**1995: A New Beginning for the NPT?** J.F. Pilat,R.E. Pendley,2012-12-06 As a follow up to Beyond 1995 The Future of NPT published in 1990 this compilation presents the major issues to be addressed at the 1995 NPT Review and Extension Conference Renowned academic and diplomatic authorities from around the world contribute original essays and address questions such as Will the NPT be faced with a fundamental challenge to its existence Will the treaty be allowed to lapse Will states withdraw Will the NPT be succeeded by an alternative treaty or regime Networked Nonproliferation Michal Onderco,2021-10-05 The Treaty on Non Proliferation of Nuclear Weapons NPT had many opponents when in 1995 it came up for extension The majority of parties opposed extension and experts expected a limited extension as countries sought alternative means to manage nuclear weapons But against all predictions the treaty was extended indefinitely and without a vote Networked Nonproliferation offers a social network theory explanation of how the NPT was extended giving new insight into why international treaties succeed or fail The United States was the NPT s main proponent but even a global superpower cannot get its way through coercion or persuasion alone Michal Onderco draws on unique in depth interviews and newly declassified documents to analyze the networked power at play Onderco not only gives the richest account yet of the conference looking at key actors like South Africa Egypt and the EU but also challenges us to reconsider how we think about American power in international relations With Networked Nonproliferation Onderco provides new insight into multilateral diplomacy in general and nuclear nonproliferation in particular with consequences for understanding a changing global system as the US the chief advocate of nonproliferation and a central node in the diplomatic networks around it declines in material power **The NPT and the Developing Countries** Jita Mishra,2008 Nuclear Disarmament in the Twenty-first Century Wade L. Huntley,Mitsuru Kurosawa,Kazumi Mizumoto,2005-03-06 This work provides a comprehensive examination of the current state and future prospects for nuclear disarmament at the turn of the century The work juxtaposes a sober review of progress made during the last decade with a proactive agenda of proposals for new disarmament initiatives in the next decade Taken together the contributions to this volume suggest that contrary to current conventional wisdom the increasing global cache of nuclear weapons and the waning progress on nuclear disarmament of recent years need not become the defining features of the post Cold War era Rather by examining the new conditions that have emerged at the dawn of the of the 21st century through both national and issue based perspectives this work reveals how the likelihood of continuing uncertainty and change in world affairs creates opportunities as well as the need for renewed progress toward significant nuclear disarmament The Nuclear Non-Proliferation Regime Raju G.C. Thomas,2016-07-27 Leading international security scholars and policy advisors from universities think tanks and nuclear weapons laboratories in the United States analyze the future of nuclear weapons proliferation In April 1995 the earlier 1970 Nuclear Non Proliferation Treaty was renewed indefinitely and without change to the original clauses of the treaty The authors examine the continuing

relevance or irrelevance of the old treaty the role of coercive sanctions in enforcing restraint and the impact of biological chemical and missile proliferation on the nuclear motives and ambitions of various states Attention is given to proliferation conditions in the former Soviet republics East and South Asia and the Middle East

**Nuclear Proliferation and International Security** Sverre Lodgaard, Bremer Maerli, 2007-06-11 The Nuclear Non Proliferation Treaty has long been key in non proliferation and disarmament activities The Treaty is the major international legal obstacle for states seeking nuclear weapon capabilities In retrospect and despite setbacks the overall impact of the Nuclear Non Proliferation Treaty has been significant and gratifying Its continued success is by no means guaranteed As old nuclear dangers persist and new ones evolve policies to halt nuclear proliferation are more disparate than at any other time Nuclear weapons remain an essential part of the security policies of leading states and many developmental states maintain strong nuclear weapon ambitions while terrorists have actively been seeking nuclear capabilities In search of an overarching strategy that recognizes both the flaws of the existing non proliferation regime and the value of some of the corrections proposed by regime critics this volume assesses contemporary efforts to stem nuclear proliferation In doing so Nuclear Proliferation and International Security examines a number of cases with a view to recommending better non proliferation tools and strategies The contributors comprise renowned international scholars who have been selected to obtain the best possible analyses of critically important issues related to international non proliferation dynamics and the future integrity of the Non Proliferation Treaty

**North Korea and the Global Nuclear Order** Edward Howell, 2023 For a state that has gained a global reputation as a violator of international norms North Korea s determination to become a nuclear armed state is puzzling

*Milestones in strategic arms control 1945-2000...* , **The Evolution and Legitimacy of International Security Institutions** Patrick Cottrell, 2016-04-21 This book tackles the question when international security institutions face a legitimacy crisis why are some replaced while others endure

*Nuclear Arms Control* Tom Sauer, 1998-11-12 The proliferation of nuclear weapons has been defined as the gravest potential threat to international peace and security The concept of nuclear deterrence has to be revisited in this regard The longer the Nuclear Weapon States hold on to their nuclear weapons the bigger the chance that nuclear weapons will be spread and will be used once again by accident in an authorized or unauthorized way or that nuclear terrorism becomes reality The marginalizing of nuclear weapons resulting in a Nuclear Weapon Free World should be considered as a viable alternative

Busch, Daniel Joyner, 2009-01-01 The spread of weapons of mass destruction poses one of the greatest threats to international peace and security in modern times the specter of nuclear chemical and biological weapons looms over relations among many countries The September 11 tragedy and other terrorist attacks have been painful warnings about gaps in nonproliferation policies and regimes

specifically with regard to nonstate actors In this volume experts in nonproliferation studies examine challenges faced by the international community and propose directions for national and international policy making and lawmaking The first group of essays outlines the primary threats posed by WMD proliferation and terrorism Essays in the second section analyze existing treaties and other normative regimes including the Nuclear Non Proliferation Treaty and the Chemical Weapons and Biological Weapons Conventions and recommend ways to address the challenges to their effectiveness Essays in part three examine the shift some states have made away from nonproliferation treaties and regimes toward more forceful and proactive policies of counterproliferation such as the Proliferation Security Initiative which coordinates efforts to search and seize suspect shipments of WMD related materials

**The Nuclear Non-Proliferation Treaty and India** Rajiv Nayan,2013-09-13 The relationship of the Nuclear Non Proliferation Treaty with India has been an interesting subject in the field of security studies The nuclearisation of India and its subsequent rise are further forcing the world to redefine its relationship with the treaty However the international response is quite mixed The old mindset still thinks that India may join the treaty as a Non Nuclear Weapon State Scholars appear divided whether India should join the treaty as a nuclear weapon country The book discusses current crises of the Nuclear Non Proliferation Treaty which are going to figure in the 2010 Review Conference of the treaty This book was published as a special issue of *The Strategic Analysis* *Parameters* ,1996

*Non-proliferation in a Changing World* Arun Kumar Banerji,1997 Papers originally presented at a seminar held in March 1995
