1922 Montgomery Ward Catalogue Montgomery Ward (Firm),1968 *1922 Montgomery Ward Catalogue* Montgomery Ward,1969 **W.R. Trivett, Appalachian Pictureman** Ralph E. Lentz II,2000-12-29 W R Trivett 1884 1966 a farmer born in Watauga County North Carolina was also a self taught professional photographer who left behind an invaluable collection of more than 400 glass plate negatives taken between 1907 and the late 1940s in the Beech Mountain community of neighboring Avery County Along with the photographs 105 are reproduced herein a collection of Trivett s personal papers survive revealing very enlightening information about his life in the mountains This work the fourth in McFarland s continuing series of Contributions to Southern Appalachian Studies carefully examines Trivett s life and photographs comparing his work to that of contemporary outside photographers who often produced stereotypical images of mountain people Through Trivett s images we can by contrast see the everyday reality for most people in rural Appalachia

The Archaeology of the Logging Industry John G. Franzen,2020-08-18 In this book John Franzen surveys archaeological studies of logging sites across the nation from the nineteenth and twentieth centuries explaining how material evidence found at these locations illustrates key aspects of the American experience during this era **American Book Publishing Record Cumulative, 1950-1977** R.R. Congress and of All Departments of the Government of the United States for the Period from ... to ... ,1919** **Consumer Choice in Historical Archaeology** S.M. SpencerWood,1987-06-30 Historical archaeology has made great strides during the last two decades Early archaeological reports were dominated by descriptions of features and artifacts while research on artifacts was concentrated on studies of topology technology and chronology Site reports from the 1960s and 1970s commonly expressed faith in the potential artifacts had for aiding in the identifying socioeconomic status differences and for understanding the relationships between the social classes in terms of their material culture An emphasis was placed on the presence or absence of porcelain or teaware as an indication of social status These were typical features in site reports written just a few years ago During this same period advances were being made in the study of food bone as archaeologists moved away from bone counts to minimal animal counts and then on to the costs of various cuts of meat Within the last five years our ability to address questions of the relationship between material culture and socioeconomic status has greatly expanded The essays in this volume present efforts toward measuring expenditure

and consumption patterns represented by commonly recovered artifacts and food bone. These patterns of consumption are examined in conjunction with evidence from documentary sources that provide information on occupations, wealth levels, and ethnic affiliations of those that did the consuming. One of the refreshing aspects of these papers is that the authors are not afraid of documents and their use of them is not limited to a role of confirmation. American Book Publishing Record, 1985
