Creating and Capturing Value through Crowdsourcing Christopher L. Tucci, Allan Afuah, Gianluigi Viscusi, 2018-03-16 Examples of the value that can be created and captured through crowdsourcing go back to at least 1714 when the UK used crowdsourcing to solve the Longitude Problem obtaining a solution that would enable the UK to become the dominant maritime force of its time Today Wikipedia uses crowds to provide entries for the world's largest and free encyclopedia Partly fueled by the value that can be created and captured through crowdsourcing interest in researching the phenomenon has been remarkable Despite this or perhaps because of it research into crowdsourcing has been conducted in different research silos within the fields of management from strategy to finance to operations to information systems biology communications computer science economics political science among others In these silos crowdsourcing takes names such as broadcast search innovation tournaments crowdfunding community innovation distributed innovation collective intelligence open source crowdpower and even open innovation This book aims to assemble chapters from many of these silos since the ultimate potential of crowdsourcing research is likely to be attained only by bridging them Chapters provide a systematic overview of the research on crowdsourcing from different fields based on a more encompassing definition of the concept its difference for innovation and its value for both private and public sector

Capturing Value in Digital Health Eco-Systems Felix Lena Stephanie, Ravi S. Sharma, 2021-11-10 The United Nations Sustainable Development Goals call for the establishment of Good Health and Well being and target a universal digital healthcare ecosystem by 2030 However existing technology infrastructure is ineffectual in achieving the envisioned target and requires massive reconfiguration to achieve its intended outcome This book suggests a way forward with fair and efficient digital health networks that provide resource efficiencies and inclusive access to those who are currently underserved Specifically a fair and efficient digital health network that provides a common platform to its key stakeholders to facilitate sharing of information with a view to promote cooperation and maximise benefits A promising platform for this critical application is cloud technology with its offer of computing as a utility and resource sharing This is an area that has attracted much scholarly attention as it is well suited to foster such a network and bring together diverse players who would otherwise remain fragmented and be unable to reap the benefits that accrue from cooperation The fundamental premise is that the notion of value in a digital health ecosystem is brought about by the sharing and exchange of digital information However notwithstanding the potential of information and communication technology to transform the healthcare industry for the better there are several barriers to its adoption the most significant one being misaligned incentives for some stakeholders This book suggests among other findings that e health in its true sense can become fair and efficient if and only

if a regulatory body concerned assumes responsibility as the custodian of its citizens health information so that collaboration for value will replace competition for revenue as the new axiom in delivering the public good of healthcare through digital networks

Thrive is about unpacking the drivers that I have noticed in the landscape that do not yet have a place in our existing vocabulary. It is about ceasing to ignore the signs and beginning to embrace the changes that are becoming more tangible with every day that passes. It is about recognizing the amplified importance of the human as a social being in this dawning age of transparency and systemic activity. The individual becomes the collective as we move into a sphere of shared value creation, ideation and knowledge dissemination. Existing in this new business landscape is not about eliminating the competition but rather working together in a bid to share resources and expand far beyond what we could ever hope to achieve as individual organizations. Through *Built to Thrive*, I hope to open your mind and introduce you to a way of thinking that will fundamentally shift your views and may provide a lifeline in a world where the new school will rule. **ECIE 2023 18th European Conference on Innovation and Entrepreneurship Vol 2** Fernando Moreira, Shital Jayantilal, 2023-09-21

Research Anthology on Business Continuity and Navigating Times of Crisis Management Association, Information Resources, 2022-01-07. When the COVID 19 pandemic caused a halt in global society, many business leaders found themselves unprepared for the unprecedented change that swept across industry. Whether the need to shift to remote work or the inability to safely conduct business during a global pandemic, many businesses struggled in the transition to the new normal. In the wake of the pandemic, these struggles have created opportunities to study how businesses navigate these times of crisis. The *Research Anthology on Business Continuity and Navigating Times of Crisis* discusses the strategies, cases and research surrounding business continuity throughout crises such as pandemics. This book analyzes business operations and the state of the economy during times of crisis and the leadership involved in recovery. Covering topics such as crisis management, entrepreneurship and business sustainability, this four-volume comprehensive major reference work is a valuable resource for managers, CEOs, business leaders, entrepreneurs, professors and students of higher education, researchers and academicians. Examining the Intersection of Circular Economy, Forestry, and International Trade Gopalakrishnan, Badri Narayanan, Duggal, Taranjeet, Tewary, Tavishi, 2021-01-22. Sustainable development has always been a contested concept and has been extensively debated over the last 30 years with new classifications arising since then. There was a previous push for the radical transformations of the market economy to downscale production and consumption that would increase human well-being and enhance ecological conditions. Because of

this conflict there was a need for a new model that challenges and could be the alternative for the linear economy this new model is called the circular economy A circular economy aimed at eliminating waste and the continual use of resources It gained its ground in the era of disruptive technological advancement and a dynamic global value chain By supporting resource efficient industrial models the circular economy preserves and improves natural capital optimizes the value of resources and abolishes negative environmental externalities such as pollution Examining the Intersection of Circular Economy Forestry and International Trade explores the link between the circular economy and various aspects of the business and environment to understand the usage and viability of adapting the circular economy from a business perspective The chapters highlight the transition to the circular economy its implementation across society its intersection with forestry and international trade and the solutions and challenges of the circular economy This book is aimed at researchers in the field of business management economics and environmental studies along with practitioners stakeholders researchers academicians and students looking for more information on the various fields impacting the circular economy as well as the implementation usage and viability of a widespread adoption of a circular economy *Business Modeling and Software Design* Boris Shishkov, 2014-05-09 This book contains the extended and revised versions of selected papers from the Third International Symposium on Business Modeling and Software Design BMSD 2013 held in Noordwijkerhout The Netherlands during July 8 10 2013 The symposium was organized and sponsored by the Interdisciplinary Institute for Collaboration and Research on Enterprise Systems and Technology IICREST in cooperation with the Dutch Research School for Information and Knowledge Systems SIKS the Center for Telematics and Information Technology CTIT Aristotle University of Thessaloniki AUTH and AMAKOTA Ltd The theme of BMSD 2013 was Enterprise Engineering and Software Generation The 13 full and 20 short papers presented at BMSD 2013 were selected from 56 submissions The eight papers published in this book were carefully reviewed and selected from the 13 full papers The selection includes papers touching upon a large number of research topics ranging from more conceptual ones such as modeling landscapes process modeling declarative business rules and normalized systems to more practical ones such as business case development and performance indicators and from more business related topics such as value modeling and service systems to topics related to information architectures *Networked Business Models in the Circular Economy* Nogalski, Bogdan, Szpitter, Agnieszka Anna, Jabłoński, Adam, Jabłoński, Marek, 2019-09-27 Economic changes in a globalized world require businesses to create new management practices to remain competitive and successful While a network paradigm is a key management development the effective application of this paradigm in organizational practice is complicated by differing interpretations and approaches Therefore it is important to thoroughly understand the applicable factors and mechanisms to an efficacious business network Networked Business Models in the Circular Economy provides innovative insights into achieving synergy through the cooperation of many business partners and organizations and adapting operational strategies for the whole

network While highlighting topics such as smart mobility digital solutions and green supply chain this publication is ideally designed for organizational managers entrepreneurs economists management scientists business analyzers financial consultants researchers and students seeking current research on the dynamical contributions required to achieve mutual growth

Creating Capturing Value: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Creating Capturing Value : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
