British Women Writing Fiction Abby H.P. Werlock, 2000-02-09 Original essays by American and British scholars offer a reader friendly introduction to the work of Angela Carter Doris Lessing and a dozen other British women writers British women in the second half of the 20th century have produced a body of work that is as diverse as it is entertaining This book offers an informal jargon free introduction to the fiction of sixteen contemporary writers either brought up or now living in England from Muriel Spark to Jeanette Winterson *British Women Writing Fiction* presents a balanced view comprising women writing since the 1950s and 1960s those who attracted critical attention during the 1970s

and 1980s and those who have burst upon the literary scene more recently including African Caribbean and African women. The essays show how all of these writers treat British subjects and themes sometimes from radically different perspectives and how those who are daughters of immigrants see themselves as women writing on the margins of society. Abby Werlock's introduction explores the historical and aesthetic factors that have contributed to the genre showing how even those writers who began in a traditional vein have created experimental work. The contributors provide complete bibliographies of each writer's works and selected bibliographies of criticism. Exceptional both in its breadth of subjects covered and critical approaches taken, this book provides essential background that will enable readers to appreciate the singular merits of each writer. It offers an approach toward better understanding favorite authors and provides a way to become acquainted with new ones.

Intentions in the Experience of Meaning Raymond W. Gibbs, 1999-09-13 What do our assumptions about authorship matter for our experience of meaning? This book examines the debates in the humanities and social sciences over whether authorial intentions can or should constrain our interpretation of language and art. Scholars assume that understanding of linguistic and artistic meaning should not be constrained by beliefs about authors and their possible intentions in creating a human artifact. It is argued here that people are strongly disposed to infer intentionality when understanding oral speech, written texts, artworks, and many other human actions. Although ordinary people and scholars may infer meanings that diverge from or extend beyond what authors intend, our experience of human artifacts as meaningful is fundamentally tied to our assumptions of intentionality. This challenges the traditional ideas of intentions as existing solely in the minds of individuals and formulates a new conceptual framework for examining if and when intentions influence the interpretation of meaning.
