

America & World War II

1941 – 1945

Chapter 25

1941 1945 America At War

Steven T. Ross

1941 1945 America At War:

America at War Clark G. Reynolds, 1990-06-01 Chronicles America's involvement in World War II the country's transformation from an isolationist republic to a world leader and how Americans lived through those years **World War II: the Encyclopedia of the War Years, 1941-1945** Norman Polmar, Thomas B. Allen, 2012-08-15 This authoritative and comprehensive survey features over 2 400 entries Subjects range from battles soldiers and military activities to politics culture and the Holocaust Enlivened by 85 illustrations its panoramic perspective encompasses WWII's enduring influences on the American way of life A unique and valuable look at the war General James Doolittle **American Foreign and National Security Policies, 1914-1945** Thomas H. Buckley, Edwin B. Strong, 1987 **God Bless America** Kathleen E.R. Smith, 2014-10-17 After Pearl Harbor Tin Pan Alley songwriters rushed to write the Great American War Song an Over There for World War II The most popular songs however continued to be romantic ballads escapist tunes or novelty songs To remedy the situation the federal government created the National Wartime Music Committee an advisory group of the Office of War Information OWI which outlined proper war songs along with tips on how and what to write The music business also formed its own Music War Committee to promote war songs Neither group succeeded The OWI hoped that Tin Pan Alley could be converted from manufacturing love songs to manufacturing war songs just as automobile plants had retooled to assemble planes and tanks But the OWI failed to comprehend the large extent by which the war effort would be defined by advertisers and merchandisers Selling merchandise was the first priority of Tin Pan Alley and the OWI never swayed them from this course Kathleen E R Smith concludes the government's fears of faltering morale did not materialize Americans did not need such war songs as Goodbye Mama I'm Off To Yokohama There Are No Wings On a Foxhole or even The Sun Will Soon Be Setting On The Land Of The Rising Sun to convince them to support the war The crusade for a proper war song was misguided from the beginning and the music business then and now continues to make huge profits selling love not war songs World War II Norman Polmar, 1991 *American War Plans, 1941-1945* Steven T. Ross, 1997 Explains how the best laid plans of US military strategists were scrambled by such factors as coalition politics inter service disputes disagreements between field commanders and Washington logistical constraints and some uncooperative initiatives and reactions of the enemy The initial plan was to pin down the Japanese mass troops in Britain destroy Germany then mop up the Pacific the war turned out to be multi front and relatively simultaneous Includes 18 contemporary battle maps Distributed in the US by ISBS Annotation copyrighted by Book News Inc Portland OR *The Best War Ever* Michael C. C. Adams, 1994 Most valuable to students and general readers who have not given World War II serious study but who are interested in achieving a better understanding of America's experience in what Dwight D Eisenhower called the Great Crusade Register of the Kentucky Historical Society **Anglo-American Strategic Relations and the Far East, 1933-1939** Greg Kennedy, 2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not

joint relationship towards the Far East as the crisis in that region evolved from 1933 39 In short it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan America's Wars in Asia , Even though the cultural approach concerns itself with the local and the particular rather than with the abstract and universal it is inherently comparative Moreover it also relocates each war in the historical and cultural experiences of Asian countries themselves rather than seeing the war as merely a conflict between the United States and Asian nations **The Rise of American Air Power** Michael S. Sherry,1987-09-10 The Bancroft Prize winning history of American strategic bombing Sherry has given us more than just a major contribution to the literature about air power and World War Two His real subject is nothing less than the destructiveness of our modern age John W Dower author of War Without Mercy Race and Power in the Pacific War This book offers an in depth history of American strategic bombing With impressive sweep and vigor Michael S Sherry explores the growing appear of air power in America before World War II the ideas techniques personalities and organizations that guided air attacks during the war and the devastating effects of American and British conventional bombing He also traces the origins of the dangerous illusion that the bombing of cities would be so horrific that nations would not dare let it occur an illusion that has sanctioned the growth of nuclear arsenals His book is a major contribution to American military intellectual and political history **History of American Foreign Policy, Volume 2** Jerald A Combs,2017-07-28 First Published in 2017 Now thoroughly updated this respected text provides a clear concise and affordable narrative and analytical history of American foreign policy from the revolutionary period to the present This is Volume II and is from 1895 The historiographical essays at the end of each chapter have been revised to reflect the most recent scholarship The History of American Foreign Policy chronicles events and policies with emphasis on the international setting and constraints within which American policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves **The GI War Against Japan** Peter Schrijvers,2005-03 Recounts the harrowing experiences of American soldiers in Asia and the Pacific Based on countless diaries and letters it sweeps across the battlefields from the early desperate stand at Guadalcanal to the tragic sinking of the U S S Indianapolis at war s very end The History of American Foreign Policy from 1895 Jerald A. Combs,Jessica Elkind,2024-04-01 Now in its fifth edition this volume offers a clear concise and nuanced history of U S foreign relations since the Spanish American War and places that narrative within the context of the most influential historiographical trends and debates The History of American Foreign Policy from 1895 includes both revised and new sections that incorporate insights from recent scholarship on the United States in the world These sections devote more attention to the international framework as well as the domestic constraints under which American foreign policymakers operated This edition also emphasizes the role of non state actors such as missionaries aid workers activists and business leaders in shaping policies

and contributing to international relations As a result the text considers a broader and more diverse range of people and voices than many other histories of U S foreign policy Expanded final chapters bring the story of U S foreign relations to the present and explore some of the contemporary challenges facing American and global leaders including terrorism the effects of climate change China s increasing influence and globalization Updated controversial issues sections and suggestions for further reading at the end of each chapter reflect important contributions from new studies This engaging text is an invaluable resource for students interested in the history of American foreign policy and international relations The American Century and Beyond George C. Herring, 2017 U S Foreign Relations from 1893 to the Present is the second part of From Colony to Superpower an international narrative that blends political diplomatic and military history with economic cultural and religious history It includes a new introduction and a new chapter that brings the narrative up to the present

The World in Flames Frans Coetzee, Marilyn Shevin-Coetzee, 2011 An edited volume of primary sources from the Second World War The World in Flames A WWII Reader provides for the first time and in a convenient and comprehensive package an ambitious and wide ranging insight that conveys the sheer scale and reach of the conflict and the twelve chapter volume includes sufficient narrative and analysis for the reader to grasp both the war s broad outlines and the context and significance of each particular source Beginning with the growing disenchantment over the World War I peace settlements and the determination of German Italian and Japanese leaders to revise the situation the book traces descent into open armed conflict with the Allies the spectacular early successes of the Germans and Japanese the stabilization and eventual pivotal campaigns of 1942 and the arduous efforts over the remaining three years to destroy the Axis capacity to wage war Examples are drawn from a wide range of documents interspersed with contemporary images such as posters photos cartoons Throughout the book provides a rounded account of the struggle balancing a consideration of strategic and tactical issues the perspectives of the various combatant forces the different theatres of operations the various services involved including aerial and naval warfare and the experiences of participants across the spectrum from privates to generals Furthermore in addition to illustrating the conduct of the war it illuminates its consequences for the societies involved Selections treat the mobilization of labor and intellect trace the impact upon women and children and explore the tendency of the war to throw into bold relief both noble ideals and persistent domestic tensions not to mention the depths of human depravity in the Holocaust Themes that have a special resonance for the postwar era such as the perils of nuclear weapons are also given their due Coupled with chapter on historical memory these features enable students to appreciate the place of World War II place in the longer course of the twentieth century *Britain's Secret War against Japan, 1937-1945* Douglas Ford, 2006-09-27 A new look at how Britain s defence establishment learned to engage Japan s armed forces as the Pacific War progressed Douglas Ford reveals that prior to Japan s invasion of Southeast Asia in December 1941 the British held a contemptuous view of Japanese military prowess He shows that the situation was not helped by the high level of secrecy

which surrounded Japan's war planning as well as the absence of prior engagements with the Imperial Japanese Navy and Army. The fall of Fortress Singapore in February 1942 dispelled the notion that the Japanese were incapable of challenging the West. British military officials acknowledged how their forces in the Far East were inadequate and made a concerted effort to improve their strength and efficiency. However, because Britain's forces were tied down in their operations in Europe, North Africa, and the Mediterranean, they had to fight the Japanese with limited resources. Drawing upon the lessons obtained through Allied experiences in the Pacific theatres as well as their own encounters in Southeast Asia, the British used the available intelligence on the strategy, tactics, and morale of Japan's armed forces to make the best use of what they had, and by the closing stages of the war in 1944 to 1945 they were able to devise a war plan which paved the way for the successful war effort. This book will be of great interest to all students of the Second World War intelligence studies, British military history, and strategic studies in general.

A Companion to American Foreign Relations Robert Schulzinger, 2008-04-15
This is an authoritative volume of historiographical essays that survey the state of U.S. diplomatic history. The essays cover the entire range of the history of American foreign relations from the colonial period to the present. They discuss the major sources and analyze the most influential books and articles in the field. Includes discussions of new methodological approaches in diplomatic history.

America in the World Frank Costigliola, Michael J. Hogan, 2013-12-23
This volume includes historiographical surveys of American foreign relations since 1941 by some of the country's leading historians. Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history. Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations. The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field.

George C. Marshall: Soldier-Statesman of the American Century Mark A. Stoler, 2021-06-25
In a career that paralleled the emergence of the United States as an international power, Marshall was a participant in every significant event contributing to the nation's status as a superpower. From his first combat duty in the Philippines at the turn of the century through both World Wars into the cold war and the Korean conflict, Marshall was a key figure in devising and implementing US military strategies and foreign policies. Stoler emphasizes the years 1939-1951 when Marshall served as World War II army chief of staff, special presidential representative to China, secretary of state at the beginning of the cold war, and Korean War secretary of defense. The book is unique in its merging of military and diplomatic history with biography. It includes a chronology and a bibliographic essay. Drawing on more detailed works supplemented by his sound judgments based on his own careful research, Stoler has successfully caught the spirit of the man and his work. Forrest C. Pogue, official biographer of Marshall, former director of the George C. Marshall Foundation. Useful, fascinating, and very informative. Stoler illuminates many historical debates and events. David Eisenhower, author of *Eisenhower at War 1943-1945*. A very readable book based on the most recent scholarship and presented in a way that students can understand. Michael J. Hogan, Ohio State

University In a skillful work of compression and synthesis Mark A Stoler sets himself an ambitious dual task to render comprehensible the life of an individual almost no one knew well and to ground this life firmly in the context of the revolution in American foreign relations during the first half of the twentieth century The enterprise succeeds admirably partly because Marshall s career lends itself to such treatment and partly because Stoler demonstrates a flair for selecting the essential from the immaterial H W Brands The American Historical Review This is the best available one volume biography of this distinguished man Stoler demonstrates Marshall s intellectual growth as he came to understand international politics and the limits of power Daniel R Beaver The Historian A richly researched and balanced assessment Stoler s insights into Marshall are many and valuable He perfectly captures his sterling integrity and the extent of his exemplary nonpartisanship this is the best single volume about a true hero Barry F Machado The Journal of Military History A n excellent book There have been short one volume biographies of Marshall before but this is the best of the lot Among the strengths of Stoler s treatment are his careful exposition of the factors in Marshall s youth crucial to the formation of his character the importance of his various experiences with the National Guard the Plattsburg volunteers and the Civilian Conservation Corps in conditioning his faith in citizen soldiers and the formative role of his professional education at the Command and General Staff School at Fort Leavenworth and the Infantry School at Fort Benning I B Holley Jr The Journal of American History Stoler is able to present the issues faced by the new chief of staff lucidly and with great insight In sum Professor Stoler with style and verve has produced an excellent summary volume on George C Marshall and his times the book is insightful readable provocative and manageable I highly recommend it Douglas Kinnard Naval War College Review T he book breaks through the general s deliberately cultivated stoic persona and demonstrates the humanity that made him so admired in public and private Stoler s work stands as a model of its genre a concise study that incorporates themes from the large body of current scholarship in the field without ever losing sight of its central character Stoler captures the complexity of the man and his times in a book that is a pleasure to read Donald A Ritchie The Oral History Review This is a useful volume for those who lack the time to read all four volumes of Forrest Pogue s biography Gaddis Smith Foreign Affairs

The Presidency of Harry S. Truman
Donald R. McCoy, 1984 In this volume in the American Presidency Series McCoy recounts and evaluates the record of the Truman Administration and identifies its distinctiveness and relations to the past its own time and the future Focusing on the problems that faced the United States between 1945 1953 he explains how Truman s vigor in championing civil rights health labor education and natural resource policies brought him immense unpopularity and how despite this Truman triumphed in 1948 winning bipartisan support for his foreign and military policies The author depicts Truman as an honest hard working capable and complex man and describes his relationships with his staff Congress foreign representatives the judiciary political parties the press the public and influential private citizens ISBN 0 7006 0252 6 25 00
