*The 1960s* Tim Healey,1988      **The Art of American Screen Acting, 1960 to Today** Dan Callahan,2019-01-31

Modern screen acting in English is dominated by two key figures Method acting guru Lee Strasberg who taught the the art of experiencing over the art of representing and English theater titan Laurence Olivier who once said of the Method s immersive approach try acting it s so much easier This book explores in detail the work of such method actors as Al Pacino Ellen Burstyn Jack Nicholson and Jane Fonda and charts the shift away from the more internally focused Strasberg based acting of the 1970s and towards the more external way of working exemplified by the career of Meryl Streep in the 1980s

**Built Environment, 1960-1979** Susanneh Bieber,2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse

movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book s contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism *Index of Army Motion Pictures for Public Non-profit Use* United States. peoples They were rather sites of complex interactions in which the part of each actor owed as much to foreign domination as to other political social economic and environmental factors Cutting across common historiographical boundaries the chapters of this book bring to light the declination and conjugation of various forms of spatial appropriation in the modern imperial age 1820 1960 taking readers on a journey from Russia to China from the United States to South America and from the Mediterranean world to Africa
