CROSSROADS
OF
AMERICAN RELIGIOUS LIFE

ROBERT S. ELLWOOD

1950 Crossroads Of American Religious Life

**Jean-Christophe Agnew, Roy
Rosenzweig**

1950 Crossroads Of American Religious Life:

1950, Crossroads of American Religious Life Robert S. Ellwood, 2000-01-01 The year 1950 saw the height of the postwar religious boom in America and also the depths of the Cold War It was a year when religious enthusiasm and postwar affluence coexisted with anxiety about global communism and an ever present nuclear threat McCarthyism the advent of the hydrogen bomb and the onset of the Korean War provoked ardent and diverse responses from religious leaders and occasioned lively debate in flourishing religious journalism Robert Ellwood's 1950 is a cultural time capsule recovering the impetus for many of today's trends remembering endings and beginnings and documenting many other developments in American religious life of fifty years ago It highlights the parallels and divergences between religious culture then and now

1950 Robert S. Ellwood, 2000 Religion in America Since 1945 Patrick Allitt, 2003 Identifying the major trends and telling moments within both major denominations and other less formal religious movements Allitt asks how these religious groups have shaped and been shaped by some of the most important and divisive political issues and events of the last half century including the Cold War the Civil Rights Movement the Vietnam War feminism and the sexual revolution abortion rights and the antinuclear and environmentalist movements

A Companion to Post-1945 America Jean-Christophe Agnew, Roy Rosenzweig, 2008-04-15 A Companion to Post 1945 America is an original collection of 34 essays by key scholars on the history and historiography of Post 1945 America Covers society and culture people and movements politics and foreign policy Surveys and evaluates the best scholarship on every important era and topic Includes book review section on essential readings

Original Sin and Everyday Protestants Finstuen, 2010-07-13 In the years following World War II American Protestantism experienced tremendous growth but conventional wisdom holds that midcentury Protestants practiced an optimistic progressive complacent and materialist faith In *Original Sin and Everyday Protestants* historian Andrew Finstuen argues against this prevailing view showing that theologians *Within the Market Strife* Kevin E. Schmiesing, 2004-01-01 From populism and progressivism to the New Deal and post World War II conservatism Catholic economists and social thinkers have confronted the same problems as other Americans *Within the Market Strife* recounts the history of American Catholic views on economic issues and places those views firmly within the context of their time

The ^ASpiritual-Industrial Complex Jonathan P. Herzog, 2011-08-05 This fascinating volume argues that American leaders in the early Cold War considered the conflict to be profoundly religious that they saw Communism not as godless but as a religion fighting faith with faith As a result they deliberately used religious beliefs and institutions as part of the plan to defeat the Soviet enemy Jonathan Herzog offers an illuminating account of the spiritual industrial complex chronicling the rhetoric programs and policies that became its hallmarks

No Depression in Heaven Alison Collis Greene, 2016 A study of the inability of the churches to deal with the crisis of the Great Depression and the shift from church based aid to a federal welfare state

Mahalia Jackson and the Black Gospel Field Mark Burford, 2019 Drawing on and piecing together a trove of

previously unexamined sources this work is a critical study of the renowned African American gospel singer Mahalia Jackson 1911-1972 **Dharma of the Dead** Christopher M. Moreman, 2018-07-10 With the increased popularity of zombies in recent years scholars have considered why the undead have so captured the public imagination This book argues that the zombie can be viewed as an object of meditation on death a memento mori that makes the fact of mortality more approachable from what has been described as America's death denying culture The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity's search for meaning in an increasingly global and secular world Zombies are analyzed in the context of Buddhist thought in contrast with social and religious critiques from other works

Evangelicalism Richard Kyle, 2017-09-20 Most forms of religion are best understood in the context of their relationship with the surrounding culture This may be particularly true in the United States Certainly immigrant Catholicism became Americanized mainstream Protestantism accommodated itself to the modern world and Reform Judaism is at home in American society In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture Evangelicals have resisted many aspects of the modern world but Kyle focuses on what he considers their romance with popular culture Kyle sees this as an Americanized Christianity rather than a Christian America but the two are so intertwined that it is difficult to discern the difference between them Instead in what has become a vicious self-serving cycle Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant thus increasing their numbers and success within abundantly populous and populist driven American society In doing so Evangelicalism has become a middle class movement one that dominates America's culture and unabashedly populist Many Evangelicals view America as God's chosen nation thus sanctifying American culture consumerism and middle class values Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture Yet he also thinks Evangelicals may have compromised themselves and their future in the process so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity If so he asks can Evangelicalism survive its own popularity and reaffirm its religious origins or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America This thoughtful and thought provoking volume will interest anyone concerned with the modern day success of the Evangelical movement in America and the aspirations and fate of its faithful *Swords and Plowshares* Timothy D. Padgett, 2018-08-29 Evangelicals are warmongering nationalists right Many assume that evangelicals have always shared the ideology and approach of the Moral Majority But the truth is much more complex Historically evangelical rank and file have not held to one position about war instead they are strewn across the spectrum from love of peace to glorying in war Timothy Padgett presents evangelicals in their own words And in so doing he complicates our

common perceptions of evangelical attitudes towards war and peace Evangelical leaders regularly wrote about the temporal and eternal implications of war from World War II to the Vietnam War Padgett allows us to see firsthand how these evangelicals actually spoke about war and love of country Instead of blind ideologues we meet concerned people of conviction struggling to reconcile the demands of a world in turmoil with the rule of the Prince of peace Dark Airs Brendan Cooper,2009 In discussions of American poetry since World War II the work of John Berryman has become increasingly neglected and marginalized Critics have overwhelmingly chosen to favour the notion that he is an academic establishment poet whose career can comfortably be described as a move from New Critical traditionalism towards self absorbed confessionalism This study shows how such a narrow understanding of Berryman s work is reflective of a broader critical inclination towards a codification of the literary canon as a duel between competing factions of a formalist establishment mainstream and an experimentalist countercultural avant garde By examining the extent to which Berryman s poetry engages with the complex religiopolitical climate of Cold War American culture this study exposes the inadequacy of the paradigm of mainstream traditionalism in relation to his work In doing so it opens up threads of comparative possibility between his work and that of poets ordinarily segregated from him by divisive conceptions of the literary canon As such this volume provides a reconsideration of Berryman s work that simultaneously asks broader questions about the nature of the American poetic canon and established definitions of postmodern poetry **Between the Pigeonholes** Alison

Falby,2020-12-15 Aldous Huxley described Gerald Heard as that rare being a learned man who made his mental home on the vacant spaces between the pigeonholes Heard s off beat interests made him a cultural and intellectual pioneer on both sides of the Atlantic in the middle decades of the twentieth century Despite accolades from such figures as E M Forster who characterized him as one of the most penetrating minds in England and Christopher Isherwood who described him upon his death as one of the few great magic mythmakers and revealers of life s wonder Heard is largely unknown today *Between the Pigeonholes* is the first published full length study of Gerald Heard Alison Falby examines Heard s ideas and contexts in interwar Britain and postwar America demonstrating his significance in several important twentieth century movements These movements include popular science and psychology psychical research Eastern spirituality pacifism cooperativism and Californian counter culture All of Heard s involvements expressed his desire to convey religious ideas in the modern languages of biological social and physical science Falby also traces Heard s shifting political leanings from left liberal in the early 1930s to libertarian in the early 1960s She finds that his modernist theological approach conventionally associated with liberal religion and politics provided spiritual fodder for those on both the Left and the Right Isherwood and W H Auden on the one hand and Clare Boothe Luce and Spiritual Mobilization on the other Using Heard as a prism through which to examine popular ideas Falby shows that the twentieth century contained much political and religious heterogeneity This heterogeneity illustrates the diverse and overlapping roots of both liberal religion and conservative politics in the twenty first

century **Building Bridges** Kendra Weddle, Jann Aldredge-Clanton, 2018-05-03 Letha Dawson Scanzoni changed the landscape of American evangelicalism through her groundbreaking work on the gospel based intersection of gender and LGBTQ justice. She coauthored two of the first books that support women's equality and LGBTQ rights with the Bible: *All We Are Meant to Be* and *Is the Homosexual My Neighbor*. In all her work, Scanzoni applies the liberating message of Jesus to women and to people who have been marginalized by church and society because of sexual orientation. *Building Bridges* combines an exploration of the life and work of Letha Dawson Scanzoni with stories of people she continues to empower through her writing and the Evangelical Ecumenical Women's Caucus Christian Feminism Today, an organization she cofounded. This book illustrates her growing influence as she continues her prophetic collaboration with new generations. In addition, it provides resources for churches as they build bridges for their ministries of liberation, justice, and peace.

Superchurch Jonathan J. Edwards, 2015-04-01 Christian Fundamentalism is a doctrine and a discourse in tension. Fundamentalists describe themselves as both marginal and a majority. They announce the imminent end of the world while building massive megachurches and political lobbying organizations. They speak of the need for purity and separation from the outside world while continually innovating in their search for more effective and persuasive ways to communicate with and convert outsiders. To many outsiders, Fundamentalist speech seems contradictory, irrational, intolerant, and dangerously antidemocratic. To understand the complexity of Fundamentalism, we have to look inside the tensions and the paradoxes. We have to take seriously the ways in which Fundamentalists describe themselves to themselves and to do that we must begin by exploring the central role of the church in Fundamentalist rhetoric and politics. Drawing on five fascinating case studies, *Superchurch* blends a complex yet readable treatment of rhetorical and political theory with a sophisticated approach to Fundamentalism that neither dismisses its appeal nor glosses over its irresolvable tensions. Edwards challenges theories of rhetoric, counterpublics, deliberation, and civility while offering critical new insights into the evolution and continuing influence of one of the most significant cultural and political movements of the past century. **Eye on Israel** Michelle

Mart, 2006-02-09 Examines the image of Israel in American culture before 1960 Timeless Youth Ministry Lee Vukich, Steve Vandegriff, 2008-01-01 Most adults feel uncomfortable in the teen subculture. From this uneasy position, adults like to handle the teens like children because they are threatening. The purpose of *Timeless Youth Ministry* is to help people in the church and Christian youth organizations minister to teenagers. As former youth pastors and current professors of youth ministry, the authors have been there, done that in this field. They've run programs, camps, and ministry trips in such diverse places as southern California, east Tennessee, northeast Ohio, and Alberta, Canada, to name a few. This book is a needed resource to examine afresh what it means to be an adolescent in today's culture and how those who minister to young people can best reach them. **Paris and the Cliché of History** Catherine Eleanor Clark, 2018 *Paris and the Cliché of History* traces the changing historical meanings of photographs of this city during a century marked by urban renovation, war,

occupation liberation and visual documentation Challenging the idea that photographs merely document the past it calls for new methods of reading photos as material objects with histories of their own and sheds insight on the capital s reduction to an image in the twentieth century *Introducing World Christianity* Charles E. Farhadian, 2012-02-20 This interdisciplinary introduction offers students a truly global overview of the worldwide spread and impact of Christianity It is enriched throughout by detailed historic and ethnographic material showing how broad themes within Christianity have been adopted and adapted by Christian denominations within each major region of the world Provides a comprehensive overview of the spread and impact of world Christianity Contains studies from every major region of the world including Africa Asia Latin America the North Atlantic and Oceania Brings together an international team of contributors from history sociology and anthropology as well as religious studies Examines the significant social cultural and political transformations in contemporary societies brought about through the influence of Christianity Discusses Protestant Evangelical Catholic and Orthodox forms of the faith Features useful maps and illustrations Combines broader discussions with detailed regional analysis creating an invaluable introduction to world Christianity
