Reynolds *Death and the Mother from Dickens to Freud* Carolyn Dever,1998-05-14 The cultural ideal of motherhood in
Victorian Britain seems to be undermined by Victorian novels which almost always represent mothers as incapacitated
abandoning or dead Carolyn Dever argues that the phenomenon of the dead or missing mother in Victorian narrative is
central to the construction of the good mother as a cultural ideal Maternal loss is the prerequisite for Victorian
representations of domestic life a fact which has especially complex implications for women When Freud constructs
psychoanalytical models of family gender and desire he too assumes that domesticity begins with the death of the mother
Analysing texts by Dickens Collins Eliot Darwin and Woolf as well as Freud Klein and Winnicott Dever argues that fictional
and theoretical narratives alike use maternal absence to articulate concerns about gender and representation Psychoanalysis
has long been used to analyse Victorian fiction Dever contends that Victorian fiction has much to teach us about

AM I THE ASSHOLE? Dr. Brandon Day ,2023-01-06 A hilariously irreverent take on the modern memoir you ll never look at memoirs the same way again Boston Globe A heartbreaking and hilarious memoir Dr Brandon Day takes us on his lifelong odyssey of hellish introspection and painstaking self discovery He chronicles his battles with homelessness addiction bosses teachers cable companies neighbors his children and his ex wife to answer the existential question that burns inside all of us Am I the Asshole NEW YORK TIMES Brandon Day grew up in an abusive home All through his childhood his sadistic and overbearing parents tortured him by forcing him

to perform all sorts of unthinkable acts such as brushing his teeth and doing his homework and by the time he was ten years old he had already become addicted to Nintendo. He would spend hours upon hours in his bedroom playing games such as Mike Tyson's Punchout and The Legend of Zelda as a means to escape the suffering he endured at the hands of his cruel and merciless parents. Without any real skills, talent, or drive, Dr. Brandon Day knew that if he wanted to become rich and famous, that he would have to tell his story. He would have to write a really self-righteous memoir where he plays the victim and shits all over his friends and family, complains about how hard his life is, and then brags about how he overcame it all. That would be his only way out of the insufferable torture of having hardly any followers on social media. But upward mobility required crafting the perfect resilience narrative. He had to prove to himself and the rest of the world that he was not just lazy and he was an overcomer, made stronger by all the bullshit he had endured at the hands of not only his parents but other family members, friends, co-workers, teachers, wives, ex-wives, bosses, neighbors, and even his own children. However, the truth was more complicated. After he graduated from college, Dr. Brandon's mom and dad kept breaking his balls about smoking too much pot and finding a fucking job already. If only it were that easy. Eventually, his parents would kick him out of their house and even force him to pay for his own car insurance when he was just a young, scared 26-year-old little boy. Dr. Brandon learns to confront his own past filled with many secrets: a marijuana stash he hid in his sock drawer, all through high school, phone calls from debt collectors who use strange numbers to try to trick him into picking up dozens of lost car keys and wallets he never found, and sometimes even peeing in the kitchen sink when he is drunk. All of which led to the unbecoming desperation of a 40-year-old man forced to a reckoning with his own identity. Although Dr. Brandon would go on to graduate from college and become a high school guidance counselor, he found that sweet-ass summer vacations and a strong teacher's union didn't necessarily mean safety from judgment from the patriarchy or American meritocracy. Both a chronicle of the American Dream and an indictment of it, this searing debut memoir exposes the price we pay for the promise of a bright future. Dr. Brandon Day's story challenges our ideas of what it means to overcome and live life on our own terms, even if those terms mean that you're kind of an asshole.

US Narratives of Nuclear Terrorism Since 9/11 David Seed, 2019-04-06

This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism. It traces the beginnings of this anxiety from the 1970s which increased during the 1990s after the collapse of the Soviet Union. The traumatic events of 9/11 became a major reference point for this fiction which expressed the fear that of a second and worse 9/11. The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the worst of all outcomes: nuclear detonations, sometimes delivered by suitcase nukes. In some of these narratives, the very fate of the nation hangs in the balance in the face of nuclear apocalypse. The discussion considers cases of attacks by electromagnetic pulse (EMP), cyberterrorism, and even bioterrorism. Some of the authors examined are present or former politicians, members of the CIA, and former president Bill Clinton.

In *Reading the World*, Dianne C. Luce explores the historical and philosophical contexts of Cormac McCarthy's early works crafted during his Tennessee period from 1959 to 1979 to demonstrate how McCarthy integrates literary realism with the imagery and myths of Platonic, gnostic, and existentialist philosophies to create his unique vision of the world. Luce begins with a substantial treatment of the east Tennessee context from which McCarthy's fiction emerges, sketching an Appalachian culture and environment in flux. Against this backdrop, Luce examines novel by novel McCarthy's distinctive rendering of character through mixed narrative techniques of flashbacks, shifts in vantage point, and dream sequences. Luce shows how McCarthy's fragmented narration and lyrical style combine to create a rich portrayal of the philosophical and religious elements at play in human consciousness as it confronts a world rife with isolation and violence. *The Routledge Companion to Biofiction* Lucia Boldrini, Laura Cernat, Alexandre Gefen, Michael Lackey, 2025-03-31. The *Routledge Companion to Biofiction* provides readers with the history, origins, and evolution of this popular genre. Featuring contributions from leading scholars in the field, this authoritative collection foregrounds analyses of biofiction's core foundations through contemporary debates. The volume is organized into seven sections: Histories of biofiction; Theoretical reflections on biofiction; Biofiction, national models, and transnational constructions; Biofiction as political intervention; Biofictional case studies; Activating lives: early modern women and authorial reflections; This groundbreaking collection features works that refine our understanding of the genesis and evolution of biofiction, theorize its unique and distinctive modes of signifying, reflect on its value for the future, and social justice; chart new approaches for doing biofictional analysis; and offer insights from authors of biofiction into the creative process. This is the first collection to bring together the two main schools of interpreting biofiction: the Francophone and Anglophone, while also shedding light on biofictions in many languages from or about many continents and offering a platform to established and new voices alike. It will be essential reading for students as well as advanced scholars interested in biographical fiction. **The Politics of Humiliation in the Novels of J.M. Coetzee** Hania A.M. Nashef, 2013-05-13. In this volume, Nashef looks at J.M. Coetzee's concern with universal suffering and the inevitable humiliation of the human being as manifest in his novels. Though several theorists have referred to the theme of human degradation in Coetzee's work, no detailed study has been made of this area of concern, especially with respect to how pervasive it is across Coetzee's literary output to date. This study examines what J.M. Coetzee's novels portray as the circumstances that contribute to the humiliation of the individual, namely the abuse of language, master and slave, interplay, aging, and senseless waiting, and how these conditions can lead to the alienation and marginalization of the individual.
