Guss, 2001-01-02 If as David Guss argues culture is a contested terrain with constantly changing contours then festivals are its battlegrounds where people come to fight and dispute in large acts of public display Festive behavior long seen by anthropologists and folklorists as the uniform expression of a collective consciousness is contentious and often subversive and The Festive State is an eye opening guide to its workings Guss investigates the ideology of tradition combining four case studies in a radical multisite ethnography to demonstrate how in each instance concepts of race ethnicity history gender and nationhood are challenged and redefined In a narrative as colorful as the events themselves Guss presents the Afro Venezuelan celebration of San Juan the neo Indian Day of the Monkey the mestizo ritual of Tamunangue and the cultural policies and products of a British multinational tobacco corporation All these illustrate the remarkable fluidity of festive behavior as well as its importance in articulating different cultural interests **Directory of Corporate Affiliations 2000**, 2000 EBOOK: Business Research Methods Boris Blumberg, Donald Cooper, Pamela Schindler, 2014-03-16 Are you about to begin your dissertation or a research project but don't know what topic to choose Are you unsure of what research methods to use and how they should be applied to your project Are you worried about how to write up your research project Then this is the book for you A balanced coverage of qualitative and quantitative methods means that no matter what approach you choose to use for your project there are examples and case studies to help guide you through the process Student Research boxes provide an insight into situations and research decisions that students have encountered in real life projects They contain hints tips and sometimes questions to help you think through your own project A Running Case Study charts the progression of two student research projects one qualitative and one quantitative and shows how the content of each chapter can be used to develop their projects Thought provoking questions are included in order to help you consider the issues and decisions involved which you can then apply to your own project Deeper Insight boxes delve further into particular research issues offering you a detailed description to increase your understanding of these areas whilst Real Life examples put research methods into context by showing you how they have been applied in real world
