## **Creation Of Art New Essays In Philosophical Aesthetics:**

The Creation of Art Berys Gaut, Paisley Livingston, 2003-03-17 Although creativity from Plato onwards has been recognized as a topic in philosophy it has been overshadowed by investigations of the meanings and values of works of art In this collection of essays a distinguished roster of philosophers of art redress this trend The subjects discussed include the nature of creativity and the process of artistic creation the role that creative making should play in our understanding and evaluation of art relations between concepts of creation and creativity and ideas of tradition metaphor genius imagination and genre This is an important collection that will be eagerly sought by philosophers of art as well as theorists in art history cinema studies and literary criticism

**The Idea of Creativity** Michael Krausz, Denis Dutton, Karen Bardsley, 2009 Seventeen philosophers scientists and artists consider questions about the intriguing idea of creativity Is creativity essentially mysterious Is creativity essentially inspirational or rationalistic What role does skill play in creativity What are the criteria of creativity Should we assign logical priority to creative persons creative processes or creative products How do forms of creativity relate to different domains of human activity How does creativity relate to self transformation How does our knowledge of the circumstances of creativity effect our appreciation of its products Can a recipient of a creative work also be a creator of it Contributors include Margaret Boden Larry Briskman John M Carvalho David Davies Berys Gaut Rom HarrA c Carl R Hausman Albert Hofstadter Arthur Koestler Michael Krausz Peter Lamarque Thomas Leddy Paisley Livingston Michael Polany Dean Keith Simonton and Francis Sparshott

**Artificial Intelligence, Co-Creation and Creativity** Francisco Tigre Moura, 2024-08-01 Artificial intelligence AI has deeply impacted our understanding of creativity and the human ability to generate creative outputs New applications for creative tasks are rapidly evolving and new tools are constantly being developed with much greater optimal capabilities Importantly the success of implementing such tools for creative tasks is still heavily dependent on human supervision and input Therefore it is vital to understand and critically reflect on the nature of co creative processes between humans and AI This book addresses such issues and provides insights into how humans can augment their capabilities for generating creative and innovative outputs by successfully co creating with AI The book is intentionally divided into three main parts to allow for a comprehensive and holistic perspective on human and AI co creation for creative tasks The sections are divided as follows Part 1 Principles of AI and Creativity Part 2 Critical Issues on Artificial Co Creation and Part 3 Industry Specific Discussions Consequently the book provides a holistic insight on the topic covering various issues and perspectives and enabling an accessible read to a broad audience For example chapters cover examples across different industry sectors including music arts science and management Furthermore the book covers critical questions involving copyrights ethical concerns relationship with algorithms and context based issues Only by critically reflecting on the intrinsic issues of AI and learning how to work with it effectively for creative purposes will we be able to benefit from its full potential to augment human creative abilities in an appropriate

manner This novel edited collection is an essential read for scholars working on the intersection of AI creativity arts and management
