**How Youth Ministry Can Change Theological Education -- If We Let It** Kenda Creasy Dean, Christy Lang Hearlson, 2016-03-29 Since 1993, forty-nine theological seminaries have created opportunities for high school students to participate in on-campus High School Theology Programs (HSTPs) that invite them to engage in serious biblical and theological study. Many of the young people who take part in these programs go on to become pastoral or lay leaders in their churches. What has made these programs so successful, especially given the well-documented crisis of faith among young people today? In this book, thirteen contributors, many of whom have created or led one of these innovative theology programs, investigate answers to this question. They examine the pedagogical practices the HSTPs have in common and explore how they are contributing to the leadership of the church. They then show how the lessons gleaned from these successful programs can help churches, denominations and seminaries reimagine both theological education and youth ministry.
