Air War Viet Nam:

Air War Vietnam Martin W. Bowman, 2025-08-05 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman s revealing narrative of the aerial conflict in South East Asia 1965-1972 which had its beginnings in 1 November 1955 engulfed Vi tnam Laos and Cambodia and only ended with the fall of S i g n on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vi tnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vi tnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vi tnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked So too is the cost in human misery death and destruction *Gradual Failure: The Air War Over North Vietnam, 1965-1966* Jacob Van Staaveren, 2011-07-18 The air war against North Vietnam was launched with the nickname Rolling Thunder This book covers the first phase from March 1965 to late 1966 It begins with the planning and execution of two initial limited air strikes nicknamed Flaming Dart I and II As the air campaign gradually expanded and the permissible targeting area moved northward many in Washington believed air power could never win the war in the north The United States Air Force reached its nadir during the opening two years of the Rolling Thunder air campaign in North Vietnam Never had the Air Force operated with so many restraints and to so little effect These pages are painful but necessary reading for all who care about the nation s military power The author served as a historian for over twenty years with the Air Force history program Originally published by the Air Force History and Museums Program *An Illustrated Guide to the Air War Over Vietnam*

Bernard C. Nalty, George M. Watson, Jacob Neufeld, 1981 *Air Power And The Ground War In Vietnam, Ideas And Actions*

Dr Donald J. Mrozek, 2015-11-06 Ultimately this study is about a smaller Vietnam War than that which is commonly recalled. It focuses on expectations concerning the impact of air power on the ground war and on some of its actual effects but it avoids major treatment of some of the most dramatic air actions of the war such as the bombing of Hanoi. To many who fought the war and believe it ought to have been conducted on a still larger scale or with fewer restraints this study may seem almost perverse emphasizing as it does the utility of air power in conducting the conflict as a ground war and without total exploitation of our most awe inspiring technology. Although the chapters in this study are intended to form a coherent and unified argument each also offers discrete messages. The chapters are not meant to be definitive. They do not exhaust available documentary material and they often rely heavily on published accounts. Nor do they provide a complete chronological picture of the uses of air power even with respect to the ground war. Nor is coverage of areas in which air power was employed South Vietnam Laos Cambodia and North Vietnam evenly distributed nor necessarily proportionate to the effort expended in each place during the war. Lastly some may find one or another form of air power either slightly or insufficiently treated. Such criticisms are beside the point for the objectives of this study are to explore a comparatively neglected theme the impact of air power on the ground and to encourage further utilization of lessons drawn from the Vietnam experience.

On Yankee Station John B. Nichols, 2013-03-11 Combining vivid personal narrative with historical and operational analyses this book takes a candid look at U S naval airpower in the Vietnam War. Coauthors John Nichols a fighter pilot in the war and Barrett Tillman an award winning aviation historian make full use of their extensive knowledge of the subject to detail the ways in which airpower was employed in the years prior to the fall of Saigon. Confronting the conventional belief that airpower failed in Vietnam they show that when applied correctly airpower was effective but because it was often misunderstood and misapplied the end results were catastrophic. Their book offers a compelling view of what it was like to fly from Yankee Station between 1964 and 1973 and important lessons for future conflicts. At the same time it adds important facts to the permanent war record. Following an analysis of the state of carrier aviation in 1964 and a definition of the rules of engagement it describes the tactics used in strike warfare the airborne and surface threats electronic countermeasures and search and rescue. It also examines the influence of political decisions on the conduct of the war and the changing nature of the Communist opposition. Appendixes provide useful statistical data on carrier deployments combat sorties and aircraft losses.

The Vietnam Air War Dennis M. Ridnour, 2016 As Dennis M. Mike Ridnour writes in the foreword of his new oral history *The Vietnam Air War* First Person over five million missions were flown in the Vietnam War. The many pilots crew and support personnel who risked their lives daily don't deserve to fade into obscurity. Unhappy with the lack of first person retellings of the war Ridnour made it his new mission to preserve these men's tales of bravery and duty. The result is more than one hundred stories from the front lines of the war. Air Force Fighter Pilots Weapon Systems

Operators WSOs and Electronic Warfare Officers EWOs recount their stories of air to air engagements near misses successes and failures A pilot explains why he buys a drink for every tanker driver he meets An airman explains what a Thud is A veteran vividly describes his homecoming These stories and others provide a much different account of the war than those found in history books The pages come alive with perilous missions and skilled maneuvers Airmen from all walks of life were united during the war and their tales include stirring accounts of friendship and comradery **Air War Vietnam. Plans and Operations 1961 - 1968** Jacob van Staaveran, Stuart Slade, 2012-10-19 During the middle and late 1970s the United States Air Force Historical Research Center Maxwell Air Force Base Alabama produced a series of 17 monographs that detailed the history of the Vietnam War These studies were classified as being Top Secret for many years and were only recently released to the public The core of these monographs is the series that deal with the political operational and technical development of the Air Force participation in the Vietnam War These remarkable documents contain a wealth of historical data that explain the background and reasoning behind many controversial decisions This compilation has taken these monographs and assembled them into a single narrative The documents have been painstakingly remastered and reset to the printed page but their editorial integrity has been scrupulously preserved **Air War Vietnam Plans and Operations 1969 - 1975** Elizabeth Hartsook, Stuart Slade, 2013-03-31 During the middle and late 1970s the United States Air Force Historical Research Center produced a series of 17 monographs that detailed the history of the Vietnam War These remarkable documents contain a wealth of historical data that explain the background and reasoning behind many controversial decisions Air War Vietnam is a compilation of these monographs that casts new light on why the Vietnam war was fought the way it was and why a war that could and should have been won was instead lost **Air Power's Lost Cause** Brian D. Laslie, 2021-05-14 The first comprehensive treatment of the air wars in Vietnam Filling a substantial void in our understanding of the history of airpower in Vietnam this book provides the first comprehensive treatment of the air wars in Vietnam Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal Detailing the competing roles and actions of the air elements of the United States Army Navy and Air Force the author considers the strategic operational and tactical levels of war He also looks at the air war from the perspective of the North Vietnamese Air Force Most important for understanding the US defeat Laslie illustrates the perils of a nation building a one dimensional fighting force capable of supporting only one type of war **Gradual failure : the air war over North Vietnam 1965-1966** Jacob Van Staaveren, 2002 Of the many facets of the American war in Southeast Asia debated by U S authorities in Washington by the military services and the public none has proved more controversial than the air war against North Vietnam The air war s inauguration with the nickname Rolling Thunder followed an eleven year American effort to induce communist North Vietnam to sign a peace treaty without openly attacking its territory Thus Rolling Thunder was a new military program in what had been a relatively low key attempt by the United States to win the war within South

Vietnam against insurgent communist Viet Cong forces aided and abetted by the north The present volume covers the first phase of the Rolling Thunder campaign from March 1965 to late 1966 It begins with a description of the planning and execution of two initial limited air strikes nicknamed Flaming Dart I and II The Flaming Dart strikes were carried out against North Vietnam in February 1965 as the precursors to a regular albeit limited Rolling Thunder air program launched the following month Before proceeding with an account of Rolling Thunder its roots are traced in the events that compelled the United States to adopt an anti communist containment policy in Southeast Asia after the defeat of French forces by the communist Vietnamese in May 1954 Interservice Rivalry and Airpower in the Vietnam War Ian Horwood,2010 Explores the rivalry between the armed services of the U S relating to the employment of tactical airpower during the Vietnam War Not being an American Horwood is able to put a fresh perspective on this complex issue This study focuses on tactical airpower in S Vietnam between 1961 and 1968 Horwood avoids a lengthy discussion of the air war over N Vietnam focusing instead on the combat operations in the South He examines a number of issues which are relevant to the use of airpower in irregular warfare command and control of airpower the use of airpower at the tactical and the operational strategic level of war the role of helicopters and different service understandings of the proper role of airpower in a counterinsurgency

Gradual Failure Jacob Van Staaveren,2002 Air War Against North Vietnam United States. Congress. Senate. Committee on Armed Services. Preparedness Investigation Subcommittee,1967 **Air War Against North Vietnam** United States. Congress. Senate. Committee on Armed Services. Preparedness Investigating Subcommittee,1967 **Air War Over South Vietnam, 1968-1975** Bernard C. Nalty,2000 **Air War Against North Vietnam, Hearings Before the Preparedness Investigating Subcommittee...** United States. Congress. Senate. Armed Services,1967 **Flights of Valor: Unsung Heroes of the Vietnam Air War** Pasquale De Marco,2025-05-19 In the annals of warfare the Vietnam War stands as a stark reminder of the human cost of conflict Amidst the thunderous roar of bombs and the relentless rain of gunfire the airmen of the United States military soared through the skies their courage and sacrifice etched into the fabric of history Flights of Valor Unsung Heroes of the Vietnam Air War is a gripping narrative that chronicles the extraordinary tales of these brave men who answered the call to duty Through their firsthand accounts we are transported to the heart of the aerial battles where the stakes were life and death and the thin line between victory and defeat hung precariously in the balance From the harrowing missions over North Vietnam to the daring rescue operations deep in enemy territory these airmen faced unimaginable dangers with unwavering resolve They witnessed the horrors of war firsthand the devastation wrought upon the land and the people below Yet they persevered driven by an unwavering sense of duty and an unwavering belief in the cause they fought for Their stories are a testament to the indomitable spirit of humanity a chronicle of courage sacrifice and resilience They are the stories of men who risked everything to protect their country and its ideals They are the stories of men who flew into the eye of the storm who stared danger in the face and refused to flinch Flights of Valor is more

than just a historical account it is a poignant tribute to the men who served in the Vietnam War Through their eyes we gain a glimpse into the human toll of war the unbreakable bonds of camaraderie forged in the crucible of combat and the emotional and psychological scars that lingered long after the war s end This book serves as a reminder of the sacrifices made by those who have served our country and a call to honor their legacy by working towards a world where peace prevails Their stories deserve to be remembered not only as a tribute to their valor but also as a testament to the enduring power of the human spirit in the face of adversity If you like this book write a review on google books *Air War - Vietnam* Frank Harvey,1967 From the briefing rooms and bombing runs to the dogfights and last ditch bail outs here are the true stories of the fighting men of Vietnam as told by aviation expert Frank Harvey This is what it was like to fight in the flame filled skies of Southeast Asia **The Vietnam War: Vietnamese and American Perspectives** Jayne Werner,Luu Doan Huynh,2015-02-18 This volume derives from an unprecedented seminar held at Columbia University s School of International and Public Affairs in November 1990 At the seminar leading Western diplomatic and military historians and Vietnam scholars met with prominent Vietnamese Communists to reflect on the Vietnam War The book contains four parts The Vietnamese Revolution and Political Military strategy the war from the American side the war in the South and Cambodia and retrospective and postwar issues In addition to Jane Werner and Luu Doan Huynh the contributors are Mark Bradley William Duiker David Elliott Christine White George Vickers James Harrison George Herring Ronald Spector Paul Joseph Jeffrey Clarke Ngo Vinh Long Benedict Kiernan Marilyn Young Keith Taylor and Tran Van Tra General Tra was Commander of the People s Liberation Armed Forces of South Vietnam from 1963 to 1975 His eye opening analysis of the Tet Offensive has never before been available in English **Air War Over Vietnam** Dana Bell,1982-01-01 These books contain photographs of the Vietnam War The focus is on various aspects of the air war following no strict chronology or subject line but is aimed to give an overall impression of the conflict through this random selection Volume 2 covers the operations between 1964 and 1968 The third volume contains photographs of the war as recorded by a variety of photographers who were lucky enough to be present at an interesting scene in the sky or on the ground Volume 4 is a full color pictorial survey of US air involvement during the war The compiler hopes to convey the atmosphere of that difficult combat environment as well as provide a general overview of the major aircraft types used in the war
