Created To Praise The Language Of Gerard Manley Hopkins:

Created to Praise Margaret R. Ellsberg, 1987 The Victorian Jesuit Gerard Manley Hopkins found in religious discipline and released in his poetry the tremendous power at the heart of human language In *Created to Praise* Margaret Ellsberg traces the poet's development arguing that Hopkins's use of a specifically sacramental ideal of language a poetic diction that celebrates particularity in nature allows the poet priest to unite the vocabularies of both vocations and achieve a voice perfectly pitched at praise *The Spell of the Song* John Powell Ward, 2004 This book investigates the nature of the alphabet as a medium of communication The general thesis is that writing is not a merely transparent or empty item like air or glass rather the alphabet is both modifier and enabler of meaning itself The book investigates the general implications of this thesis **Hopkins's "Terrible" Sonnets: a Commentary** Luisa Camaiera, 2014-05-07 *The Poem as Sacrament* Philip A. Ballinger, 2000 Through a study of the writings and intellectual development of Gerard Manley Hopkins Dr Philip Ballinger demonstrates why poetry is as Hans Urs von Balthasar stated the absolutely appropriate theological language While circling Hopkins's visions of the nature of sensual experience intuitive cognition and the function of language Ballinger focuses upon the sacramental intention of the Victorian Jesuit's poetry Underlying Hopkins's poetry is a vision of reality as divinely revelatory or self-expressive For Hopkins this revelatory character of creation is determined by the incarnation and beauty in fact is a word for Christic self-expressiveness **Catholic Sensationalism and Victorian Literature** Maureen Moran, 2007-01-01 Exotic corrupt and dangerous Roman Catholicism functioned in the popular Victorian imagination as a highly sensationalized and implacably anti-English enemy Maureen Moran's lively study considers a wide range of key authors including Charlotte Brontë Robert Browning Wilkie Collins and George Eliot as well as a number of non-canonical writers to give a detailed account of the cultural tensions between Catholics and Protestants Moran shows that rather than representing a traditional religious schism the demonizing of Catholics resulted from secular fears over crime sex and violence *Reading the Underthought* Kinereth Meyer, Rachel Salmon Deshen, 2010-06-27 *Reading the Underthought* explores the question of how readers from one tradition can approach the poetry of another **Rhythm and Will in Victorian Poetry** Matthew Campbell, 1999-04-22 In *Rhythm and Will in Victorian Poetry* first published in 1999 Matthew Campbell explores the work of four Victorian poets Tennyson Browning Hopkins and Hardy as they show a consistent and innovative concern with questions of human agency and will The Victorians saw the virtues attendant upon a strong will as central to themselves and to their culture and Victorian poetry strove to find an aesthetic form to represent this sense of the human will Through close study of the metre rhyme and rhythm of a wide range of poems including monologue lyric and elegy Campbell reveals how closely technical questions of poetics are related in the work of these poets to issues of psychology ethics and social change He goes on to discuss more general questions of poetics and the implications of the achievement of the Victorian poets in a wider context from Milton through Romanticism and into contemporary critical

debate The Victorian Diary Anne-Marie Millim, 2016-02-17 In her examination of neglected diaristic texts Anne Marie Millim expands the field of Victorian diary criticism by complicating the conventional notion of diaries as mainly private sources of biographical information She argues that for Elizabeth Rigby Eastlake Henry Crabb Robinson George Eliot George Gissing John Ruskin Edith Simcox and Gerard Manley Hopkins the exposure or publication of their diaries was a real possibility that they either coveted or feared Millim locates the diary at the intersection of the public and private spheres to show that well known writers and public figures of both sexes exploited the diary's self reflexive diurnal structure in order to enhance their creativity and establish themselves as authors Their object was to manage rather than to indulge or repress their emotions for the purposes of perfecting their observational and critical skills Reading these diaries as literary works in their own right Millim analyses their crucial role in the construction of authorship By relating these Victorian writers diaries to their publications and to contemporary works of cultural criticism Millim shows the multifarious ways in which diaristic practices emotional management and professional output corresponded to experiences of the literary marketplace and to nineteenth century codes of propriety **Dayspring in Darkness** Jeffery Loomis, 1988 Identifying sacramentalism as the key to the poetry and spirituality of Gerard Manley Hopkins this study suggests that Hopkins most dominantly emphasized the sacramental Mystical Body of the Church and that his poems aspire to see past the out scape of nature and humanity to revelations of spiritual inscape **The Space Between** Sandra Humble Johnson, 1992 Annie Dillard a practitioner of the literary epiphany has become a representative of a neoromantic movement that combines the ecological interest of wilderness literature with the aesthetics of a highly stylized literature This study of the Pulitzer prize winning essayist considers her as wilderness philosopher critic and arch romantic *Conversion and Church* , 2016-05-23 Conversion is an important characteristic of religious renewal and of the dialogue between churches and religious believers In the Roman Catholic Church conversion has played a significant role in ecumenical dialogue recently It has become a challenge for the Church as a whole instead of a call to individual believers alone The contributors of this volume explore the different aspects of conversion in the history of theology in the developments during and after the Second Vatican Council in the Ignatian tradition and in several ecclesial groups that have explored the opportunities of the ongoing renewal of the churches Contributors are Andr Birmel Inigo Bocken Erik Borgman Catherine Clifford Peter De Mey Adelbert Denaux Eugene Duffy Stephan van Erp Joep van Gennip Thomas Green Wiel Logister Annemarie Mayer Jos Moons Marcel Sarot Karim Schelkens Nico Schreurs Matthias Smalbrugge and Arnold Smeets Between Human and Divine Mary Reichardt, 2010 An introduction to recent and emerging Catholic literary works and artists The Autism of Gxd Ruth M. Dunster, 2022-12-02 The Autism of Gxd An Atheological Love Story is truly a love story the story of Ruth Dunster's autistic search for an authentic personal and theological Gxd In this it resembles Augustine's Confessions as a theological autobiography It becomes atheological however as Dunster reckons with what Denys Turner terms The Darkness of God This awareness leads her

through the poetry of Medieval mystics to the mythic death of God theology of Thomas J J Altizer The search for faith is nonetheless very real in this strange territory Dunster hears her autistic Gxd speaking in art poetry novels and music and this further leads her into the territory of Literature Theology and the Arts where in Blanchot s words the answer is the poem s absence Indeed Dunster calls the book a strange poem or even a hymn Weaving an autistic mythology out of a rigorous survey of clinical autism this book abounds in challenge and paradox It offers a fascinating view into how an autistic poet becomes a theologian and what more mainstream theologies might learn from this disabled Gxd **Poems of Gerard**

Manley Hopkins Gerard Manley Hopkins,2019-11-21 In Poems of Gerard Manley Hopkins the author introduces readers to a revolutionary style of poetry marked by its innovative use of rhythm sound and imagery Hopkins a key figure in the 19th century literary landscape utilizes his unique sprung rhythm to convey profound spirituality and nature s essence Themes of faith mortality and beauty permeate these poems showcasing an intricate relationship with God and the world With a modernist touch ahead of his time Hopkins verse melds the emotional and the intellectual inviting readers into a deeply personal yet universally resonant exploration of human experience Gerard Manley Hopkins an English Jesuit priest experienced a profound spiritual awakening that greatly influenced his literary output His religious convictions and appreciation for nature stemmed from his formative years and educational endeavors at Oxford where he initially struggled with the conflict between his artistic aspirations and spiritual commitments Despite the obscurity of his work during his lifetime Hopkins s poems eventually gained posthumous renown solidifying his status as a precursor to modernist poetry This collection is indispensable for readers seeking to understand the evolution of lyrical poetry Hopkins distinct voice and transformative approach offer an enriching experience appealing to both literary enthusiasts and casual readers alike Dive into this seminal text to witness how Hopkins innovation reshaped poetry and continues to resonate in contemporary literary discourse In this enriched edition we have carefully created added value for your reading experience A comprehensive Introduction outlines these selected works unifying features themes or stylistic evolutions The Author Biography highlights personal milestones and literary influences that shape the entire body of writing A Historical Context section situates the works in their broader era social currents cultural trends and key events that underpin their creation A concise Synopsis Selection offers an accessible overview of the included texts helping readers navigate plotlines and main ideas without revealing critical twists A unified Analysis examines recurring motifs and stylistic hallmarks across the collection tying the stories together while spotlighting the different work s strengths Reflection questions inspire deeper contemplation of the author s overarching message inviting readers to draw connections among different texts and relate them to modern contexts Lastly our hand picked Memorable Quotes distill pivotal lines and turning points serving as touchstones for the collection s central themes **JEGP, Journal of English and Germanic Philology** Gustaf E. Karsten,1989 [Hopkins's Poetics of Speech Sound](#) James I. Wimsatt,2006-12-16 Although virtually unknown in his lifetime Gerard Manley Hopkins 1844 1889 is

counted today among the great nineteenth century poets His poetry was collected and published posthumously by his friend Robert Bridges in 1917 and subsequently Hopkins's reputation flowered though more as a modern writer than as Victorian and very little as a poetic theorist Yet the body of Hopkins's critical writing reveals sharp insight into the subject of poetics and presents an innovative theory that locates primary poetic meaning in figures of speech sound These figures of speech sound provide the focus for James I Wimsatt's erudite and original study Drawing from Hopkins's diaries letters student essays and correspondence with poet friends Wimsatt illuminates Hopkins's theory that the sound of poetic language carries an emotional not merely logical and grammatical meaning Wimsatt concentrates his study on Hopkins's writings about sprung rhythm lettering and inscape his coinages and makes abundant reference to Hopkins's verse showing how it exemplifies his language theory A well researched and highly detailed book Hopkins's Poetics of Speech Sound asserts major significance for a relatively neglected aspect of this important poet's writings **The Library Chronicle of the University**

of Texas at Austin, 1989 **Recalling the Hope of Glory** Allen P. Ross, Moving beyond worship wars over style and denominational proclivities this book considers all the major biblical passages about worship Regardless of their denomination pastors worship leaders and laypeople interested in the biblical themes of worship will benefit from this definitive resource **Echoes of Coinherence** W. Ross Hastings, 2017-07-28 This book reimagines the universe and the scientific study of it through the lens of a triune Creator three persons of irreducible identity in a perichoretic or coinherent communion It modestly proposes that Trinitarian theology and especially the coinherent natures of the Son in the incarnation provides the metaphysic or theory of everything that manifests itself in the subject matter of science The presence of the image of the triune God in humanity and of traces of this God in the non human creation are discussed highlighting ontological resonances between God and creation resonances between the being of God and his creation such as goodness immensity yet particularity intelligibility agency relationality and beauty This Trinitarian reality suggests there should be a similarity also with respect to how we know in theology and science critical realism something reflected in the history of ideas in each These resonances lead to the conclusion that the disciplines of theology and science are in fact coinherent not conflicted This involves recognition of both the mutuality of these vocations and also importantly their particularity Science its own distinct guild yet finds its place ensconced within an encyclopedic theology and subject to first order credal theology
