Loving Creation Gary Chartier,2022-09-27 Is it true that all we need is love Does love capture the essence of Christian ethics Does a love centered ethic need to be impartial in a way that leaves no room at ground level for relationships and projects What is the place of well being in an ethic of love Loving Creation The Task of Moral Life seeks to answer these questions by showing how a love ethic and an ethic of creation are not at odds but rather reinforce each other Gary Chartier articulates a love centered creation ethic or a creation centered love ethic and applies it to such issues as sex economic life love for enemies and political order In the book Chartier offers a powerful alternative both to natural law theories that seem to lose sight of the welfare of actual people and to the accounts of Christian love that embrace an alienating impartiality He develops an understanding of Christian love as focused on creation that can contribute effectively to enriching both social practices and personal lives Loving Creation is unabashedly theological But the theological considerations it adduces are ones that will allow Christians to engage in the public sphere with adherents of other religious traditions and of none It is a contribution not only to theological understanding but also to personal moral reflection to church practice and to Christian participation in public life

Reviving the Golden Rule Andrew DeCort, 2025-10-02. The Revolutionary Power of Loving Your Neighbor. Discover the transformational power of neighbor love in theologian and ethicist Andrew DeCort's *Reviving the Golden Rule*. This thought-provoking work illuminates the revolutionary ethics of loving your neighbor, weaving together history, theology and practical guidance. Through this in-depth historical survey of the ethics of neighbor love, DeCort invites readers to reclaim loving their neighbor as a powerful force for justice, healing and human flourishing. The biblical charges to love your neighbor as yourself and to do to others as you would have them do to you are at the heart of Abrahamic faith. DeCort argues that they are also at the heart of some of the most groundbreaking developments in human rights and the common good. Jesus taught neighbor love and promised, "Do this and you will flourish." But Christians today are at high risk of ignoring or overthrowing the most daring teaching of Jesus' movement. Having heard it repeatedly and having benefited immensely from its cultural effects, we have become dulled to neighbor love's revolutionary power. In response, *Reviving the Golden Rule* explores the ethics of neighbor love from the ancient world to modern times. Examines how neighbor love challenges the oppressive power of othering and expands human connection. Highlights inspiring figures like Dietrich Bonhoeffer, Mother Teresa and Oscar Romero who practiced neighbor love among marginalized communities. Addresses instances where Christians have failed to uphold neighbor love. Provides practical guidance on how to love and embrace othered neighbors today. In one of the only

historical and constructive works on the ethics of neighbor love DeCort invites us to reclaim this ancient movement Get your copy today and learn to embody this revolutionary practice amidst crises for the healing of the world Mind, Body, and Emotion in the Reception and Creation Practices of Fan Communities Jessica Hautsch,2023-07-12 This book argues that fans creative works form a cognitive system fanfic fanvids and gifs are not simply evidence of thinking but acts of thinking Drawing on work in cognitive linguistics neuroscience cognitive philosophy and psychology particularly focused on 4 E cognition which rejects Cartesian dualism this project demonstrates that cognition is an embodied emotional and distributed act that emerges from fans interactions with media texts technological interfaces and fan collectives This mode of textual engagement is deeply physical emotional and social and is enacted through fanworks By developing a theory of critical closeness this book proposes a methodology for fruitfully putting cognitive science in conversation with fan studies
