1998 The Canadian Global Almanac

Veronica Jane Strong-Boag

1998 The Canadian Global Almanac:

The Canadian Global Almanac, 1994 Rethinking the Reasonable Person Mayo Moran, 2003 The reasonable person standard plays a central role in the law figuring prominently in tort law criminal law and administrative law However the reasonable person has also attracted substantial criticism from egalitarian critics and feminists insofar as it presupposes contested notions of normal behaviour and may discriminate against certain classes of defendant Judges and mainstream theorists also increasingly puzzle over what the standard amounts to and how to apply it Using these controversies as a point of departure *Rethinking the Reasonable Person* examines the promise and the perils of the reasonable person standard Ultimately it argues that an objective standard is not only defensible but essential Yet only with a radical reconstruction will it be possible to realize the promise of the standard and to ensure a truly egalitarian conception of responsibility Weaving Connections David Selby, Tara Goldstein, 2000 Education plays a vitally important role in building foundations for social progress This remarkable collection describes educational models based on the principles of tolerance equity and justice developed over the past three decades by teachers parents activists and students In a time of crippling cutbacks and educational reforms designed to promote business over education this book is critical reading Contributors from across Canada discuss the initiatives behind their approaches how they developed curricula and the future of their educational work *Weaving Connections* is a call to action by progressive educators inviting us to cherish educational models that teach us how to live in harmony respect and balance with one another *Research and Global Perspectives in Learning Disabilities* Daniel P. Hallahan, Barbara K. Keogh, 2001-03 The executive committee of the International Academy for Research in Learning Disabilities planned this volume on the occasion of its 25th anniversary to honor the founder of the Academy William M Cruickshank **The Ultimate Canadian Sports Trivia Book** Edward Zawadzki, 2001-09 Edward Zawadzki Canadas Ultimate Sports Trivia Guy brings together this dynamic collection of facts and oddities from the world of sports

Canadian Books in Print 2002 Marian Butler, 2002-02 **Globalization Unplugged** Peter Urmetzer, 2005-01-01 The debate over economic globalization has reached a fever pitch in the past decade and a half with Western governments and multinational corporations trumpeting its virtues and a multitude of activists and developing world citizens vociferously denouncing it Both sides would agree that globalization is a recent development that is changing the way people and nations do business but in *Globalization Unplugged* Peter Urmetzer questions whether national economies are losing their sovereignty and whether the topic of globalization merits as much discussion as it receives Urmetzer s focus is specifically on Canada and he demonstrates that current levels of trade are not unprecedented and further that as the economy becomes more service oriented it will also become less trade dependent He points out that only a relatively small percentage of Canadas wealth is owned by foreign investors and likewise only a small portion of the country s wealth is located outside of its borders Disputing claims that the nation state is weakening or disappearing altogether Urmetzer shows how the welfare

state side of government spending conveniently ignored in the anti globalization literature yet arguably the most significant development in the political economy of the nation state in the twentieth century remains remarkable stable Written with precision and skill Globalization Unplugged will spark controversy on both sides of the globalization debate and help deflate the rhetoric of both advocates and detractors Western Hemisphere Heidi Hayes Jacobs,Brenda Randolph,Michal L.
