## **Creating Context In Andean Cultures:**

**Creating Context in Andean Cultures** Rosaleen Howard-Malverde, 1997-04-24 A major concern in current anthropological thinking is that the method of recording or translating into writing a society's cultural expressions dance rituals pottery the social use of space et al cannot help but fundamentally alter the meaning of the living words and deeds of the culture in question Consequently recent researchers have developed more dialogic methods for collecting interpreting and presenting data These new techniques have yielded much success for anthropologists working in Latin America especially in their efforts to understand how economically politically and socially subordinated groups use culture and language to resist the dominant national culture and to assert a distinct historical identity This collection addresses these issues of texts and textuality as it explores various Latin American languages and cultures [Creating Context in Andean Cultures](#) Rosaleen Howard-Malverde, 2023

**Mobility, Markets and Indigenous Socialities** Cecilie Vindal Ødegaard, 2016-04-15 Exploring how people from Andean communities seek progress and social mobility by moving to the cities Cecilie degaard demonstrates the changing significance of kinship reciprocity and ritual in an urban context Through a focus on people s involvement in land occupations and local associations labour and trade degaard examines the dialectics between popular practices and neoliberal state policies in processes of urbanization The making and un making of notions of the Indigenous communal work and gender is central in this analysis and is

discussed against the historical backdrop of the land occupations in Peruvian cities since the 1930s Through its close ethnographic description of everyday life in a new urban neighbourhood this book reveals how social and spatial categories and boundaries are continually negotiated in people s quest for mobility and progress Cecilie degaard argues that conventional meanings of prosperity and progress are significantly altered in interaction with Andean understandings of reciprocity By combining a unique ethnographic account with original theoretical arguments the book provides new insight into the cultural cosmological and political dimensions of mobility progress and market participation
