Hood, 2011-01-01 Cloth was one of the most important commodities in the early modern world and colonial North Americans had to develop creative strategies to acquire it Although early European settlers came from societies in which hand textile production was central to the economy local conditions in North America interacted with traditional craft structures to create new patterns of production and consumption The Weaver's Craft examines the development of cloth manufacture in early Pennsylvania from its roots in seventeenth century Europe to the beginning of industrialization Adrienne D Hood's focus on Pennsylvania and the long sweep of history yields a new understanding of the complexities of early American fabric production and the regional variations that led to distinct experiences of

industrialization Drawing on an extensive array of primary sources combined with a quantitative approach the author argues that in contrast to New England rural Pennsylvania women spun the yarn that a small group of trained male artisans wove into cloth on a commercial basis throughout the eighteenth century Their production was considerably augmented by consumers purchasing cheap cloth from Europe and Asia making them active participants in a global marketplace Hood s painstaking research and numerous illustrations of textile equipment swatch books and consumer goods will be of interest to both scholars and craftspeople *Thomas Jefferson, the Classical World, and Early America* Peter S. Onuf, Nicholas P. Cole, 2011-10-19 Thomas Jefferson read Latin and Greek authors throughout his life and wrote movingly about his love of the ancient texts which he thought should be at the core of America s curriculum Yet at the same time Jefferson warned his countrymen not to look to the ancient world for modern lessons and deplored many of the ways his peers used classical authors to address contemporary questions As a result the contribution of the ancient world to the thought of America s most classically educated Founding Father remains difficult to assess This volume brings together historians of political thought with classicists and historians of art and culture to find new approaches to the difficult questions raised by America s classical heritage The essays explore the classical contribution to different aspects of Jefferson s thought and taste as well as examining the significance of the ancient world to America in a broader historical context The diverse interests and methodologies of the contributors suggest new ways of approaching one of the most prominent and contested of the traditions that helped create America s revolutionary republicanism Contributors Gordon S Wood Brown University Peter S Onuf University of Virginia Michael P Zuckert University of Notre Dame Caroline Winterer Stanford University Richard Guy Wilson University of Virginia Maurie D McInnis University of Virginia Nicholas P Cole University of Oxford Peter Thompson University of Oxford Eran Shalev Haifa University Paul A Rahe Hillsdale College Jennifer T Roberts City University of New York Graduate Center Andrew Jackson O Shaughnessy University of Virginia [Art & Industry in Early America](#) Patricia E. The Struggle for Power in Colonial America, 1607-1776 William R. Nester, 2017-10-11 America's colonial era began and ended dramatically with the founding of the first enduring settlement at Jamestown on May 14 1607 and the Declaration of Independence in Philadelphia on July 4 1776 During those 169 years conflicts were endemic and often overlapping among the colonists between the colonists and the original inhabitants between the colonists and other imperial European peoples and between the colonists and the mother country As conflicts were endemic so too were struggles for power This study reveals the reasons for stages and results of these conflicts The dynamic driving this history are two inseparable transformations as English subjects morphed into American citizens and the core American cultural values morphed from communitarianism and theocracy into individualism and humanism These developments in turn were shaped by the changing ways that the colonists governed made money waged war worshipped thought wrote and loved Extraordinary individuals led that metamorphosis explorers like John Smith and Daniel Boone visionaries like John Winthrop and Thomas Jefferson entrepreneurs like William Phips and John Hancock dissidents like Rogers Williams and Anne Hutchinson warriors like Miles Standish and Benjamin Church free spirits like Thomas Morton and William Byrd and creative writers like Anne Bradstreet and Robert Rogers Then there was that quintessential man of America's Enlightenment Benjamin Franklin And finally George Washington who more than anyone was responsible for winning American independence when and how it happened
