**Government and Armed Forces in Britain, 1856-1990** Paul Smith, 2010-07-15 In a period that began with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem

of how far politicians could decide on strategies proposed by the military other than by the crude yardstick of cost The essays in *Government and the Armed Forces in Britain 1856-1990* provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces **International Cooperation with**

Yates, 2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British led locally raised Arab force Through a combination of direct oversight by rulers investment in its nationals engagement of expatriates and the purchase of cutting edge military hardware the UAE Armed Forces has become arguably the most capable Arab

military In the last decade it has also gained considerable experience through its military operations in Afghanistan Libya Iraq Syria and Yemen This book traces the little known history of the country s military from 1951 to 2020 It provides unparalleled detail on the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present It provides essential background information on how the country s geography demographics and political system have shaped its military the enduring roles of the military and the history of each military service It also details the political and command structure governing the military and its manpower and materiel characteristics The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time

**Readiness and recuperation of the Armed Forces** Great Britain: Parliament: House of Commons: Defence Committee,2010-02-10 The Defence Committee states that the forthcoming Strategic Defence Review should take account of the current low readiness levels of the Armed Forces and the need for their effective recuperation The Armed Forces have been involved in operations in Iraq and Afghanistan for many years while maintaining key standing tasks such as the strategic nuclear deterrent and UK air defence They have been deployed above the Defence Planning Assumptions the level at which they are structured and funded for seven years Nevertheless the Committee considers it unsatisfactory that readiness levels have been allowed to fall to the extent that they have and recommends that the Strategic Defence Review reviews the utility and content of the Defence Planning Assumptions and readiness targets Recuperation is the process by which force elements are returned to target levels of readiness It involves all the underlying components manpower equipment training and logistics support The drawdown of troops from Iraq should provide the MoD with an opportunity to recuperate the Armed Forces and to reverse the fall in readiness But there have also been pressures on personnel with significant numbers of the Army and the Marines and those in key pinch point trades such as medical personnel being deployed more frequently than the MoD would wish breaking harmony guidelines If readiness is to be improved then the Army must return to being deployed within harmony guidelines as soon as practicable

**Recruiting and Retaining Armed Forces Personnel** Great Britain. Parliament. House of Commons. Defence Committee,2008 Recruiting retaining the right number of well trained personnel is vital for the continuing success of the United Kingdom s Armed Forces Yet recruitment and retention targets are not being met There is particular concern about shortages in pinchpoint trades trades or areas of expertise where there is not enough trained strength to perform operational tasks without encroaching on the time provided between deployments for recuperation training and leave This report sets out to examine the factors which hamper recruitment and retention in the Armed Forces

and reservists identify what the MoD is doing to improve these There is also concern and examination of the issue of why ethnic minority personnel form such a low proportion of the Armed Forces      *The Armed Forces Covenant in action? Part 1: Military casualties* Great Britain: Parliament: House of Commons: Defence Committee,2011-12-15 The Government must show how the excellent medical care being delivered to injured service personnel will continue long after the memory of the Afghan Operation fades This report which gives praise to the first class medical treatment provided for the Armed Forces questions whether the support for injured personnel will be sustainable over the long term In particular the committee is concerned about the number of people who may go on to develop severe and life limiting physical mental health alcohol or neurological problems There is still a question mark over whether the Government as a whole fully understands the likely future demands and related costs      *War, Identity and the Liberal State* Victoria Basham,2013-07-24 This book critically examines the significance of gender race and sexuality to wars waged by liberal states Drawing on original field research with British soldiers it offers insights into how their everyday experiences are shaped by and shape a politics of gender race and sexuality that not only underpins power relations in the military but the geopolitics of wars waged by liberal states Linking the politics of daily life to the international is an intervention into international relations IR and security studies because instead of overlooking the politics of the everyday this book insists that it is vital to explore how geopolitical events and practices are co constituted reinforced and contested by it By utilising insights from Michel Foucault the book explores how shared and collectively mediated knowledge on gender race and sexuality facilitates certain claims about the nature of governing in liberal states and about why and how such states wage war against illiberal ones in pursuit of global peace and security The book also develops post structural work in international relations by urging scholars interested in the linguistic construction of geopolitics to consider the ways in which bodies objects and architectures also reinforce particular ideas about war identity and statehood      **Contractions** United States.
