Creating The Commonwealth Of Australia:

The Making of the Australian Commonwealth, 1889-1900 Bernhard Ringrose Wise,1913 **The Making of a Generation** Lesley Andres,Johanna Wyn,2010-10-16 Secondary school graduates of the late 1980s and early 1990s have found themselves coping with economic insecurity social change and workplace restructuring Drawing on studies that have recorded the lives of young people in two countries for over fifteen years The Making of a Generation offers unique insight into the hopes dreams and trajectories of a generation Although children born in the 1970s were more educated than ever before as adults they entered new labour markets that were de regulated and precarious Lesley Andres and Johanna Wyn discuss the consequences of education and labour policies in Canada and Australia emphasizing their long term impacts on health well being and family formation They conclude that these young adults bore the brunt of policies designed to bring about rapid changes in the nature of work Despite their modest hopes and aspirations for security those born in the 1970s became a vanguard generation as they negotiated the significant social and economic transformations of the 1990s

Australian Science in the Making R. W. Home,Roderick Weir Home,1990-09-28 In this 1989 volume the Australian Academy of Science celebrates and assesses two centuries of Australian science **Economic Innovations** Beth Webster,Bill Scales,2022-07-11 This book is a series of vignettes about changes to Australian institutions organisations and systems that have significantly improved economic and social well being for Australians Economic system innovations have had a profound impact on our lives from the invention of banking in the middle ages to the organisations established by the United Nations post WWII However their intangible nature means that few people identify these changes alongside physical inventions Although invention is normally an incremental process with copying and adaption being the norm the authors focus on reforms that were principally new to the world at the time of implementation The book is not about the reforms and how well they worked per se rather about the people and the political struggle to get them adopted The authors have chosen to focus on the stories where Australia has either taken a global leadership role or made a considerable advance in a particular new institution What these stories show is that leadership in institutional innovation can come from many quarters academia the community politics and the bureaucracy Often the most successful teams combine people from all quarters albeit with support from the fourth estate The work shows how many reforms began with modest beginnings often an ordinary person with a vision and how it takes several attempts to get change accepted This key volume can be used to teach students of economics political economy and politics It illustrates the type of networks actions and advocacy that is needed to get reform started and implemented and is written in a style to engage policy and think tank audiences **The Australian Constitution as it is Actually Written** Graham L Paterson,2015-04-03 The continued usage of the Australian Constitution Act UK by the Australian Governments and the judiciary is a confidence trick of monstrous proportions played upon the Australian people with the intent of maintaining power Authority over the Australian Constitution Act lies not with the

Australian government nor with the Australian people It rests solely with the UK Only they have the authority to repeal this legislation The late Professor G Clements UK QC and emeritus Professor in Law at Cambridge University This book is the first of its type to be written in the last 114 years Nobody has done so since Quick and Garran in 1901 The British Colony of Australia Act 1900 represents Australia's primary law It is still used today as our Constitution That Act controls all our lives The British Government added the first eight parts of this Act and the ninth part is the draft Constitution That draft was changed by the British Government before they would allow the Act to be presented to their Parliament This amended Constitution was never presented to the people of Australia for their approval The document is steeped in nineteenth century colonial thinking and has never been brought up to date It remains antiquated and bears very little relationship to the way we are governed It is a myth that the referendums in 1899 and 1900 asked the people to approve the draft Constitution The few selected people were asked if they wanted union of the Colonies or disunion The acceptance of the original draft Constitution was taken for granted The draft Constitution was never about democracy or Australian sovereignty Another of the myths this book debunks is that the Constitution can only be changed by a referendum of the Australian people The fifty colonial representatives referred to as our the founding fathers saw fit to include thirty nine provisions allowing Parliament to change the Constitution any time the ruling party wished They have done this so many times in the last 114 years that no one has kept count Read this book and find out why this primary law of the land is never taught in our schools and how it controls your life
