Creating Wealth Building The Wealth Pyramid For Individuals Corporations And Society

Mohamed Ariff, Shamsheer Mohamad

Creating Wealth Building The Wealth Pyramid For Individuals Corporations And Society:

Corporations Are People Too Kent Greenfield, 2018-10-23 Why we're better off treating corporations as people under the law and making them behave like citizens Are corporations people The U S Supreme Court launched a heated debate when it ruled in *Citizens United* that corporations can claim the same free speech rights as humans Should corporations be able to claim rights of free speech religious conscience and due process Kent Greenfield provides an answer Sometimes With an analysis sure to challenge the assumptions of both progressives and conservatives Greenfield explores corporations' claims to constitutional rights and the foundational conflicts about their obligations in society He argues that a blanket opposition to corporate personhood is misguided since it is consistent with both the purpose of corporations and the Constitution itself that corporations can claim rights at least some of the time The problem with *Citizens United* is not that corporations have a right to speak but for whom they speak The solution is not to end corporate personhood but to require corporations to act more like citizens

Greedy Business Leonard Amattey, 2015-12-04 The book *GREEDY BUSINESS* is a satire directed at human behaviour particularly in regards to human priorities to choose between acts of humanitarianism and greed The author notes that politics indeed is part and parcel of life but nowhere is it so vividly portrayed than in education and at the workplace to satisfy human obsession with greed Then he admitted I cannot deny my role in that but that cannot justify it As individuals we allow Greed to Triumph Morality without humanitarian consideration for others in our efforts to improve quality of our life and that is inexcusable This book is therefore about that aspect of human thinking that can justify individuals doing things to others that they would not like others to do them I wonder how many of us find the necessity to take a step backward to explore the choices we have made to do the things we have done to others that we would not like to be done to us because if done to us they would likely destroy our quality of life Yet somehow some of us can justify some of the things we do to others as the result of the choices we have made without humanitarian consideration for them in the name of improving quality of our lives at the expense of our victims Well I did take a step backward and my observations suggest that humans' obsession with Greed confirms why we do the things to others that we would not like to be done to us Our tendency to want more and more at the expense of others without humanitarian consideration for the quality of life of others has blinded our moral responsibility to be fair The purpose of writing this book is therefore to share my observations and thoughts with others in the hope that they too may find the need to take a step backward and explore the choices made in the past to do certain things to others that they would not like others to do to them

Communities' Sustainable Experiences Salvatore Di Dio, 2024-06-24 THE TRUE DIMENSION OF CITIES IS NOT SPACE BUT TIME Konstantinos Doxiadis This shift from the spatial dimension to that of time places the focus on the individual's scale of perception How individuals spend their time shapes and infuses our environments with meaning influencing social dynamics and cultural values The Next Generation EU project exemplifies this shift by integrating lifestyle and environmental sustainability into urban planning The goal is to

facilitate a just transition to a circular economy redefining not only the physical layout of cities but also the lived experience of its citizens within these evolving spaces The evolution from the Citizens Sustainable eXperience to the Communities Sustainable eXperience in the interdisciplinary research funded by the European Union underscores a significant progression from individual to collective experience UX rooted in human centered design focuses on optimizing products and environments for personal use and satisfaction CX expands these principles into the realm of more than human centered design where the focus extends beyond individual users to include wider community interactions and ecosystems Therefore the shift from UX to CX in urban planning and design is profoundly ethical It calls for a paradigm that prioritizes collective well being and sustainable development inclusivity and cooperation *Islamic Wealth Management* Mohamed Ariff,Shamsher Mohamad,2017-12-29 From an Islamic perspective although the ownership of wealth is with God humans are gifted with wealth to manage it with the objective of benefiting the human society Such guidance means that wealth management is a process involving the accumulation generation purification preservation and distribution of wealth all to be conducted carefully in permissible ways This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion **Corporate Responsibility for Wealth Creation and Human Rights** Georges Enderle,2021-01-28 Enderle illustrates the importance of corporate responsibility by integrating wealth creation and human rights An invaluable reference for students teachers and researchers in business and economic ethics social sciences and human rights studies as well as for leaders in business civil society organizations and international institutions **Encyclopedia of Business Ethics and Society** Robert W. Kolb,2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society **Falter** Bill McKibben,2019-04-16 This is Bill McKibben at his glorious best Wise and warning with everything on the line Do not miss it Naomi Klein author of This Changes Everything and The Shock Doctrine Thirty years ago Bill McKibben wrote The End of Nature the first book that alerted us to the dangers of climate change Falter is a new call to arms to save not only our planet but our very souls as well Over tens of thousands of years through the harnessing of nature the development of civilization and the application of new technologies human beings have created the world we live in But as McKibben points out in this provocative and sobering look at the world today we are fast approaching a tipping point putting into question the viability of humanity itself McKibben argues that we have failed to recognize how individual actions often operated against our collective interest and as a result we now face three daunting challenges to adjust to a new life on a broken planet to fight the hyper individualism that now animates government and business and to reverse the ways that technology is bleaching out the variety of human existence He asks if we still retain the tools and social capital to fight these larger forces and if we are willing to make the effort **Corporate Social Responsibility and Development in Pakistan** Nadeem Malik,2014-08-13 Corporate Social Responsibility CSR has not only become an

important concept for corporate organizations but also civil society community state and the multilateral and bilateral development agencies It has acquired great significance in the aftermath of the global financial crisis of 2008 not only in the advanced economies but also in emerging and developing countries In contemporary Pakistan problems of poverty unemployment illiteracy and human rights violations are frequent These problems cannot be dealt with by the state and civil society alone and call for corporate involvement Backed by rich empirical data based on extensive fieldwork and complemented with the official data sources this book offers a detailed analysis of the socially responsible corporate policies and practices of companies operating in the emerging economy of Pakistan Employing qualitative and quantitative research methods it examines the sensitivity of companies in Pakistan to CSR measured in terms of their policies and perceptions about CSR their CSR development activities perceptions about development Non Governmental Organisations and channels and forms of support for development projects both monetary and non monetary Filling a significant gap in our understanding of an important part of contemporary Pakistan s development and the outlook of companies towards CSR the book will be of interest to policymakers and scholars working in the fields of Development Studies Business Studies and Asian Studies

Introduction to Suits index Gilad James, PhD, Suitability index is a ranking system that is used to measure how well a particular product matches the needs and preferences of the target market It is a widely used tool in the finance industry especially in asset management investment banking and consulting Suitability index aims to evaluate the suitability of a given financial product based on several factors such as investment goals risk appetite and investment horizon In other words a high suitability index indicates that the product is an appropriate fit for the investor while a low suitability index means that it may not be an appropriate investment for that investor The suitability index can also be used to compare different financial products and find the most appropriate one for a given investor In asset management the suitability index is commonly used to assess the suitability of different mutual funds exchange traded funds ETFs and other types of investment vehicles Similarly in investment banking the suitability index can be used to evaluate the suitability of different financial products such as debt and equity offerings for different types of investors such as institutional investors and retail investors Overall the suitability index is a useful tool for assessing the fit between a financial product and the investment goals preferences and constraints of a given investor or group of investors However it is important to note that the suitability index is not a perfect measure since it is based on subjective factors such as risk appetite and investment horizon Therefore investors should also consider other factors such as past performance fee structure and the quality of the investment team before making their investment decision Despite its limitations the suitability index remains a valuable tool for assessing the suitability of financial products and can help investors make more informed investment decisions

Civilizing the Economy Marvin T. Brown, 2010-04-01 When a handful of people thrive while whole industries implode and millions suffer it is clear that something is wrong with our economy The wealth of the few is disconnected from the misery of the many In Civilizing

the Economy Marvin Brown traces the origin of this economics of dissociation to early capitalism showing how this is illustrated in Adam Smith's denial of the central role of slavery in wealth creation In place of the Smithian economics of property Brown proposes that we turn to the original meaning of economics as household management He presents a new framework for the global economy that reframes its purpose as the making of provisions instead of the accumulation of property This bold new vision establishes the civic sphere as the platform for organizing an inclusive economy and as a way to move toward a more just and sustainable world *Building a People of Power* Robert C. Linthicum, 2015-09-15

Jesus never intended the church to become an institution he intended it to be a people of power transforming the world Power is the capacity ability and the willingness to act Most people and systems use power to dominate and control but others have used it relationally to liberate transform and even save Built around a biblical exploration of shalom *Building a People of Power* explains how local churches can use power to transform their communities and their cities Detailed power strategies are presented enabling churches to build productive relationships to address the primary issues of people they serve and to develop strong leaders faithful organizations and redeemed neighborhoods that live out shalom **Handbook of Research on Teaching Ethics in Business and Management Education** Wankel, Charles, Stachowicz-Stanusch, Agata, 2011-12-31

This book is an examination of the inattention of business schools to moral education addressing lessons learned from the most recent business corruption scandals and financial crises and also questioning what we're teaching now and what should be considering in educating future business leaders to cope with the challenges of leading with integrity in the global environment Provided by publisher *Implementing Corporate Social Responsibility* Subhasis Ray, S. Siva Raju, 2014-03-19

This book is a compilation of Corporate Social Responsibility CSR theory and practices with special reference to the Indian context Over the last few decades which have seen the onset of globalization emergence of the industrial sector and an increased focus on community development much attention has been focused on the role of corporations towards developing those societies where their operations are based The introduction and evolution of CSR theories and practice in the developed countries has given CSR theorists and practitioners the guidance to appropriately place and implement CSR initiatives to help develop their role in the developed societies However while ample literature exists on such CSR practices little has been done to aid the development of CSR in developing countries Characterized by peculiar economic political and social settings the developing world needed its own blueprint for how CSR works and how it could best succeed The need for doing is especially pertinent to a country like India which is presently at a very crucial threshold economically politically and socially Given the need to contextualize CSR theory and practice to the developing context several CSR theories and practices have been explored in this book which will provide readers with a thorough understanding of CSR and its successful implementation **Corporate Responsibility and Competitiveness** Gilbert Lenssen, Wojciech

Gasparski, Boleslaw Rok, Peter Lacy, 2006 This e book draws on papers presented at the European Academy of Business in

Society Fourth Annual Colloquium in Warsaw Poland December 2005 The event was hosted by the Leon Kozminski Academy of Entrepreneurship and Management and the Warsaw School of Economics It was part of the EABIS led project The European Platform for Excellence in CSR Research supported by the European Commission s Sixth Framework Research Programme The Colloquium and this e book are an attempt to lift debate to another level on both corporate responsibility and competitiveness in order to push the boundaries of knowledge They are also an attempt to build the platform for serious understanding at the level of corporate strategy and public policy
