact since 2001 the per capita income in certain rural areas has risen by more than 50 percent and crop yields and availability have also increased Higher investments in roads and mobile phone technology have led to improved infrastructure and thereby greater access to markets commodities services and information In *Food and Agriculture in Ethiopia Progress and Policy Challenges* Paul Dorosh and Shahidur Rashid along with other experts tell the story of Ethiopia's political economic and agricultural transformation The book is designed to provide empirical evidence to shed light on the complexities of agricultural and food policy in today's Ethiopia highlight major policies and interventions of the past decade and provide insights into building resilience to natural disasters and food crises It examines the key issues constraints and opportunities that are likely to shape a food secure future in Ethiopia focusing on land quality crop production adoption of high quality seed and fertilizer and household income Students researchers policy analysts and decisionmakers will find this book a useful overview of Ethiopia's political economic and agricultural transformation as well as a resource for major food policy issues in Ethiopia Contributors Dawit Alemu Guush Berhane Jordan Chamberlin Sarah Coll Black Paul Dorosh Berhanu Gebremedhin Sinafikeh Asrat Gemessa Daniel O Gilligan John Graham Kibrom Tafere Hirrfot John Hoddinott Adam Kennedy Neha Kumar Mehrab Malek Linden McBride Dawit Kelemework Mekonnen Asfaw Negassa Shahidur Rashid Emily Schmidt David Spielman Alemayehu Seyoum Taffesse Seneshaw Tamiru James Thurlow William Wiseman

**Enough with Famines in Ethiopia** Fasil G. Kiros, 2005 When in 2002-03 Ethiopia was ushered into the twenty first century by the threat of famine of unprecedented proportion it stirred a deeply felt reaction to call on policy makers and ordinary citizens to raise arms against a scourge which has afflicted their country throughout its long history The announcement of the threat of famine amounted to a virtual acknowledgement that the country's past national development goal has been little more than a pipe dream For no claim of development can be made in the face of the prospect of mass starvation It is proposed that a new start is needed in Ethiopia in the pursuit of the goal of lasting food security and the prevention of recurrent famine one which can at times put to question the conventional development wisdom and calls for a commitment to certain key principles which can help prevent the repetition of past failures while at the same time providing the foundation for future progress It is argued that lasting food security can only be achieved by means of an interactive development process involving the sustainable development of agriculture and an

increasingly diversified national economy In concluding the main questions which may likely concern many people are addressed directly Wherefrom are the investment resources to be obtained and where the capacities are to be summoned to promote the scale and tempo of the development envisaged Examples are offered of the types of measures which could be considered in response to the future development challenges Ultimately both the ends of development and the means by which they might be attained must derive impetus from the cravings and drive for accomplishment of ordinary people acting individually or collectively in the pursuit of their common interests The primary instrument for unleashing this potential belongs to the political realm Food and Agriculture in Ethiopia International Food Policy Research Institute,2012

**Repurposing agriculture's public budget to align healthy diets affordability and agricultural transformation objectives in Ethiopia** Sánchez, M.V., Cicowiez, M., 2022-08-02 Agricultural transformation has been ongoing for decades in Ethiopia where the agenda to improve nutrition has also gained momentum This paper assesses ways in which the government could coherently pursue the objectives of reducing the cost of the least cost healthy diet for Ethiopians and achieving faster inclusive agricultural transformation IAT for example by increasing agrifood output creating rural off farm

employment and reducing rural poverty The main finding is that pursuing IAT objectives also allows reducing the cost of the least cost healthy diet Ethiopian policymakers may consider repurposing the budget for agriculture to pursue IAT objectives as suggested in this paper in order to increase value for public money not only in terms of agrifood output growth job creation and poverty reduction but also in terms of increasing the affordability of healthy diets Mutual Security Act of 1959 United States.
