State Accountability for Space Debris Peter Stubbe, 2017-11-13 In *State Accountability for Space Debris* Peter Stubbe examines the legal consequences of space debris pollution which he argues is a global environmental concern The study finds that the customary no harm rule and Article IX of the Outer Space Treaty obligate States to prevent the generation of debris and that the international community as a whole has a legitimate interest in their compliance A breach of these obligations entails the responsibility of a State and compensation must be provided for damage caused by space debris The author treats responsibility and liability separately and thoroughly scrutinizes both legal regimes with the help of common analytical elements Finally Peter Stubbe argues that a comprehensive traffic management system is required so as to ensure the safe and sustainable use of outer space *Signal*, 1990 **The National Union Catalogs, 1963-**, 1964 **Space and Defense Policy** Damon Coletta, Frances T. Pilch, 2009-10-16 This edited volume introduces the reader to the role of space in military and defense strategy and outlines some of the major foreign and domestic actors in the space arena as well as constraints of law and treaties on activities in space It also addresses science and technology as they relate to space policy The book addresses three main questions How does the realm of space fit into strategic thinking about national security How does policy regarding space develop and what considerations both in the United States and abroad figure prominently in calculations about space policy How do different states nations actors regard the role of space in their national security calculations and how do these policies impact each other This book fills a niche in the space policy field providing insights into space and strategy from international experts from the military academic and scientific communities A unique feature of

the book is the chapter on science and technology which utilizes the latest information available concerning space utilization and exploration **Air Force and Space Digest** ,1996
