Creating Consent Of The Governed A Member Of Congress And The Local Media:

Creating Consent of the Governed Stephanie Greco Larson, 1992 What would happen if local media provided information that elected representatives did not control that focused on political issues This is the question that Stephanie Greco Larson asks and answers in *Creating Consent of the Governed* Larson explores the role of the news media in contemporary American politics specifically the effect of the media on voters evaluations of elected representatives Larson also asks whether the press or the public is responsible for society s present inattention to issues Larson s book is a case study of the way constituents reacted to local media coverage of Democrat Bill Nelson representative of a congressional district in east central Florida The book examines the relationship between Nelson his local press and his constituents in order to understand the media s role in representation Having conducted what she terms a social experiment Larson presents the results of a panel survey of voters that measured what voters knew about Nelson and how supportive they were of him She highlights a number of factors of growing importance in the field of political communication For instance How do the media affect audience perceptions What information will change voters attitudes How does personality affect the popularity of a representative Does good or bad news have a greater effect on voters Larson concludes that the media can educate voters but because voters often do not use the information to evaluate their legislators the media do not facilitate issue representation

Congress, the Press, and Political Accountability R. Douglas Arnold, 2013-10-31 Congress the Press and Political Accountability is the first large scale examination of how local media outlets cover members of the United States Congress Douglas Arnold asks do local newspapers provide the information citizens need in order to hold representatives accountable for their actions in office In contrast with previous studies which largely focused on the campaign period he tests various hypotheses about the causes and consequences of media coverage by exploring coverage during an entire congressional session Using three samples of local newspapers from across the country Arnold analyzes all coverage over a two year period every news story editorial opinion column letter and list First he investigates how twenty five newspapers covered twenty five local representatives and next how competing newspapers in six cities covered their corresponding legislators Examination of an even larger sample sixty seven newspapers and 187 representatives shows why some newspapers cover legislators more thoroughly than do other papers Arnold then links the coverage data with a large public opinion survey to show that the volume of coverage affects citizens awareness of representatives and challengers The results show enormous variation in coverage Some newspapers cover legislators frequently thoroughly and accessibly Others some of them famous for their national coverage largely ignore local representatives The analysis also confirms that only those incumbents or challengers in the most competitive races and those who command huge sums of money receive extensive coverage

Tradition and the Rhetoric of Right David J. Lorenzo, 1999 This book examines and establishes the importance of one aspect of popular political arguments rhetorical features that draw upon tradition as taken for granted

values judgments and calculations It illustrates how popular political arguments draw upon this rhetoric of right unique to each political community to establish the correctness or rightness of a policy proposal It then uses that illustration to argue first that tradition in political arguments is not only present but important second that tradition operates through time in a contextual rather than evolutionary manner and third that political theorists must take seriously the presence of tradition in political arguments in both its substance and its formal aspects The book is based upon a study of political arguments in the Indian religious political movement that grew up around the Indian mystic Aurobindo Ghose and his collaborator Mirra Richard

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Covering Congress Everette Dennis, 2018-05-04 Observers of media government relations most often think first of conflicts with the executive branch yet interactions between Congress and the media have been extensive and varied since the first Washington correspondents began sending dispatches from the sessions of Congress In recent years the relationship between Congress and the news media has grown more complex Coverage of Congress by the print and electronic media is extensive At the same time Congress has increasing power to make communications policy that will have an important impact on the ability of the media to conduct their affairs both economically and politically Covering Congress explores those aspects of the relationship between the media and Congress that shape the news that reaches an information seeking public The contributors consider Congress as the source of much news as well as a great deal of self promotion They note there is neither a broad nor deep understanding of our national legislature in the United States Contributors try to remedy this shortcoming by looking at the overall picture the media scene on Capitol Hill the messages that reach beyond Washington and the history of relations between the Congress and the press They discuss such issues as the relationship Newt Gingrich has forged between his office and the media perhaps at his own peril the importance of speed over substance when reporting from Capitol Hill the unflattering image of Congress as depicted in political cartoons and the unparalleled power wielded by Speaker of the House Sam Rayburn when he dealt with the national media Congress depends on the media to reach the public but also has considerable muscle to shape its media relations when it has strong leadership and a coherent plan It usually lacks these but Congress does much to try to project a friendly face to the public through the media facilitating interviews hi Capitol Hill radio and television studios Regardless of what happens in any particular election it is clear that Congress is fully alert to the modern communications age and that the consequences of this encounter are likely to be accentuated in the years ahead Covering Congress is a necessary addition to the libraries of communications scholars media specialists political scientists historians and sociologists *The Theory and Practice of Political Communication Research* Mary E.
