Wieseman, 2004-01-01 Gerard ter Borch 1617 1681 was unequalled among his Dutch peers for capturing the elegance grace of wealthy Dutch society in his portraiture A major influence on Vermeer ter Borch has not received the attention he deserves this is the first major English language text about his work **New York Modern** William B. Scott, Peter M. Rutkoff, 1999 Handsomely illustrated and engagingly written New York Modern documents the impressive collective legacy of New York s artists in capturing the energy and emotions of the urban experience *The Cults of Raphael and Michelangelo* Tamara Smithers, 2022-07-29 This study explores the phenomenon of the cults of Raphael and Michelangelo in relation to their death burial and posthumous fame or second life from their own

times through the nineteenth century These two artists inspired fervent followings like no other artists before them The affective response of those touched by the potency of the physical presence of their art works personal effects and remains or even touched by the power of their creative legacy opened up new avenues for artistic fame divination and commemoration Within this cultural framework this study charts the elevation of the status of dozens of other artists in Italy through funerals and tomb memorialization many of which were held and made in response to those of Raphael and Michelangelo By bringing together disparate sources and engaging material as well as a variety of types of artworks and objects this book will be of great interest to anyone who studies early modern Italy art history cultural history and Italian studies *John Smibert* Richard H. Saunders, Saunders, John Smibert, 1995-01-01 Saunderson explores Smibert's early Scottish and London training as well as his travels in Italy his portrait practice in London his arrival in America and his stylistic development the creation of The Bermuda Group and the business of portrait painting in Boston *Light for a Cold Land* Peter Larisey, 1993-01-10 Lawren Stewart Harris artistic career began in the first decade of our century Well known for the nationalist inspired landscapes that he painted between 1908 and 1932 Harris turned resolutely in 1934 to the painting of abstractions He continued to create works that reflected his own modernist and mystical developments until the end of his life Canadians praise Harris landscapes and admire him as a planner of innovative and heroic sounding sketching trips into the North He is also recognized as the chief organizer of the Group of Seven A long list of younger artists he considered creative greatly benefited from Harris encouragement and often generous practical help many of them have been interviewed for this book In the lives of some Canadians Harris still functions as a guru-like guide a role he was quite content to take on during his own lifetime because of the spiritual content of his art and aesthetic writings and the example of his optimistic vigorous and apparently untroubled life But Harris was not an untroubled life and *Light for a Cold Land* examines his personal crises and difficulties some of which caused important changes in his art The book also uncovers the painting styles artistic tensions and cultural dynamics of the German milieu in which Harris received his only formal art education His student years in Berlin profoundly influenced not only his art but also his artistic politics and his philosophy It is ironic that in the art of this most articulate of Canadian nationalist painters there are extensive German influences *Light for a Cold Land* is the first art historical study of Lawren Harris that attempts to explore his life and all aspects of his career It is based on extensive work in archives libraries public art galleries and private collections in Canada as well as research in Germany and interviews with members of Harris family and many of his friends acquaintances colleagues and critics *The Move Beyond Form* M. Hughes, 2013-03-12 Fictional narratives of the late twentieth century often cross boundaries This study argues that the undoing of structure in postmodern art form demands a different way of thinking and represents a commentary on the material and social conditions of the late twentieth century and beyond **Modernism and the Spiritual in Russian Art** Louise Hardiman, Nicola Kozicharov, 2017-11-13 In 1911 Vasily Kandinsky published the first edition of *On the Spiritual in*

Art a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist For many artists of late Imperial Russia a culture deeply influenced by the regime s adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context *Modernism and the Spiritual in Russian Art New Perspectives* enriches our understanding of the modernist period and breaks new ground in its re examination of the role of religion and spirituality in the visual arts in late Imperial Russia Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored revealing uncharted corners and challenging long held assumptions *Tricks of the Light* Jonathan Crary,2023-08-22 Essays on media systems and contemporary art by a leading theorist of modern visual culture *Tricks of the Light* brings together essays by critic and art historian Jonathan Crary internationally known for his groundbreaking and widely admired studies of modern Western visual culture This collection features a compelling selection of Crary s responses to modern and contemporary art and to the transformations of twentieth century media systems and urban technological environments These wide ranging and provocative texts explore the work of painters performance artists writers architects and photographers including Allan Kaprow Eleanor Antin Ed Ruscha John Berger Bridget Riley J G Ballard Rem Koolhaas Gretchen Bender Dennis Oppenheim Paul Virilio Robert Irwin and Uta Barth There are also reflections on filmmakers Fritz Lang Stanley Kubrick Jean Luc Godard David Cronenberg and others The book is enhanced by several expansive essays on the unstable status of television both amid its beginnings in the 1930s and then during its assimilation into new assemblages and networks in the 1980s and 90s These assess its many sided role in the reshaping of subjectivity temporality and the operation of power Like all of Crary s work his writing here is grounded in the acuteness of his engagement with perceptual artifacts of many kinds and in his nuanced reading of historical processes and their cultural reverberations **Art & Ophthalmology** Philippe Lanthony,2009 **Head, Heart, and Hand** Marie Via,Marjorie B. Cooke,2022-09-13 A bold reorientation of art history that bridges the divide between fine art and material culture through an examination of objects and their uses Art history is often viewed through cultural or national lenses that define some works as fine art while relegating others to the category of craft Global Objects points the way to an interconnected history of art examining a broad array of functional aesthetic objects that transcend geographic and temporal boundaries and challenging preconceived ideas about what is and is not art Avoiding traditional binaries such as East versus West and fine art versus decorative art Edward Cooke looks at the production consumption and circulation of objects made from clay fiber wood and nonferrous base metals Carefully considering the materials and process of making and connecting process to product and

people he demonstrates how objects act on those who look at use and acquire them He reveals how objects retain aspects of their local fabrication while absorbing additional meanings in subtle and unexpected ways as they move through space and time In emphasizing multiple centers of art production amid constantly changing contexts Cooke moves beyond regional histories driven by geography nation state time period or medium Beautifully illustrated *Global Objects* traces the social lives of objects from creation to purchase and from use to experienced meaning charting exciting new directions in art history

Fra Filippo Lippi the Carmelite Painter Megan Holmes, Filippo Lippi (Fra), 1999-01-01 Widely admired for his paintings of exquisitely beautiful Madonnas Florentine Renaissance friar artist Fra Filippo Lippi c 1406 69 gained renown also for his love affair with the nun Lucrezia who bore their son Filippino Lippi later a well known painter himself In this beautiful and compelling book Megan Holmes shines new light on Lippi s life and career from the first paintings he created while a friar in Santa Maria del Carmine to the later works he painted when living outside the monastery for the Medici family their supporters and other patrons Focusing especially on the fascinating conjunction of Lippi s work as a painter and his experiences as a Carmelite friar Holmes transforms our understanding of Filippo Lippi and of the way art was produced and viewed in fifteenth century Florence Unlike most monastic artists Fra Filippo learned to paint only after joining a religious order In the first section of the book the author considers how the doctrines rules rituals and practices of the Carmelites shaped Lippi s art and manner of envisioning sacred subjects In the second section Holmes discusses Lippi s life and painting after he left the monastery demonstrating how his mature work broke new ground but continued to draw upon Carmelite influences The final section of the book looks closely at three altarpieces Fra Filippo painted for monastic institutions and sets them in a broader social and religious context
