Losch,2008-05-13 More than any other book the Bible offers an amazing collection of fascinating characters ranging from the holiest of the holy to some of the most depraved scoundrels imaginable Many are mentioned only in passing yet history and

archaeology can often fill in the blanks and flesh them out as exciting human beings For this reason we have in many cases been able to tell much more about them than the Bible alone reveals Richard R Losch from the preface A comprehensive gathering of persons found in the Bible including the Apocrypha All the People in the Bible really delivers on its title literally all of the Bible s characters appear in this fascinating reference work From the first article on Aaron to the final entry on Zophar Richard Losch details each person in a lively narrative style The bulk of the book consists of Losch s A Z articles covering the familiar and the not so familiar figures in Scripture Names of people who are found only in genealogies or who had no significant effect on history are included solely in the alphabetical listing starting on page 452 That listing All the People in the Bible and Apocrypha includes pronunciations brief identifications and biblical references Persons covered in greater detail in the main part of the book are identified in bold print Losch s intriguing look at all the people in the Bible is anything but a dry reference work This is a book to dip into and enjoy over and over **Symmetric Fertilization of the Individual**

Yuri Romashev,2024-01-05 Do you want to have sex and make a baby whenever and with whomever you want Do you give a lot of thought to choosing a partner and the moment of conception taking the natural order of things into consideration including the cosmic and astronomic laws and be part of the symmetric organization of human reproduction Yuri Romashev is the first author to tackle this topic and discover the truth about multifarious modern conventions and myths What exactly is love And the prince on the white horse Junk logic The same holds true of the partner choice and mating urge inspired by religious irrationality and other group pressures Romashev expects this topic to remain of interest for years to come Certainly as long as most babies are conceived in an intense emotional outburst or in response to outdated traditions He proposes a solution a new calendar system a new timetable with responses to essential questions like Who is destined to be the true partner What is the right time for conception and What is symmetric fertilization of the individual A surprising text awaits the reader filled with intriguing and hitherto hidden knowledge for example about hidden symmetry and what most do not yet know about the Gregorian calendar created in 1582 What is the symbol of our life that is hidden in the 365 day Gregorian calendar Dreamweaver MX 2004: the Missing Manual David Sawyer McFarland,2004-02-13 Features step by step instructions explaining how to build a Web page link from one page to another spice up the design with graphics apply cascading style sheets view the underlying HTML code and collect information using forms *The New Manual of Astrology* Sepharial,1898 *The Manual of Astrology, the Standard Work* Sepharial,2010-09 First published in 1898 this is a very different astrology book from what we have now There are extensive delineations for the signs of the zodiac especially when found on the ascendant There are delineations of planets in signs when they are in the first house or are the chart ruler in both cases describing the physical appearance There are delineations of planets in the various houses which will also serve for the planetary rulerships of the houses There are only sketchy notes on aspects So far as the pure astrology of planets in signs in houses in aspect there is almost nothing at all The reason is found in the second part of the book We are not reading

the chart as a psychological abstraction We are instead looking for specific traits attempting to answer specific questions Will we have a profession What kind of marriage What kind of children Will we vanquish our enemies or submit to them What kind of illness We then find the house s of the horoscope which rule the question and then delineate the signs planets we find there These are by the way the sort of questions that clients would ask if they only knew we could give answers The sort of things that astrologers themselves want to know In the process we learn how to read a chart get real meaning from it We get ideas from one section and then apply them to other sections There are hundreds and hundreds of useful aphorisms except that Sepharial doesn t label them as such Get this book study it underline key passages scribble in the margins You will learn more from this book than most all others put together
