Creating A Culture Of Life:

Building a Culture of Lawfulness Heath B. Grant, 2022-01-01 This book is the first interdisciplinary study of the rule of law in an environment of complementary culture. It argues that the rule of law should not be defined solely through the development of institutions but also through the mobilization of existing culture towards support for law and its enforcement. Recognizing that the rule of law is most often misunderstood by many, the book describes the benefits of the rule of law and exposes its weaknesses and limitations. It summarizes the history and practice through case studies where culture has played an essential role in achieving a sustainable rule of law in practice. It incorporates the unique challenges to rule of law in regions like the Middle East and addresses the nexus of law, culture, and institutions in the context of policing in the United States. Appropriate for researchers, professionals, and practitioners of law, policing, cultural criminology, and sociology, this book identifies practical and actionable elements of culture that can be mobilized even in states that are only in the initial stages of developing the rule of law.

How to Create a Culture of Achievement in Your School and Classroom Douglas Fisher, Nancy Frey, Ian Pumpian, 2012-04-26 What does it feel like to walk into your school? Is it a welcoming place where everyone feels valued? Most school improvement efforts focus on academic goals, instructional models, curriculum, and assessments. But sometimes what can make or break your learning community are the intangibles: the relationships, identity, and connections that make up its culture. Authors Fisher, Frey, and Pumpian believe that no school improvement effort will be effective unless school culture is addressed. They identify five pillars that are critical to building a culture of achievement:

1. Welcome: Imagine if all staff members in your school considered it their job to make every student, parent, and visitor feel noticed, welcomed, and valued.
2. Do no harm: Your school rules should be tools for teaching students to become the moral and ethical citizens you expect them to be.
3. Choice words: When the language students hear helps them tell a story about themselves that is one of possibility and potential, students perform in ways that are consistent with that.

belief 4 It s never too late to learn Can you push students to go beyond the minimum needed to get by to discover what they are capable of achieving 5 Best school in the universe Is your school the best place to teach and learn The best place to work Drawing on their years of experience in the classroom the authors explain how these pillars support good teaching and learning In addition they provide 19 action research tools that will help you create a culture of achievement so that your school or classroom is the best it can be After reading this book you ll see why culture makes the difference between a school that enables success for all students and a school that merely houses those students during the school day *Creating the Culture of Peace* Anwarul K.
