1979 The Year That Shaped The Modern Middle East:

1979 David W. Lesch, 2001-08-02 repercussions of the events of 1979 down to the present day [A History of the Modern Middle East](#) William L. Cleveland, Martin Bunton, 2024-07-29 A History of the Modern Middle East examines the profound and often dramatic transformations of the region in the past two centuries from the Ottoman and Egyptian reforms through the challenge of Western imperialism to the impact of US foreign policies Built around a framework of political history while also carefully integrating social cultural and economic developments this expertly crafted account provides readers with the most comprehensive balanced and penetrating analysis of the modern Middle East The seventh edition has been substantially revised to reflect the significance of the 2011 Arab Uprisings as a major turning point in the modern history of the region A new chapter considers how regional powers especially in the Gulf are now asserting themselves more forcefully seeking to push their own interests while Russia and China contest America's position Including an annotated and updated bibliography that offers guidance to readers seeking more in depth information and incorporating an online companion website featuring quizzes timelines and instructor resources A History of the Modern Middle East remains the quintessential text for courses on Middle Eastern history **The Fate of Third Worldism in the Middle East** Rasmus C. Elling, Sune Haugbolle, 2024-01-04 In the latter half of the twentieth century a revolutionary idea promised to upend the global order Anti imperialist militancy bolstered by international solidarity would lead to not only the national liberation of oppressed peoples but universal emancipation shattering the division between the prosperous nations of the capitalist West and the poorer countries of the Global South The idea was Third Worldism and among others it inspired struggles in Iran and Palestine By the early 1980s however progressive visions of independence and freedom had fallen to the reality of an oppressive Islamic theocracy in Iran while the Palestinian Revolution had been eclipsed by civil war in Lebanon Israeli aggression and intra Arab conflict This thought provoking volume explores the dramatic decline of Third Worldism in the Middle East It reveals the lived realities of the time by focusing on the key protagonists from student activists to guerrilla fighters and from volunteer nurses to militant intellectuals and juxtaposes the Iranian and Palestinian cases to offer a riveting re examination of this defining era Ultimately it challenges us to reassess how we view the end of the long 1960s prompting us to reconsider perennial questions concerning self determination emancipation change and solidarity Contents Introduction The Transformation of Third Worldism in the Middle East Sune Haugbolle and Rasmus Elling 1 Demystifying Third World Solidarity Cuba and the Palestinian Revolution in the Seventies Sørcha Thomson 2 Nursing the Revolution Norwegian Medical Support in Lebanon as Solidarity 1976 1983 Pelle Valentin Olsen 3 Searching for Friends Across the Global South Classified Documents Iran and the Export of the Revolution in 1983 Simon Wolfgang Fuchs 4 The Gendered Politics of Dead Bodies Obituaries Revolutionaries and Martyrs between the Iranian Palestinian and Dhufar Revolutions Marral Shamshiri 5 Brothers Comrades and the Quest for the Islamist International The First Gathering of Liberation

Crude Awakenings Steve A. Yetiv, 2010-12-15 The real story of global oil over the past twenty five years is not about the spillover effects of Palestinians fighting Israelis or terrorist attacks on U S forces in Saudi Arabia and Yemen or Iraq's stormy relationship with Kuwait It is not even about periodic small and large scale U S attacks on Iraq Rather the real story is about longer term developments that have changed the international relations of the Middle East politics at the global level and world oil markets These developments have increased oil stability from the Introduction Thirty years after OPEC shattered world markets for oil the Western world remains profoundly dependent on foreign particularly Middle Eastern sources of petroleum U S political rhetoric is suffused with claims about the vulnerability caused by this dependence Hence many political analysts assume that a search for stability of petroleum supplies is an important element of contemporary American foreign policy Steve A Yetiv argues that common assumptions about oil markets are wrong Although prices remain volatile Yetiv's account portrays a world market in petroleum products far more benign and predictable than the one to which we are accustomed In *Crude Awakenings* he identifies and analyzes real and potential threats to the global energy supply including wars revolutions coups dangerous alliances oil embargoes Islamic radicalism and transnational terrorism However he also shows how some of these threats have been mitigated and how global oil security has been reinforced
