## 19th Century America 2vol:

Listening to Nineteenth-Century America Mark M. Smith, 2015-12-01 Arguing for the importance of the aural dimension of history Mark M Smith contends that to understand what it meant to be northern or southern slave or free to understand sectionalism and the attitudes toward modernity that led to the Civil War we must consider how antebellum Americans comprehended the sounds and silences they heard Smith explores how northerners and southerners perceived the sounds associated with antebellum developments including the market revolution industrialization westward expansion and abolitionism In northern modernization southern slaveholders heard the noise of the mob the din of industrialism and threats to what they considered their quiet orderly way of life in southern slavery northern abolitionists and capitalists heard the screams of enslaved labor the silence of oppression and signals of premodernity that threatened their vision of the American future Sectional consciousness was profoundly influenced by the sounds people attributed to their regions And as sectionalism hardened into fierce antagonism it propelled the nation toward its most earsplitting conflict the Civil War

**Mothers and Daughters in Nineteenth-Century America** Nancy M. Theriot,2021-05-11 The feminine script of early nineteenth century centered on women s role as patient long suffering mothers By mid century however their daughters faced a world very different in social and economic options and in the physical experiences surrounding their bodies In this groundbreaking study Nancy Theriot turns to social and medical history developmental psychology and feminist theory to explain the fundamental shift in women s concepts of femininity and gender identity during the course of the century from an ideal suffering womanhood to emphasis on female control of physical self Theriot s first chapter proposes a methodological shift that expands the interdisciplinary horizons of women s history She argues that social psychological theories recent work in literary criticism and new philosophical work on subjectivities can provide helpful lenses for viewing mothers and children and for connecting socioeconomic change and ideological change She recommends that women s historians take bolder steps to historicize the female body by making use of the theoretical insights of feminist philosophers literary critics and anthropologists Within this methodological perspective Theriot reads medical texts and woman authored advice literature and autobiographies She relates the early nineteenth century notion of true womanhood to the socioeconomic and somatic realities of middle class women s lives particularly to their experience of the new male obstetrics The generation of women born early in the century in a close mother daughter world taught their daughters the feminine script by word and action Their daughters however the first generation to benefit greatly from professional medicine had less reason than their mothers to associate womanhood with pain and suffering The new concept of femininity they created incorporated maternal teaching but altered it to make meaningful their own very different experience This provocative study applies interdisciplinary methodology to new and long standing questions in women s history and invites women s historians to
