

A top-down view of a person's hands writing on a white notepad. The notepad is open, and the text "YOU CREATE YOUR OWN REALITY" is written in a casual, handwritten style. The person's right hand is holding a pen with a colorful, floral pattern, and their left hand is resting on the left side of the notepad. The notepad is placed on a dark wooden surface. Surrounding the notepad are several whole oranges, some with green leaves, and many orange peels scattered around. The lighting is soft, and the overall composition is aesthetically pleasing.

Mindfestation CKP SUNIL KUMAR,2024-05-17 We often have a tendency to passively accept and adopt suggestions readily embracing diverse perspectives from both familiar sources and the wider world However the majority fail to benefit from this approach resorting to mere rationalization and verbalizing after encountering setbacks People tend to seek guidance and insights externally neglecting to explore their own inner selves As the old adage goes we often assign greater importance to what is distant rather than what is within reach Until individuals undergo a

process of self reflection and rejuvenation they may fail to recognize their own intrinsic power and worth We have yet to explore or acknowledge the potential within us failing to engage in introspection and cultivate a meaningful relationship with our own minds Harnessing the extraordinary capabilities of our minds through mindful practices can significantly transform us into resilient and exceptional individuals poised to excel and lead with confidence

way For a long time you have been clear about the medicinal uses of leaves and stems and seeds and flower petals and so on but you are only getting about one tenth of the energy available to you in this way It is always better to interact with the plant and its energies in its live form but you need to know how The intention of this book is to reveal that formula so that you can stop searching for magical cures to diseases by exhausting the supply of life forms around you A much simpler process is available This book will not just comment on things you know about but show you what you are missing in your interaction with plants Dandelion In this book the plant world will speak through elders This has certain advantages allowing them to include knowledge and wisdom about their home planets In this way you will learn some of the old wisdom again shared so that you can discover how to interact with the plants while they are alive while they are a portion of the Creator of All Things With this you will learn the beginnings the reminders and for many of you the fulfillment of the transformation of that which does not work in your body in your life in your community and in your world the transformation of what you call dis ease or disharmony into harmony and ease Zoosh Isis and Grandfather Each plant brings a wondrous gift to share with humanity enjoy it
